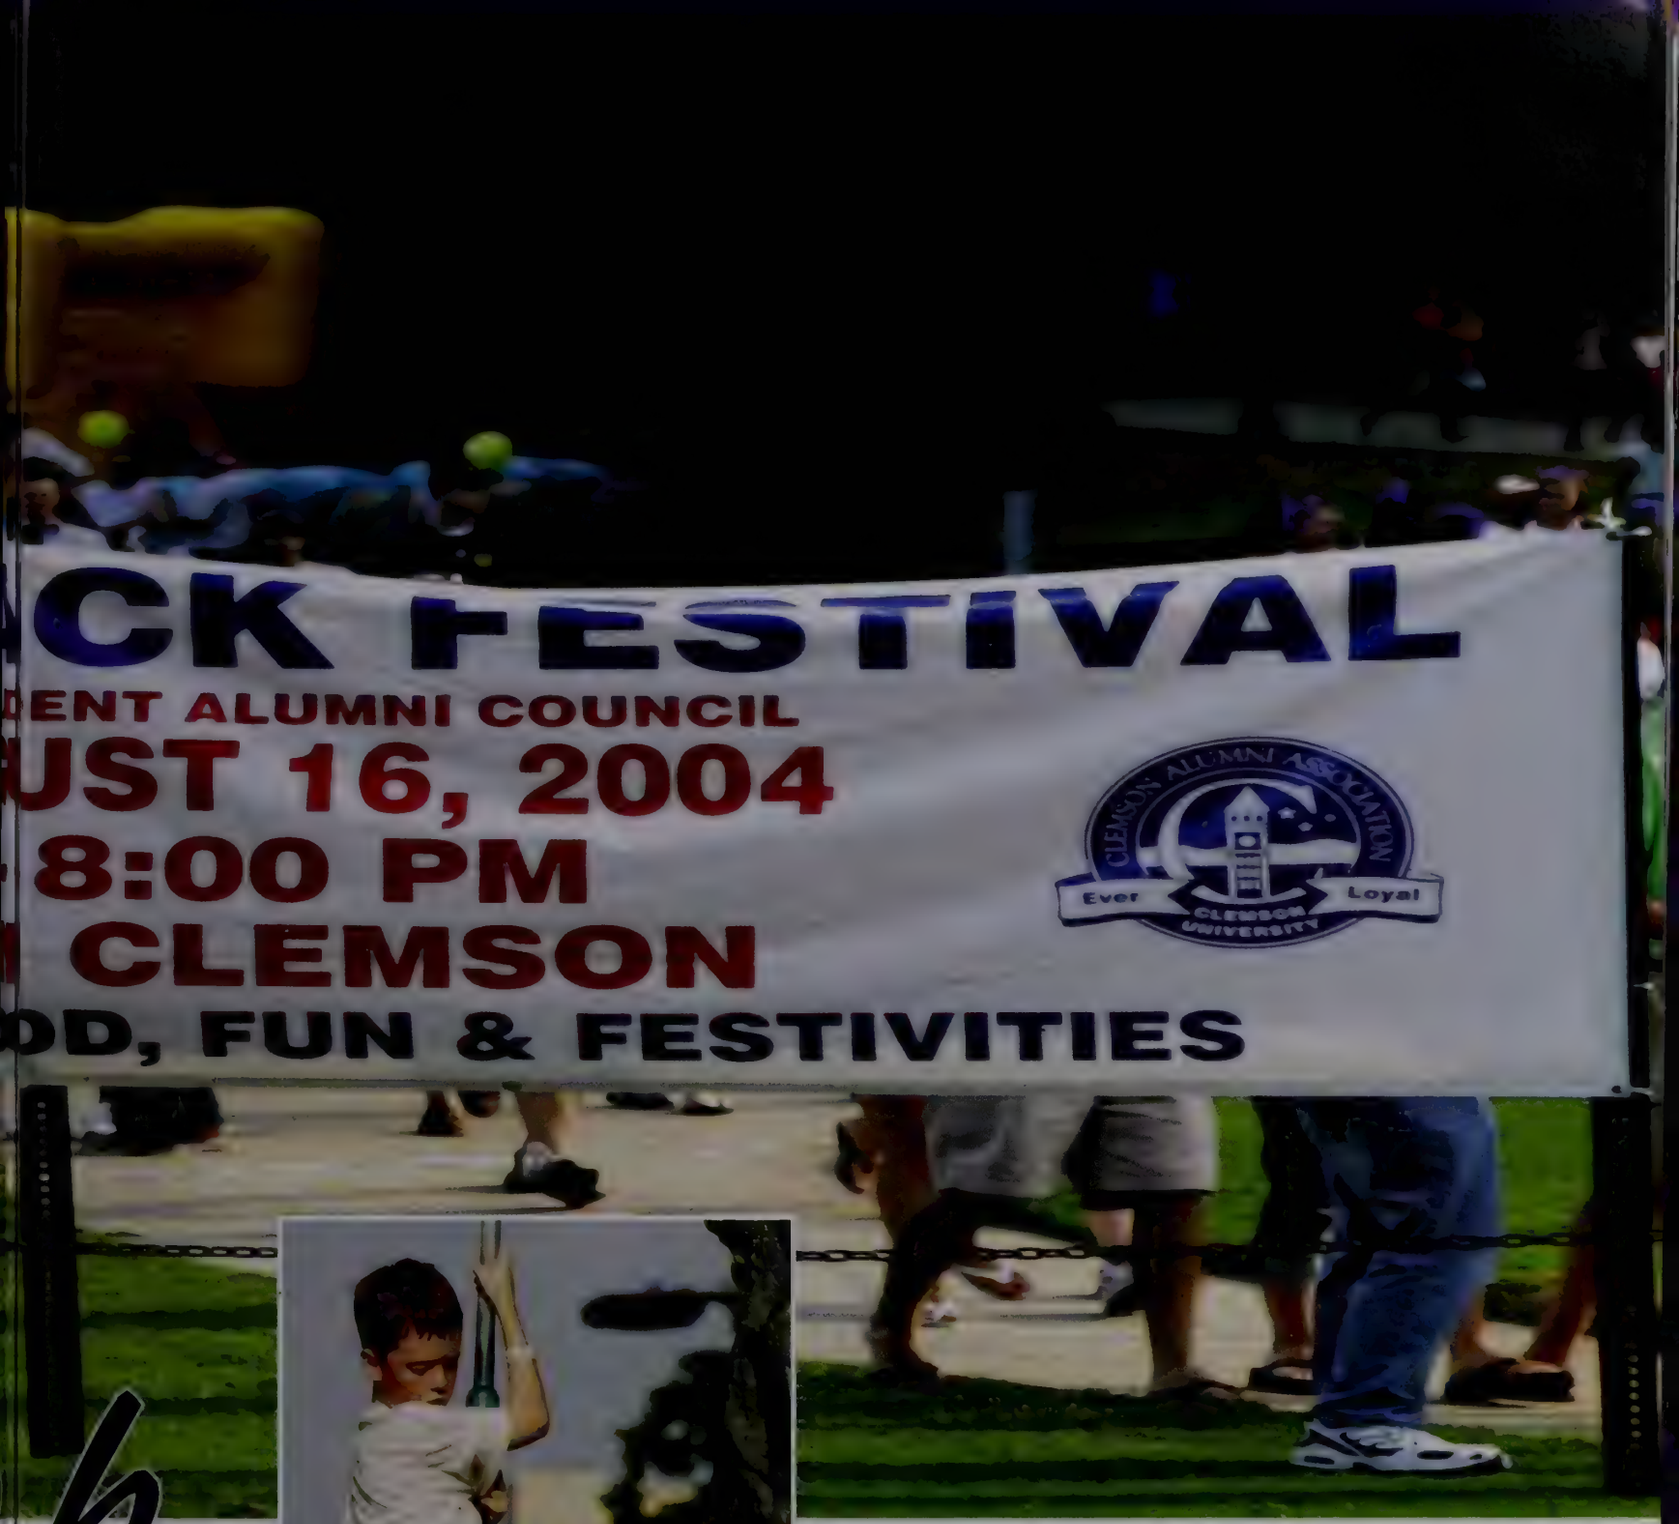
Welcome Bac

THE STREETS OF DOWNTOWN CLEMSON were once again packed with people for the annual Welcome Back Festival. Both students and members of the surrounding community flooded the streets of Tiger Town to welcome in the new school year by partaking in food, fun, and, most importantly, FREE items handed out by the sixty-five local vendors whose booths lined Collge Avenue. The festival, featuring appearances by President Barker, Clemson Mayor Larry Abernathy, Clemson coaches, Rally Cats, Clemson cheerleaders, and the Tiger, was organized by Student Alumni Council, Student Alumni Association, and the city of Clemson.

David Tucker



Tigers come together to gather for the annual Welcome Back Festival to kickoff the new school year. This year's festival was marked by great weather and a wonderful turnout. Photography by David Tucker

Kids of all ages, and those who are kids at heart, enjoyed the activities at the festival. This young, adventurous boy returns to the ground after tackling the rock-climbing wall at the festival.

More Fun in Tiger To

ROCK CLIMBING, BULL RIDING, JOUSTING YOUR BEST BUD: all of these activites and more were found at the annual Welcome Back Bash, part of the Welcome Back Festival sponsored by U.P.A.C. The Bash, located on Bowman Field, gave students the opportunity to enjoy [illegible] activities with old friends after a summer season apart. The festival was a great way to kick off [illegible] of another year here at Clemson University.

David Tucker

Even the Tiger showed up for the festival to help advertise upcoming events on campus, such as comedian Ron White's appearance at Littlejohn Coliseum.

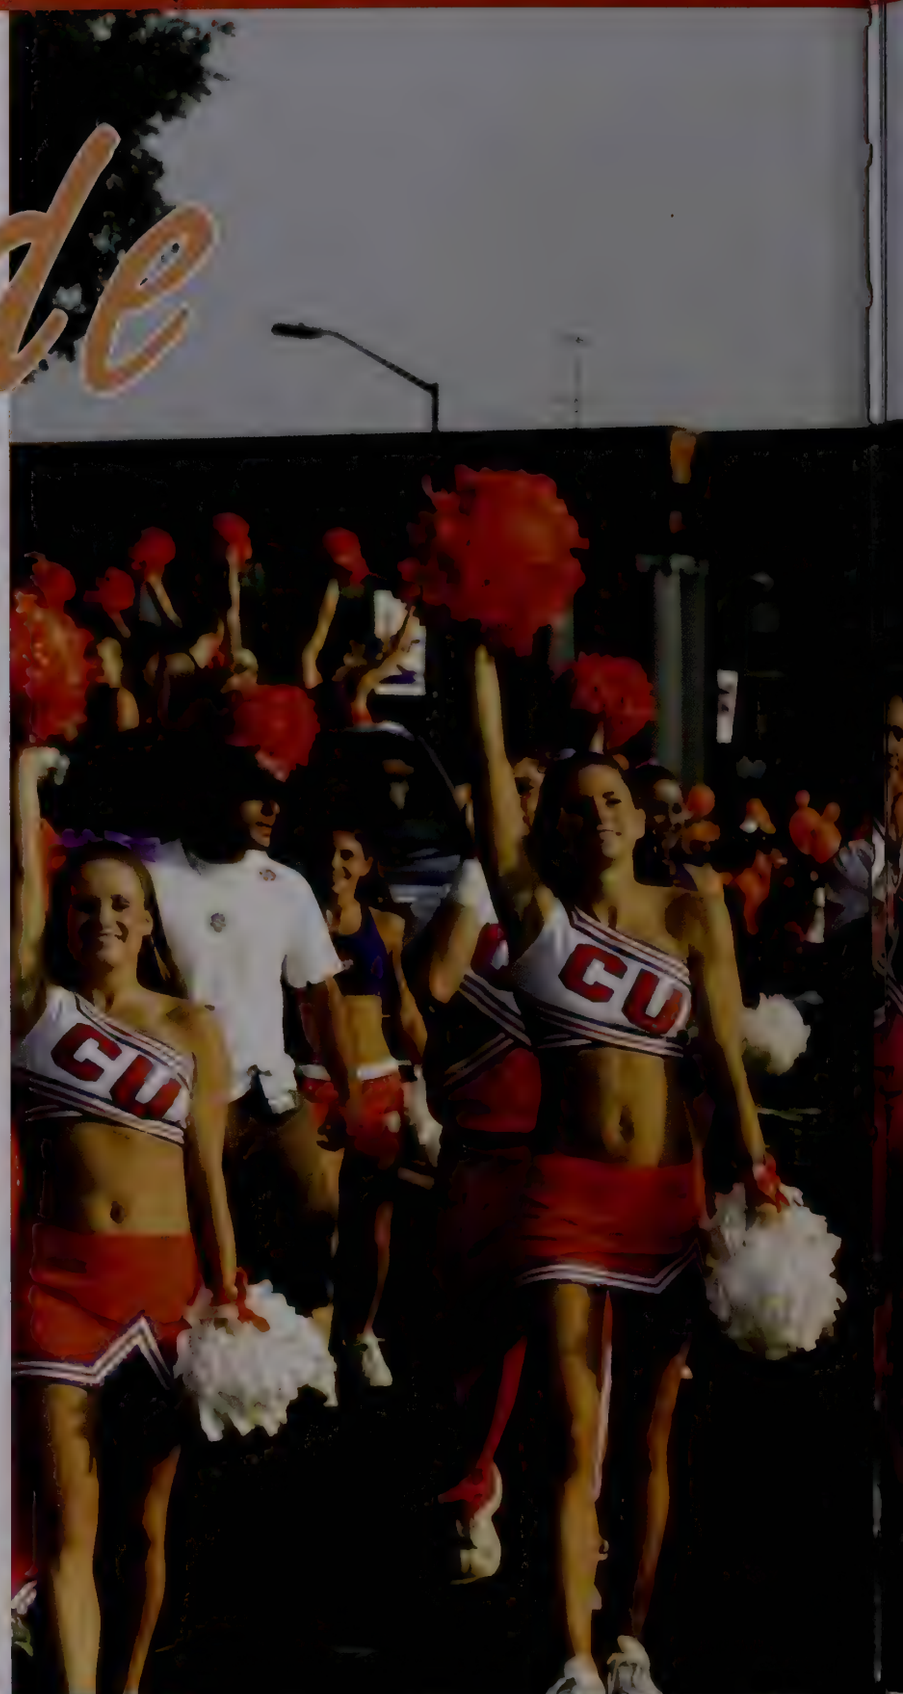
First Friday

Parade

SINCE ITS 1974 ROOTS, Clemson's First Friday parade has grown into quite a tradition. A lively way to kick off the football season, the parade celebrates the unique passion of the Clemson community. Gathered along S.C. 93 amidst the sounds of Tiger Rag and the Cadence Count cheer, Tiger fans shared their enthusiasm and optimism for the upcoming game versus Wake Forest. Central Spirit, the event's sponsor, chose an appropriate theme in "Revenge of the Tigers." Spirited sorority sisters once again built elaborate floats in hopes of receiving first place honors for their creativity. Gamma Sigma Sigma took the glory this year, not only in float building, but in the Miss First Friday pageant as well. Former IPTAY director George Bennett served as Grand Marshall. A success as usual, the First Friday parade left the crowd with a wonderful sense of impending victory.

Melissa Putney



Varsity cheerleaders Katie Murphy, Mike Easter, Leslie Templeton, Josh Golson, Day Burruss, Chris Melie, Mike Leroy, Erin Redmon, Scott Holden, and Julie Niver pump up the crowd along S.C. 93 during the First Friday parade. Photography by David Tucker

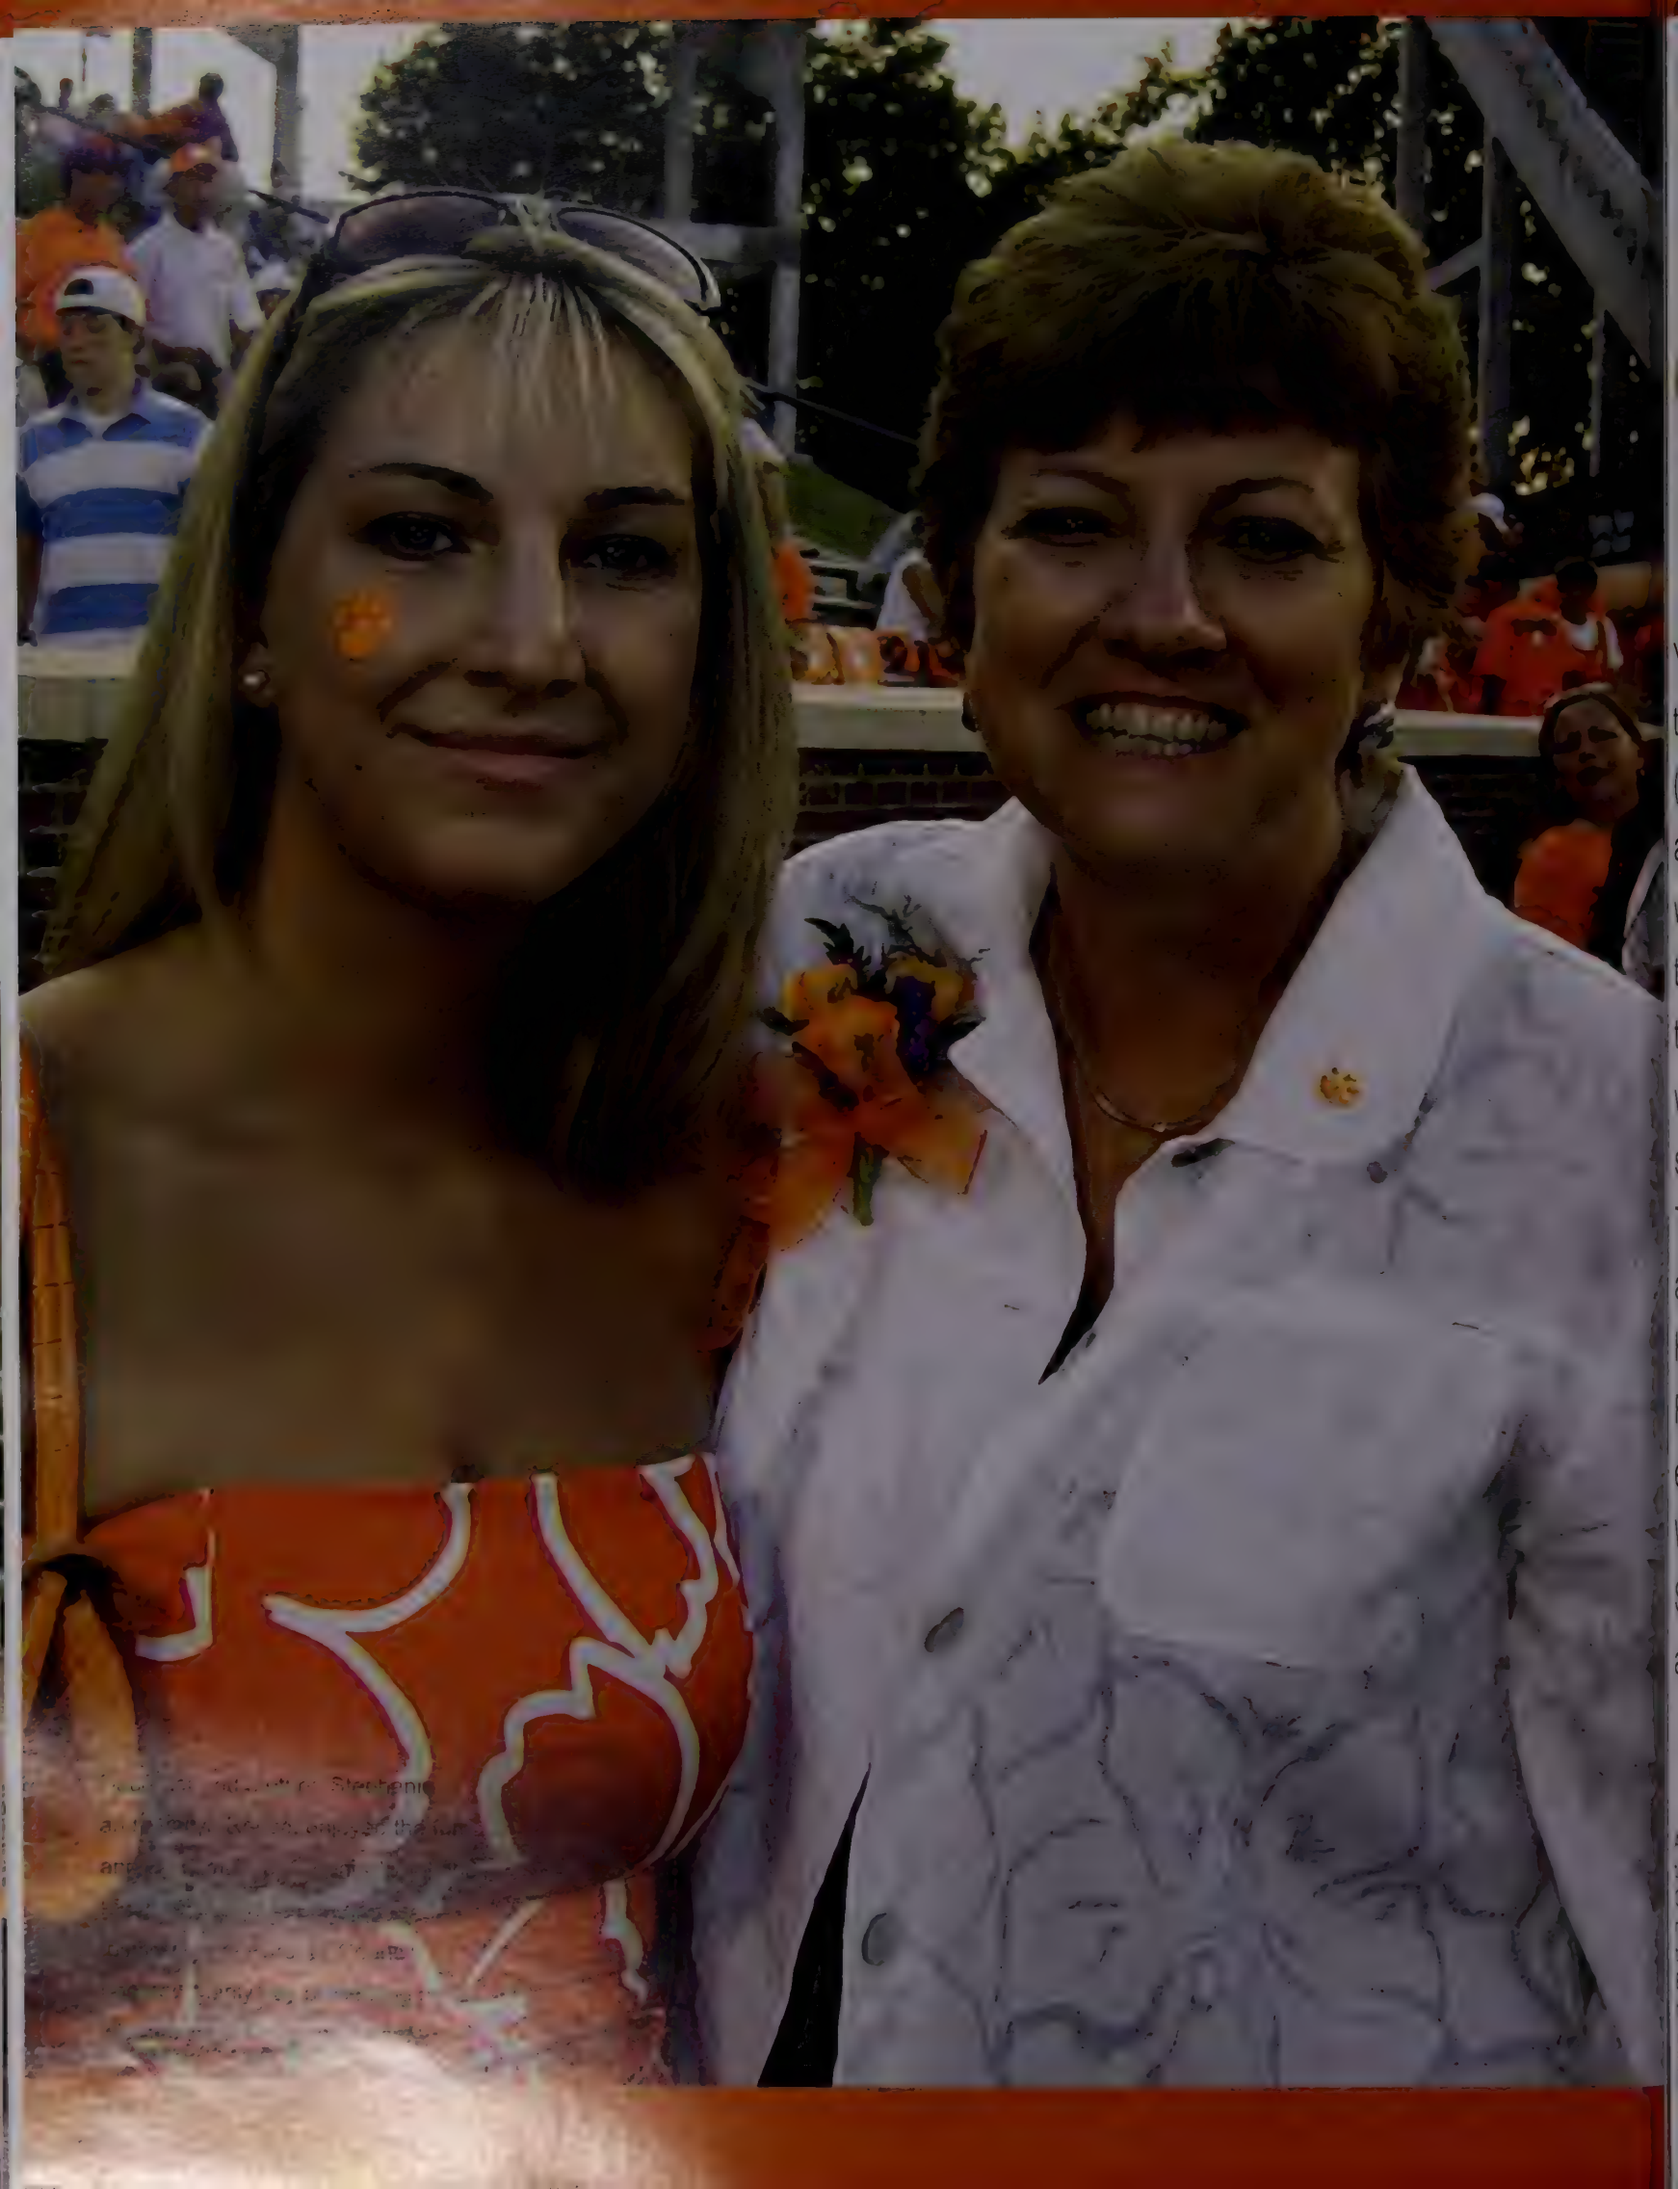
2 Trevor Tart, Robert Preston, Casey Manning, Matthew Jones, and Ian Funderburk of the Pershing Rifles march forward, leading the parade with dignity and patriotism. Photography by David Tucker

3 Sorority sisters from Gamma Sigma Sigma put the finishing touches on their float, "Voodoo Revenge," not knowing they would later win first place in the float-building contest. Photography by Mandy Baker

4 Performing their chant for the crowd, sophomores Emily Miner, Leigh Alston, and Stephanie Powell join their other sisters to show their Kappa Kappa Gamma pride. Photography by David Tucker



Families

Weekend Extravaganza provides enjoyment for all

You have been away from home for four weeks. You may be getting a little homesick. You are starting to run out of the essentials (paper towels, toilet paper, and Hot Pockets). Family weekend fell at the perfect time this year! September tenth through the twelfth was a fun-filled weekend for students and their families. The weekend began with a Study Abroad Open House on Friday afternoon. Friday evening the main event was the Family Weekend Extravaganza Show. Groups such as TIGEROAR, TakeNote, and the Tiger Pep Band performed to provide entertainment and represent the arts at Clemson. Saturday's events included a tailgate and book sale sponsored by the library and Academic Support Center, the traditional performance of the Tiger Band in the amphitheater, and the exciting Clemson versus Georgia Tech football game. To conclude the eventful weekend, families were encouraged to find a place on campus on Sunday evening to listen to the playing of the Carillon. This weekend is always a great opportunity to show Clemson parents just how great it is to be a Tiger!

On Saturday, September 11, 2004, Frank Howard Memorial Stadium was filled with over 80,000 cheering fans supporting the Clemson Tigers in their battle against the Georgia Tech Yellow Jackets. Here the Tiger offensive line prepares for a drive down the field. Photography by Matt Johnson

Tigerama

Looking to the Future

Tigerama is as important to homecoming as the floats on Bowman Field. Tigerama began in 1957 and has grown to be the largest student-run pep rally in the nation. Blue Key National Honor Society coordinated this year's event to showcase Clemson alumni and students' school spirit. Between appearances by the Clemson Cheerleaders, the Rally Cats, the Clemson University Tiger Band, TIGEROAR, TakeNote, and the Rally Boys, organizations performed skits related to the night's theme. The crowning of Miss Homecoming and an impressive fireworks display signaled the end to another exciting [illegible] energized for the football game the following day.

Homecom

THE FUTURE IS ORANGE was the theme of this year's events. Although the theme always changes, the traditons remain the same. Nothing is as timeless as the floats on Bowman Field, Tigerama, the crowning of the Homecoming Queen, and of course, the big game that crowds flock to see!

"The atmosphere around campus the whole week is just so fun, with the floats being built and Tigerama. It's a very high-energy and high-spirited game that I always look forward to!"

Barbara Watson

Pregame

Festivities

TAILGATING IS A LONG-STANDING tradition here at Clemson University. Every football Saturday, tens of thousands of people pour into Clemson for the game and participate in this pregame ritual with family and friends. In the last few years, however, there has been a new pregame tradition started by Tiger Band. In its third year, the show entitled *90 Minutes Before Kickoff* showcases selections from the band's halftime show along with well-known Clemson favorites. At the end of the mini-concert, the cheerleaders join the band for a pregame pep rally. The show concludes with Tiger Band's traditional march to the stadium.

Two of a kind Tiger & Cub

THINK 'BOUT A DYNAMIC DUO! The Tiger and Tiger Cub are known for their spunk and enthusiasm. From pumping up the crowd in Death Valley to making guest appearances at community events, these two cats never fail to bring excitement with them. They can be found tag-teaming up against the ACC's other mascots, joking around with students, and helping out the cheerleaders. The two have a special effect on people that brings out the Tiger pride in everyone. Representing Clemson [illegible] school spirit, the pair works tirelessly to entertain fans and inspire athletes. So, what do you say, how 'bout them Tigers?

Jessica Allen

One tired Tiger: every time Clemson scores at football games the Tiger does the number of push-ups that equal Clemson's total score.
Photography by Wade Beard

The Tiger's sidekick, the Tiger Cub, loves to interact with fans! He can always be found goofing off with a fellow Tiger fan at sporting events, and has a reputation for body surfing in Section A at football games. Photography by A.J. George

"The Tiger and Tiger Cub are great parts of the Clemson tradition. They really get the crowd going. No event would be the same without them."

President Barker greets students outside the President's House at the fall 4.0 drop-in. When moving into the house, his wife noticed that the married student housing they lived in at Clemson, a prefabricated thirty foot by thirty foot structure, could probably fit inside the lobby of their new home.
Photography by Jessica Allen

President James Barker

The man with "the best job in the world"

President Barker is widely liked at Clemson, and for good reason. He is seen as assessable to students, and students have even been known to invite him to dinner. But how much do we really know about the university's 14th president? For example, few know that this native of Kingsport, Tennessee considered attending Wake Forest University and pursuing a liberal arts education, rather than coming to Clemson to be an architect. During his days as a student, he was a member of Blue Key, the now-defunct Central Dance Association, and was a pole-vaulter. Though he describes himself as an "extremely average" athlete, he did letter in the sport. Once, he fell behind on an architecture project and had to do without sleep for 48 hours. Even so, he attended to his pole-vaulting obligations. But once he was lying inside the and rubber foam pit, he found it to be very comfortable. He awoke at dawn, covered in dew, and found that he had slept all night in the pit. President Barker remembers fondly his days at Clemson. He recalls discovering his strengths and weaknesses, and finding out who he was. He is glad to be here now working to create the same experience for today's students. From the time he went here until the time he was given an opportunity to come back, he still felt a connection to the university. "You leave this place, and you spend the rest of your life figuring out how to get back." As one might imagine, his favorite colors are orange and purple. And students who run afoul of Clemson parking enforcement, take heart: James Barker received parking tickets here as a student, a dean, and even as president.

President Barker and his wife, Marcia Barker, greet crowds as they lead the First Friday Parade. Mrs. Barker was the president's high school sweetheart, whom he married shortly before graduating from Clemson.

Students living on and off campus find ways to socialize and study with friends around Clemson. Photography by Justin Stone

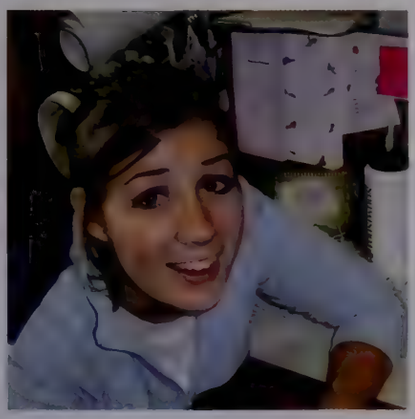
The Whole Package

FOR MANY STUDENTS, COLLEGE IS MORE than just a classroom education. It is also about experiences gained throughout their time in college, including the times they spent living on campus. From the Bryan Mall high rises to the Lightsey Bridge apartments, Clemson provides living arrangements for any student's wants. Campus living provides students with opportunities to meet new people and fully experience the whole package of what Clemson University has to offer.

Justin Stone

Using her dorm room in Lever to study, Kelly Simpson prepares for her upcoming geology exam. While Clemson's campus has numerous places to study, many students find their dorm rooms to be sufficient.
Photography by Cress Yongco

Another advantage of living on campus is being close to Bowman Field, where friends meet to play frisbee, study, or just enjoy the beautiful Clemson weather. Photography by Mandy Baker



"Living on Clemson's campus has been a great experience. I am close to all of my friends and it saves me from having to get out of bed earlier to drive to class because I'm already here!"

Paw Jobs

The Fun Times of the Tiger Part-timers

All students have been there before: they have needed money. Many students feel that there is no better way to get the money they need than to work at the same place they study. Clemson students have the opportunity to work part-time positions at several places on campus. These jobs are great ways to meet other students by interacting with customers and with fellow workers. With jobs available at Fike Fitness Center, Cooper Library, and even S.I., there is a job for everyone that, best of all, is in walking distance from any dorm. Another great thing about on-campus jobs is the feeling of getting back a little of the money that it takes to pay for tuition. Students also find ways to earn money off campus with jobs at local businesses. Waiting tables and running registers are the most common jobs that students manage to fit into their hectic schedules of classes and social activities. The experiences, the interactions with others, and the memories will always be remembered by each and every working student for years to come.

Jason James, a junior majoring in accounting, works at the Clemson Bookstore. Many students find the book store employees especially helpful when they are hunting for the textbooks they need for class.

Matt Dileshaw takes orders from hungry students at the downtown Subway. Whether it's a quick bite or a full meal, there is nothing like a sub sandwich to satisfy hunger.
Photography by David Skinner

Thursday: Oh, What a Nig

WITH ONLY TWO DAYS OF FREEDOM, the weekends pass by much too quickly. Realizing this, students ha turned Thursday night into a pseudo-weekend night as well. Two of the most popular Thursday night activities are hanging out in downtown Clemson and going to FCA's 7:17 or 9:19 worship services. Both the laidback downtown scene and the energetic, praise-filled FCA meetings offer students a chance to wind down and spend time with friends away from the books. Also, by getting out of their dorm rooms and apartment buildings, students have the opportunity to meet new people and make new friends. Now, if only Thursday night really was a part of the weekend!

Melissa Putney

Opposite page: The FCA praise band leads worship for the 7:17 crowd. On average, 1,000 students attend one of the two meetings each week. Above: Stephanie Deskins and Shawn Lee enjoy a night out at Tiger Town Tavern. Photography by Cameron Wenzel

Jeff Ward would rather play pool downtown at Tiger Town Tavern on his Thursday night than sit at home and study.
Photography by Cameron Wenzel

"Thursday nights at FCA are awesome. It's the night I get to see friends, make new ones, hear an amazing message, sing at the top of my lungs no matter how bad I sound, and get a good laugh."

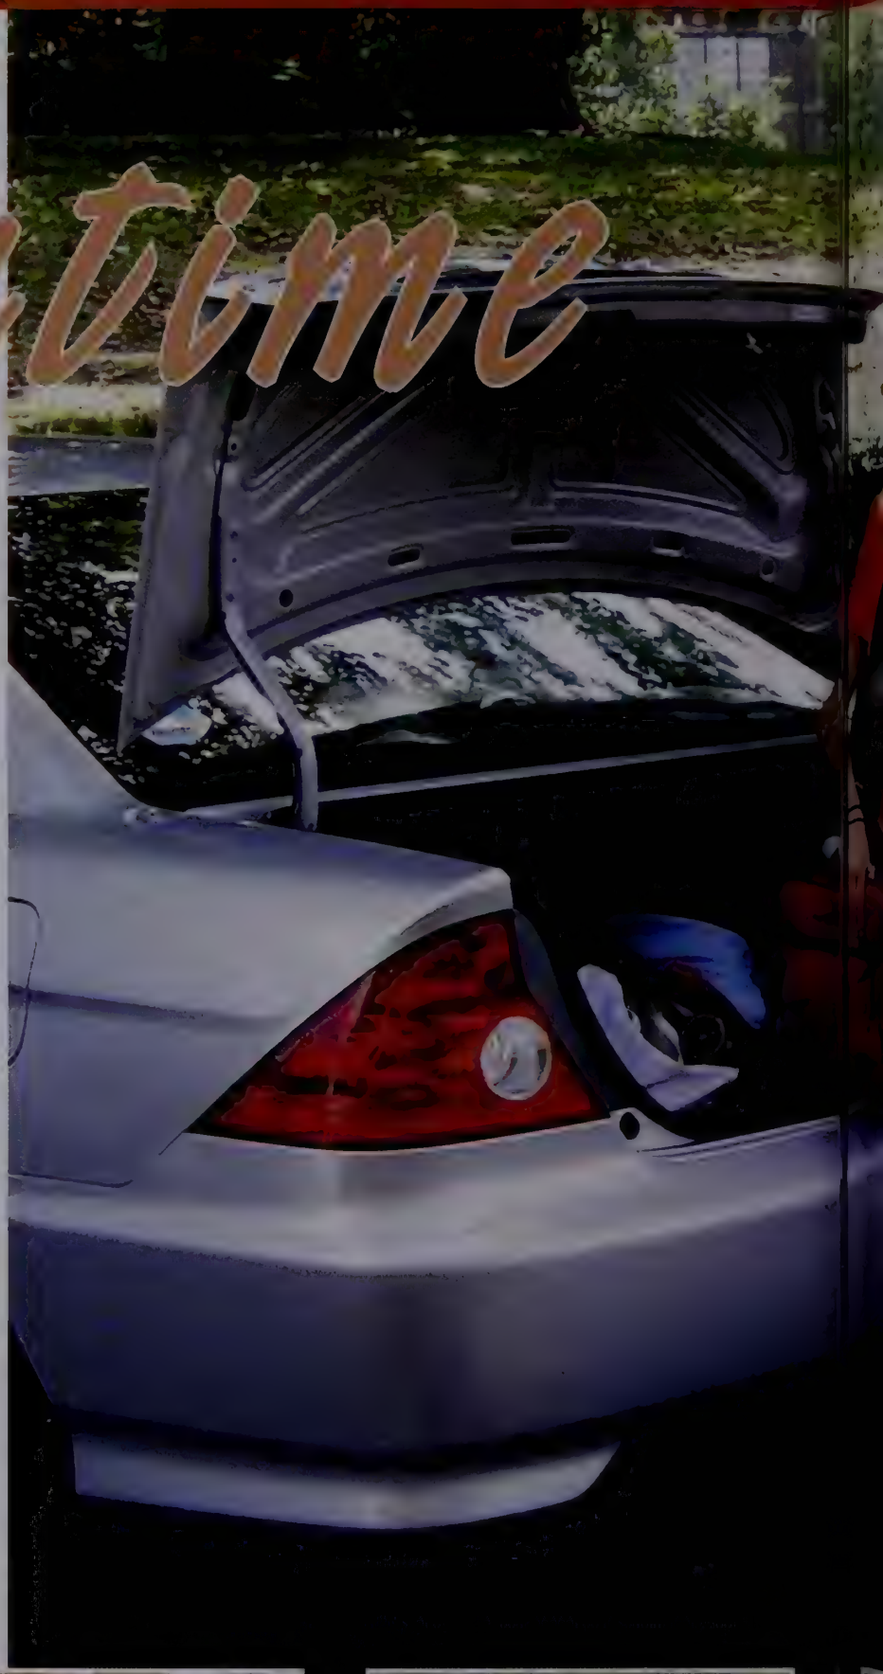
Rhett Mouzon

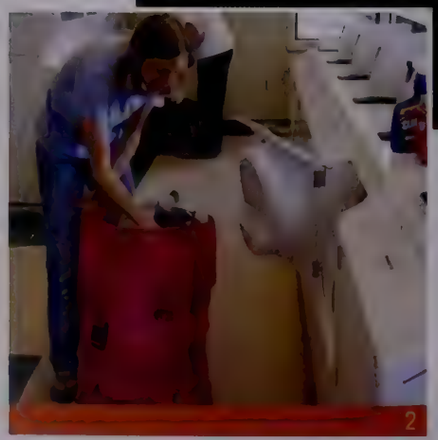
End of the Week

Downtime

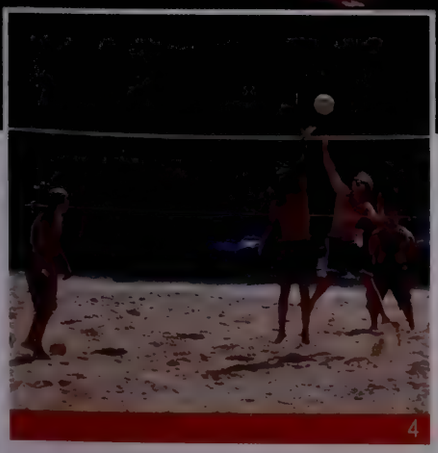
WITH TWO DAYS OF NO CLASSES, what's a student to do? College is supposed to be the "best years of your life," but most students don't consider their time in class to be what makes the years so special. The options for weekend activities are endless: go home, party it up, take a day trip to Atlanta, do volunteer work, catch up on sleep, cheer at a Clemson sporting event, work and make some money, finish up schoolwork, run errands in Anderson, go out on the town in Greenville, visit Central's new Walmart, or simply chill in the dorm with friends and a movie. No matter what their plans are, Clemson students live for the weekends, and who can blame them? Speaking for all students, every Friday, "TGIF!"

Jessica Allen





True Tiger fans Christ[illegible] Clark, Deanna Deber, [illegible] Price [illegible] their weekend fol[illegible] football [illegible] SU. Many stud[illegible] leave [illegible] to the [illegible] to take [illegible] their families.



1 Jaquette Page and Terrance Williams take a quick trip to Bi-Lo Sunday after church. The weekends are prime time to run errands that cannot get done during the week. Photography by Jessica Allen

2 Weekend afternoons are always hectic at the laundry facilities on campus. Christine Goettel loads her clothes into a machine at the Lightsey Bridge commons building. Photography by Jessica Allen

3 Traci Crocker and Euguene Livesey spend their Sunday afternoon riding bicycles along the new boardwalk at Lake Hartwell. Photography by Jessica Allen

4 Bump, set, spike! Matt McDonald attempts to block David Derreck's hit, while Matt Self and Bill Baldwin prepare for whatever may come next. Sports are a great way to wind down on the weekends and get out all of the frustration that a crazy week of classes can bring. Photography by Jessica Allen

Bouncing over the water requires riders to hang on tight! Inner tubing and skiing are some of the best ways to cool down on a beautiful summer day.
Photography by Christopher Mims

Dockside

Enjoying the Natural Beauty of Lake Hartwell

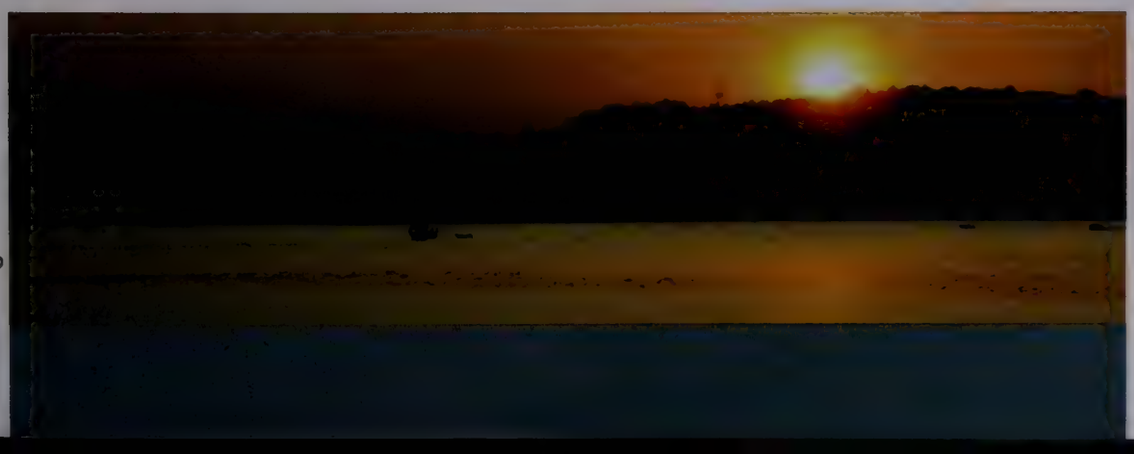
Part of Clemson's appeal can be attributed to its scenic location. The natural beauty surrounding the campus encourages students to explore the outdoors. One of the best locations to enjoy nature is Lake Hartwell.

Built between 1955 and 1963, Lake Hartwell is the 10th largest man-made lake in the country. Nearly 100 miles of the 952 miles of shoreline border the university's land. The lake is visible from many landmarks on campus, including Memorial Stadium. In fact, the dock at Seneca Marina on Lake Hartwell is a popular location for tailgating. However, due to construction on the dike this year, fewer boaters were allowed to dock and cross the highway to the stadium.

This boardwalk and nature park along the shore of Lake Hartwell was completed during the summer of 2004. Students can now enjoy the lake at any time of day from the swings under the gazebos.
Photography by Jessica Allen

Football Saturdays are not the only times when the lake is busy. Clemson varsity and club sports teams, such as women's rowing, co-ed crew, water skiing, and sailing, utilize the lake to practice and compete. Students also enjoy swimming, sunbathing, and grilling out at local beaches. Whether relaxing on its shores or boating on its waters, a day at Lake Hartwell is time well spent.

Mandy Baker



Sunset is a beautiful time of day for sailing on Lake Hartwell. The Sailing Club racing team and other athletic teams benefit from the lake's close proximity to campus.

A Sunny Afternoon on Bowman

ORIGINALLY A DRILL FIELD AND PARADE GROUND for the military corps of cadets, as well as Clemson's football and baseball field, Bowman Field is still a vitally important part of campus. It offers a sweeping view of some of the university's oldest buildings, is host to many events throughout the year, and is one of the campus' most popular recreation spots. On any day with good weather, Bowman sees many games of frisbee, football, and other sports. *Russell Cox*

"Even though I don't know who Bowman is, I enjoy his field, for it gives me much merriment and jollymaking."

Steven Spangler

Center Stage

Amphithea

THE AMPHITHEATER IS HOME TO EVENTS LIKE CONCERTS, PEP RALLIES, AND OUTDOOR CLASSES. Donations from the classes of 1915 and 1940 made the amphitheater possible. The original construction was completed in 1940, and since then the venue has undergone several changes. In 1978 a major renovation replaced wooden benches with concrete steps. The concrete steps and the green grass invite students to enjoy the sun, regroup their thoughts, and maybe get some schoolwork completed. It just takes one beautiful day on campus to notice how many people enjoy the amphitheater.

Christopher Mims

Whether studying, socializing, or sleeping in between classes, students enjoy the outdoor atmosphere of the amphitheater.
Photography by Chnstopher Mims

"It's peaceful. I can just chill out between classes, relax and look at the fountain from the reflection pond. Just to be outside instead of inside," said Gregory Fertig.
Photography by Christopher Mims

"It's relaxing, peaceful, and I can get my work done. I love the sun."

Brittany Gibbons

We can't live without

Hendrix

and the

Union

IMAGINE CLEMSON WITHOUT THE Hendrix Student Center and the University Union. What would it be like? To begin with, you'd always be hungry for some fast food, like Burger King in the East Side Food Court and Chick-fil-A in the newly remodeled Canteen. Secondly, without Loggia Latte, you would fall asleep in class much more often than you do now. The Union information desk would be gone, depriving you of easy access to airport shuttles and tickets to events at Littlejohn Coliseum. Without the bookstore, you wouldn't have any textbooks, and you would fail all of your classes. These examples can only begin to describe life without Hendrix and the Union.

Ellen Kennedy

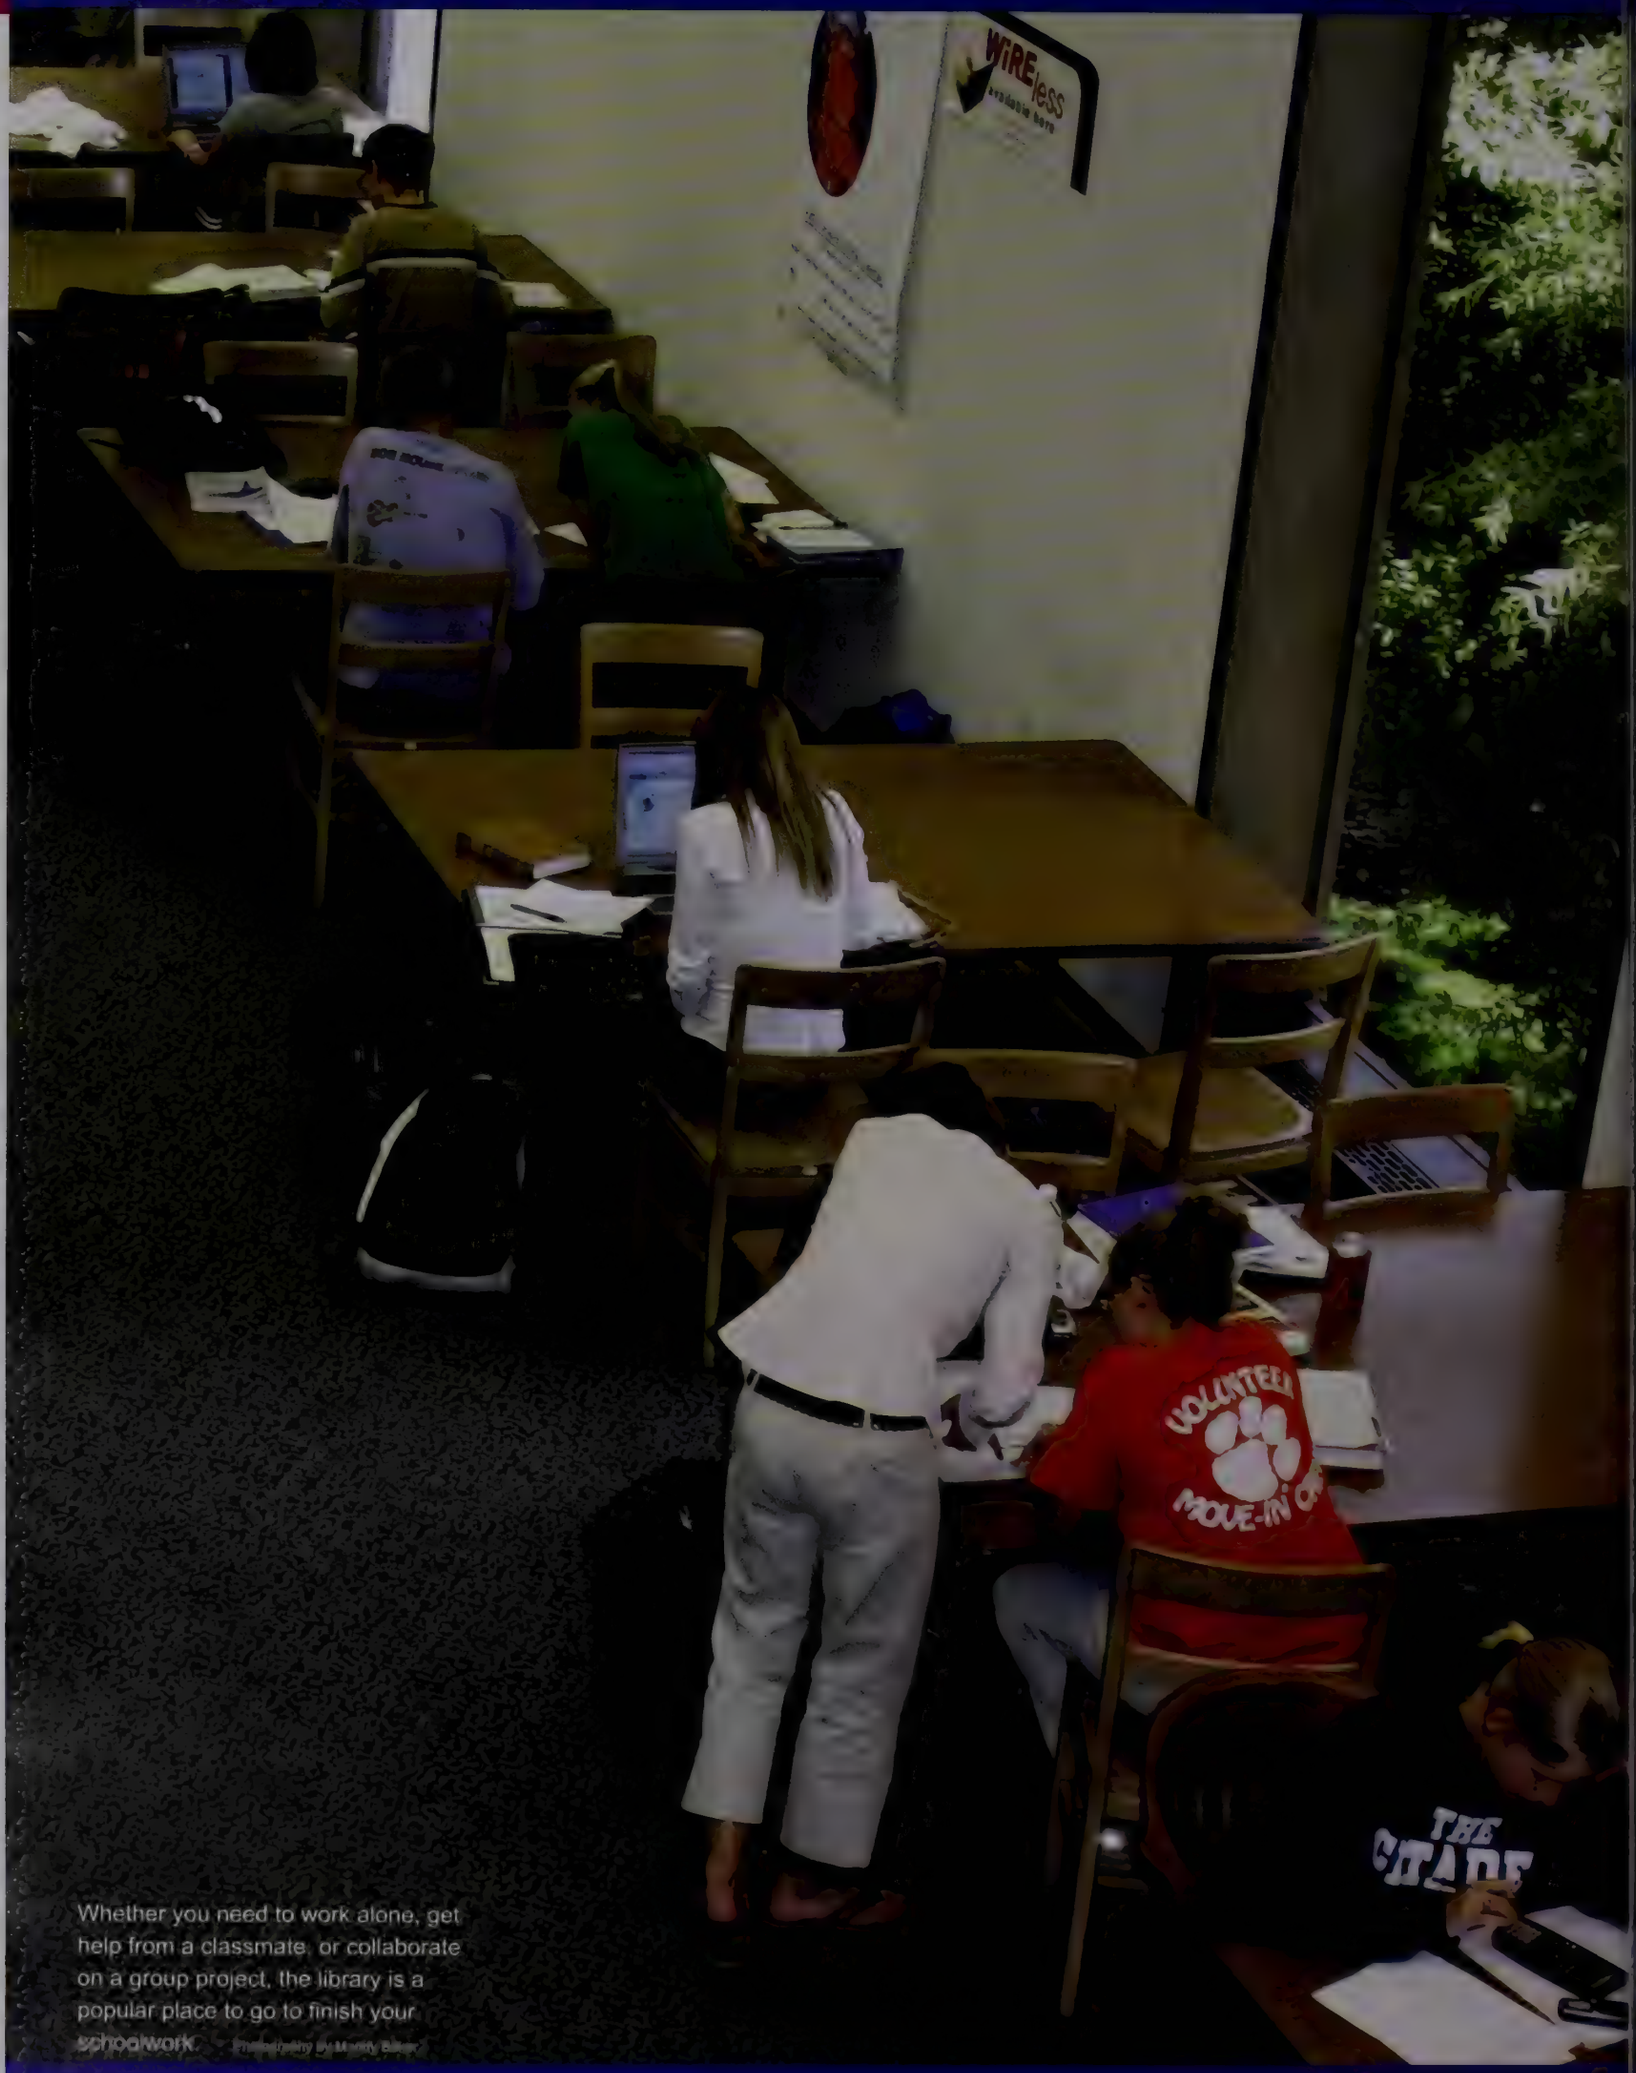
3 Allan Oliver stops by Loggia Latte between classes to get coffee. Run by students like Leigha Johnson, Loggia Latte is a collaborative project between the Union and the Food Science and Human Nutrition Department. Photography by Mandy Baker

4 These artistic representations in the University Union are both beautiful and practical. Nobody wants to look at plain cement columns. Photography by Mandy Baker

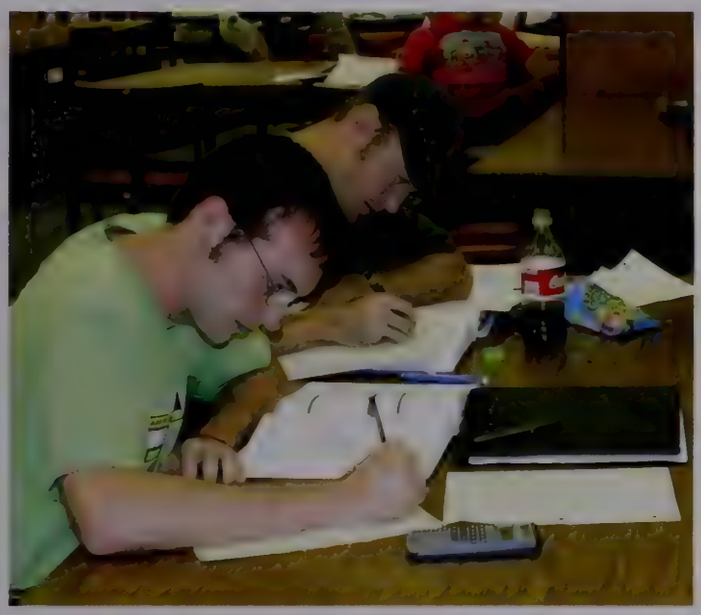


Whether you need to work alone, get help from a classmate, or collaborate on a group project, the library is a popular place to go to finish your schoolwork. Photography by Mandy Blair

Studying

Hanging with Mr. Cooper (Cooper Library, that is)

Although some students joke about the first and last time they visited the library (during their CU101 or ENGL101 library tour), many other students know Cooper Library is more than a pretty backdrop for the amphitheater and reflection pond. While the library is a place to check out books and look up articles in periodicals and reference books, it has so much more to offer Clemson students. Wireless internet throughout the building makes searching the web from one's own laptop even easier, and for students without laptops, the library will lend them one for two hours. Plus, the 24-hour computer lab now offers free printing.



Sparing no time for socializing, Drew Carter and Chad Bibb work on thermodynamics. Located in the middle of campus, the library is a great place to stop during in-between-class breaks to study for tests or finish up homework. Photography by Mandy Baker

While students do sometimes go to the library to study and read in a quiet environment, Cooper Library is also a great place for group meetings and study sessions. At times, the fifth floor of the six-story building seems to be more of a social gathering place than a library. Students don't even have to leave the library to get a snack or drink. Java City, a small coffee shop on the fifth floor, supplies students with the caffeine boost they need, and Snax and Stax, a new convenience store on the main floor, sells plenty of goodies to satisfy the cravings brought on by studying. All this is just the beginning of the Cooper Library experience!

Melissa Putney

Overlooking the reflection pond, Cooper Library is surrounded by beauty; however, this can be problematic when the weather is nice. Who wants to be inside studying on a pretty day? Photography by David Cunningham

Walk this Way: Battling Between-Class Traffic

THE BRIDGE CONNECTS EAST AND WEST CAMPUS, and most students use it everyday. Depending on the time of day, foot traffic on the bridge can be non-existent or backpack-to-backpack. Some students combat the crowd with headphones and music, while others use the time to cram in that last bit of information for the exam they're literally approaching. For those travelers paying attention to the oncoming crowd, a familiar face is a welcomed sight. A quick hello or well-wishing can brighten someone's day, or at least temporarily relieve his or her test anxiety! So the next time you're crossing the bridge, be sure to look around and enjoy the view!

Mandy Baker

The bridge is always busy between classes. Its central location on campus makes it an important part of each academic day.
Photography by Mandy Baker

Vicki Cheng and Erin Lloyd spread awareness about the St. Jude Children's Research Hospital fundraiser "Up 'til Dawn" by manning an information table on the bridge. Photography by Mandy Baker

"The bridge is a part of the campus that really combines the essential elements of beauty and function, things that exemplify what a great place Clemson is."

Jeffry Burke

How did the Tiger cross the *Road?*

YOU MIGHT SAY the Clemson campus is the perfect size. All classrooms and on-campus housing are within walking distance of one another, and the majority of students travel from class to class and activity to activity on foot. The somewhat hilly terrain makes this mode of transportation a great form of exercise, while the pretty scenery makes for a pleasant walk. Even so, students with longer trips sometimes choose to travel the campus by bike or moped. This can be an adventure in itself, as students try to find routes to class avoiding all the stairs. If students live farther away and drive to campus each morning, the shiny purple and orange CAT busses run from each commuter lot, picking up students and dropping them off closer to their classes. The trick is learning the schedule so you're not late for class.

Melissa Putney

Clemson Area Transit, better known as the CAT bus, makes it easier for commuters to travel between their cars and classes. Unfortunately, the CAT bus doesn't run cross-campus during the day.
Photography by Mandy Baker

1 As a way to get to class on time without the hassles of waiting for a bus or walking long distances, motorcycles are a popular mode of transportation for many students. Photography by Mandy Baker
2 Students have to "pit" their cars in lots inconveniently located far away from the dorms. Before he can leave campus, Jordan Gorski has to search for his car in lot R-1. Photography by Mandy Baker
3 For cross-campus trips, the bicycle is the way to go. These bikes, parked outside of the library, provide a means of transportation to group meetings and study sessions.

It Sure Feels Good To Be *Serving*

STUDENTS ENJOY GIVING BACK TO THE COMMUNITY that is home to the campus they love. There are many service clubs on campus, such as Tigers Who Care which hosts the annual Hunger Awareness Week, the university Volunteer Fair, and works with local organizations like Clemson Downs, Helping Hands, and the Clemson Child Development Center. Circle K, whose members serve food at a rescue center and sponsor Safe Kids Fest, and Sertoma Club, which is active in services such as collecting food for Our Daily Bread, are other student organizations that work to better the community. Besides service clubs, many organizations on campus work with Relay for Life and other charitable causes to provide opportunities for students to participate in events that serve the Clemson community. *Jessica Allen*

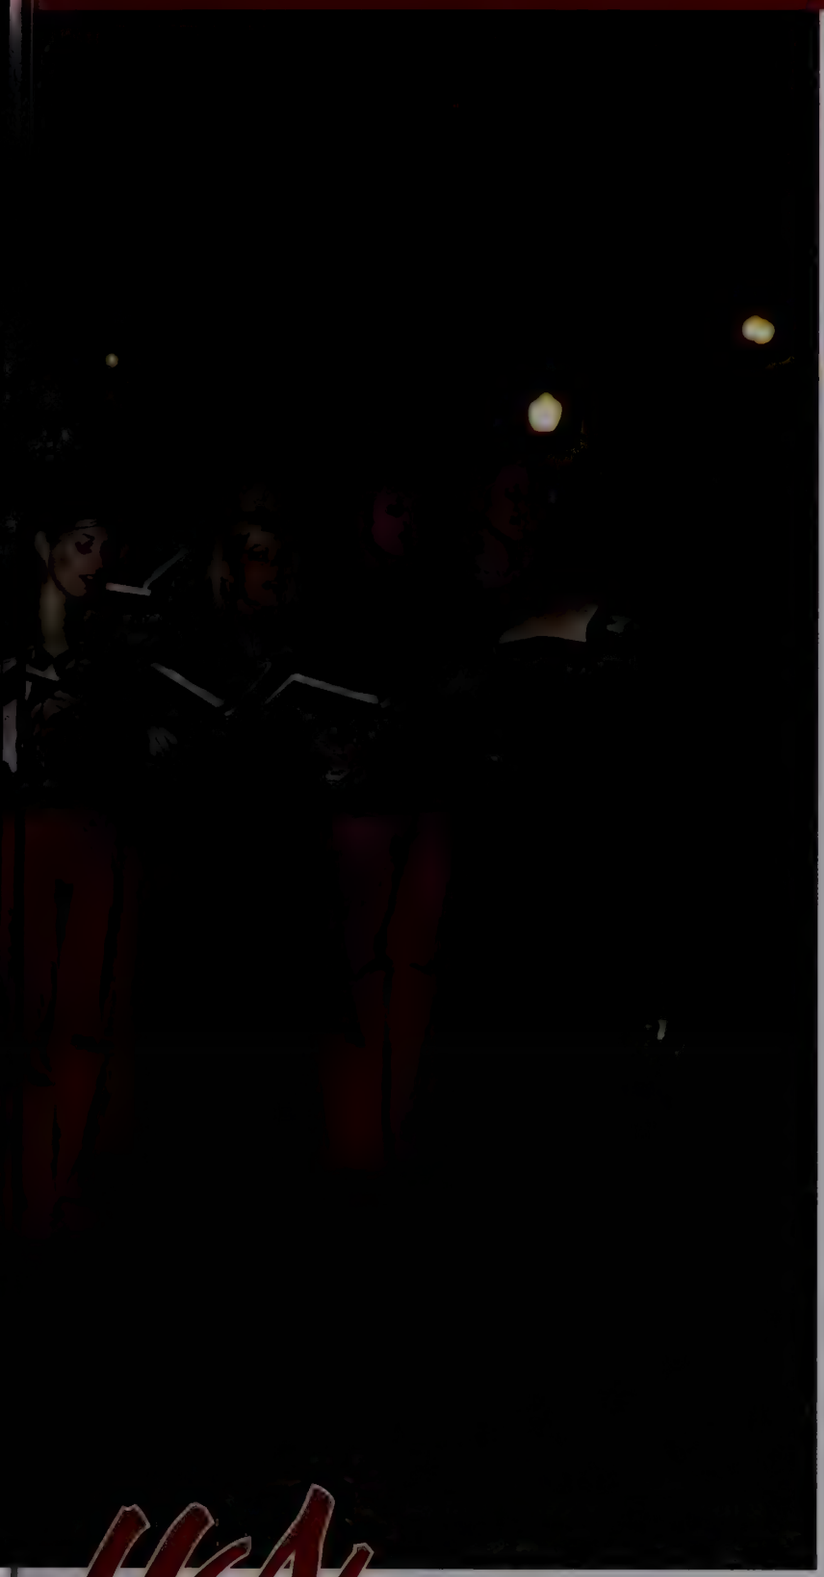
Clemson celebrates Holida

HOLIDAYS ARE THOSE SPECIAL DAYS we all know and love. For students there is nothing like spending the holidays with friends and family. During the beginning of fall, UPAC's Death in the Valley serves as a spooky fright of Halloween. The next big event for Clemson is Christmas and all the joys and tears that come with being with those we care for. Students also participate in food and clothing drives for those less fortunate. After the winter break the day of love, Valentines Day, comes, making many students start to feel the love. *Dave Skinner*



Christmas time brought out the Clemson women's accapella group, Takenote. The ladies sang the Carol of the Bells at the annual tree lighting ceremony. Photography by Mandy Baker

"I like Christmas and the break from school because you actually have a break and don't have to feel guilty about not doing work."

Holly Long

The Struggle, The Movement, The *Dream*

DR. MARTIN LUTHER KING, JR. DAY celebration began with nearly 200 members of the Clemson family using their time off to work for MLK Day of Service projects. Volunteers worked with local organizations, participated in city beautification projects, and helped elderly residents with yard work. Others donated blood, food, and clothing. Clemson also hosted MLK Educational Olympics, featuring fun, educational activities for children ages five to seventeen. Topics for adult workshops included single parenting and financial planning. The following day, Clemson's commemorative service featured keynote speaker Ambassador Andrew Young. Former Atlanta mayor and United Nations ambassador, Young worked closely with King during the civil rights movement. A rally and cross-campus march follwed the service to close the celebration.

Tigergras

"The Largest Mardi Gras Party in the Upstate"

For the tenth year in a row, Mardi Gras was brought from New Orleans to Clemson University at the Tigergras Festival. It is one of the many major events that the Union Programs and Activities Council holds each year. Previously held in the Student Union, Tigergras was held in Littlejohn Coliseum for the first time this year. It featured staples of a Mardi Gras party such as King Cake, jugglers, fortune tellers, a caricature artist, and fire breathers. The University's jazz ensemble was on hand to perform Southern Dixieland Jazz and Greenville's B93.7 FM was broadcasting live.

Joe Goldman, a caricature artist from Easley, creates a student's likeness. Photography by Rachel Lindsay

Reportedly, an excess of twenty-thousand bead necklaces were given out. The headline event of the evening was the concert by Switchfoot, performing for the first time in Littlejohn. Flush with success from their recent chart-topping album "A Beautiful Letdown," they played such songs as "Meant to Live" and "Dare You to Move." During the show, lead singer Jon Foreman put on a Clemson tie that he claimed to have bought at Goodwill. He later gave it to an audience member and went crowdsurfing. Opening for Switchfoot was NeedtoBreathe, a band from Seneca.

Rockin' with the Tigers *In Conc*

SO WHO'S ROCKING TIGER LAND? Every month this year, Clemson University has been hosting performances by a number of the country's prominent entertainers, including Hank Williams, Jr., Angie Stone, O.A.R., Keith Urban, 3 Doors Down, and Switchfoot. Comedians such as Ron White and Larry the Cable Guy also entertained the Tigers at Littlejohn Coliseum.

Cress Yongco

Hearing *Voices*

ONE OF THE BEST WAYS TO BROADEN YOUR HORIZONS is to listen to an intelligent presentation on a new subject. Throughout the school year, Clemson students have the opportunity to hear many interesting seminars and lectures given by dynamic guest speakers. College departments and organizations like the Calhoun Society sponsor these events as a way to enrich students' academic experiences. This year, some of the notable guests included CBS producer of 60 Minutes II and author George Crile, author Reverend J. Phillips Noble, Bavarian artist Nils-Udo, civil rights' activist Ambassador Andrew Young, and Unitarian minister Ralph Stutzman.

Melissa Putney

A book-signing followed Ambassador Andrew Young's keynote address at the Martin Luther King, Jr. commemorative service in January. Among his many accomplishments, Young personally fought for civil rights with King in the 1960s. Photography Courtesy Ben Shannon

Arts & More

The Brooks Center Brings Culture to Clemson

The Brooks Center for the Performing Arts is home to Clemson's choral, band, orchestra, dance, and theater groups. It also hosts many visiting shows and productions. Many students view the Brooks Center as a place for exercising their artistic abilities and showcasing their talents, while others prefer to visit for entertainment. But no matter their preference, the Brooks Center is valued by both community members and students alike as a place to enjoy the performing arts.

Elizabeth Edwards played Miss Pat in Clemson Players' presentation of *The Colored Museum* by George C. Wolfe. The play addressed the question, "How do American black men and women at once honor and escape the legacy of suffering that is the baggage of their past?"
Photography Courtesy Glen Hare

During the 2004-2005 school year, the Brooks Center brought Rockapella, Big Bad Voodoo Daddy, *Fiddler on the Roof*, *Romeo and Juliet*, and *Aida* through the Bonnie Belle Brooks Series. In addition, the Family Series brought The Spencers Theatre of Illusion, *Miss Nelson is Missing*, and *Babes in Toyland*. Thanks to the Brooks Center, Clemson also had the opportunity to enjoy the Lillian and Robert Utsey Chamber Music Series, the Department of Performing Arts Showcase, Clemson Players productions, the Women's Arts Festival, and the 14th annual Shakespeare Festival.

Jessica Allen

The Omaha Theater Company for Young People brought the musical *Miss Nelson Is Missing* to campus. Students enjoyed the opportunity to take a trip down memory lane and revisit the fun of their elementary school years.

Spring Broke!

SPRING IS IN THE AIR, and school is out for the week! Second semester is filled with things to look forward to: flip flops, baseball, the lake, the Carolina sunshine... But if there's one thing in particular that makes spring semester easier to get through, it's the promise of spring break. A week of fun, relaxation, and good times without the stress of classes, tests, and professors. No matter if you're going on an exotic vacation with your closest friends or family, taking a beach trip with a big group, or heading home for some of your mom's famous cooking, the week off is a point of anticipation for almost everyone on campus- because after that, it's all downhill until summer. *Melanie Setzer*

One World

Educating "Mr. Barker's Neighborhood" about Diversity

Clemson's One World Project celebrates the diversity of the Clemson Family, while providing tolerance education for the campus and community. The third annual celebration has expanded into year-round activities that build up to April's One World Week extravaganza. This year's events focused on AIDS and HIV, racial issues, and socio-economic differences. The week opened with the Field of Flags display on Bowman Field, consisting of over 11,000 flags, one for every 100 people who have been infected with HIV or AIDS. An AIDS Memorial Quilt was also displayed in the Hendrix Center, along with the Signs and Faces of Change display created by local school children after learning to avoid stereotypes. Skott Freedman, an internationally acclaimed musician, performed on campus and spoke about the misconceptions surrounding bisexuality. A film series featuring "The Believer" and "RACE-The Power of an Illusion" ran throughout the week. The celebration ended with Clemson Players' production of "Nickel and Dimed" examining socio-economic prejudices.

"Short courses are a lot of fun because they give students and community members a chance to experience or learn something that they might not otherwise have a chance to experience."

Jennifer Bires

Get Fit at Fike

DO YOU EVER WISH you could lose a few extra pounds? Or tone up those muscles? Have you ever felt so stressed out that you just long to relax? Or perhaps you feel so energized that you just want to get up and do something? Well, Clemson has the perfect place for you! Behind the famous Memorial Stadium is Clemson's first-rate, top-notch Fike Recreation Center. Recently renovated, Fike is complete with indoor basketball courts, tennis courts, volleyball courts, a fitness gym, a natatorium, and an oval track. Fike also has many multi-purpose rooms that can be used for various fitness classes like yoga and pilates and club sports like fencing. So what are you waiting for? Get up and get fit at Fike! *Cress Yongco*

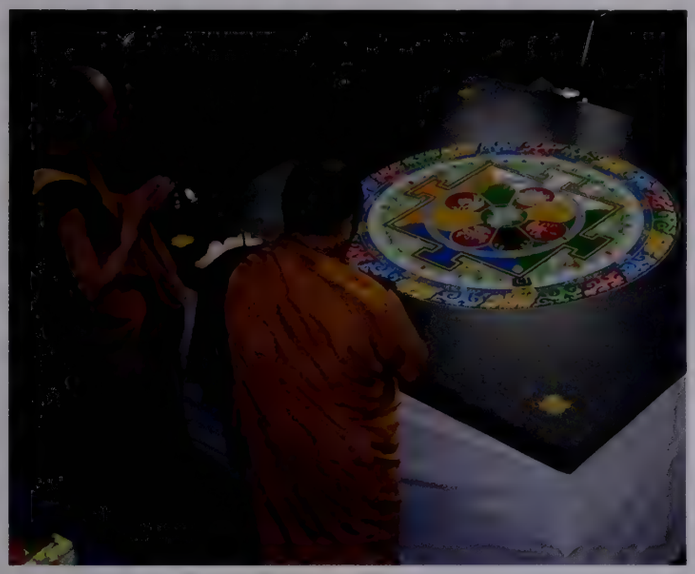
Exploring Clemson's Cultures through International Awareness Week

The Gantt Intercultural Center annually hosts International Awareness Week. The celebration offers an opportunity for people to discover the special aspects of the many diverse cultures that make up the Clemson community. The week's greatest highlight is the festivities on Bowman, which offer taste testings of international food and live entertainment. An international fashion show was put on to exhibit the unique attire of men, women, and children from all over the world. Other exotic events also took place throughout the week to promote cultural awareness. Tibetan Monks from Namgyal Monastery in Ithica, New York, constructed a Buddhist sand mandala in the entryway of Cooper Library. The monks spent ten days creating the mandala, including the Tiger Paw corners, and had it destroyed and poured into the pond all within an hour ceremony. Many students enjoyed putting off library studying to watch the monks create the mandala, and many students, faculty, and community members attended the dismantling ceremony. International Awareness Week is a wonderful way to celebrate the culture of Clemson.

Jessica Allen



The mandala is a sacred Buddhist artwork that represents the symbols of a pure, perfect universe. It is created to evoke feelings of peacefullness, well-being, and wholeness. Photography by Jessica Allen

Students from many different backgrounds had fun experiencing other cultures during the celebration on Bowman.

Campus Sweep

THE BEAUTY OF OUR CLEMSON CAMPUS, with its rolling hills, brilliant green spaces, and tall, leafy trees, never ceases to make a stunning impression on visitors to the campus. The wonderful atmosphere draws people to the school, and when asked why they chose Clemson, students often include "the beautiful campus" on their list of things that attracted them to the school. Every spring, in an effort to maintain the beauty of the campus, the Student Government organizes a day-long event to spruce it up. In 2004, following a tree planting ceremony in the Carillon Gardens, students from various organizations got down and dirty, cleaning everywhere from the Reflection Pond to Perimeter Road. To finish off the event, rock group Hoobastank, as part of MTV's Campus Invasion, entertained volunteers in Littlejohn Coliseum.

Melissa Putney

Volunteers for Student Government's annual Campus Sweep event tackled a rather large project: cleaning the temporarily waterless Reflection Pond in front of Cooper Library. Although a difficult undertaking, the cleaning is worth the work, with the fruits of the crew's labor reflected in the pond throughout the rest of the year. Photography by Mandy Baker

Bringing people to

Clemson

MANY RECRUITING EFFORTS happen at Clemson throughout the year. The Clemson University Guide Association, or CUGA, provides campus tours twice daily to potential students. CUGA is comprised of undergraduate students who serve as ambassadors and provide many services for the university. The National Scholars Program, working with the Honors College, Financial Aid, and Admissions Department, hosts a weekend for top tier students to see a showcase of the university. Prospects are received at the President's house and then interview, attend a seminar, and tour the university. Additionally, athletic recruitment goes on throughout the year, with each sport conducting its own recruitment during its off-season. The athletic department seeks to recruit top candidates who possess the ability to become successful student-athletes at Clemson.

Current Events

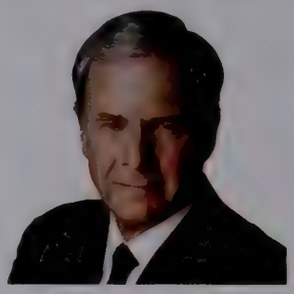
The 2004-2005 School Year in Review

A Nation at War

Although President George W. Bush announced on Thursday, May 1, 2003, that "major combat operations in Iraq have ended," the war on terrorism is still being fought in Iraq. Bush went on to say, "the battle of Iraq is one victory in a war on terror that began on September 11, 2001, and still goes on." The President described al Qaeda as "wounded, but not destroyed" and said the United States would continue to hunt down members of the terrorist network. Bush continued by saying, "we have removed an ally of al Qaeda, and cut off a source of terrorist funding. And this much is certain: No terrorist network will gain weapons of mass destruction from the Iraqi regime, because the regime is no more." To date, as a result of the war in Iraq, there have been at least 1,477 American casualties. Photography Courtesy Chris Hondros / Getty

Google Goes Public

The online search engine launched its initial public offering (IPO) on August 19, 2004, to a tune of $85 per share with a 23 billion dollar market cap, although the actual first trade was over $100. The Google IPO became the largest technology IPO in history. Creators Larry Page and Sergey Brin became instant billionaires through the offering of the number one search engine in the world. The search engine now hosts over 200 million search queries compared to the 10,000 queries when it began. Photography Courtesy Rodney Turner / KRT



Tom Brokaw & Dan Rather

National news networks faced major changes through 2004 and 2005 when both NBC's Nightly News anchor Tom Brokaw left and was replaced by Brian Williams, and CBS's news anchor Dan Rather left after a scandal over an unsubstantiated story involving President Bush in the National Guard. Their departures marked a new era in news as the internet grew as a more popular news source.

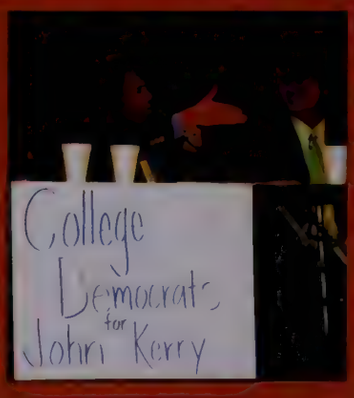
Clemson

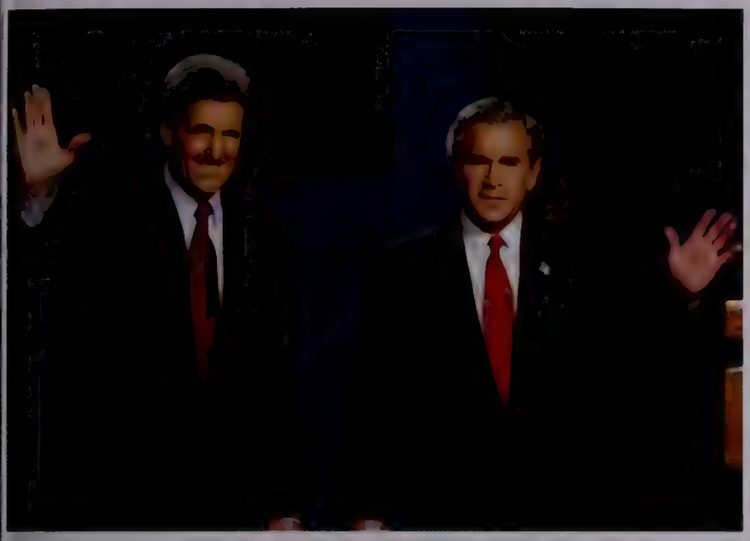
War Hits Close to Home

As war raged throughout the Middle East and numerous American and foreign soldiers were killed by insurgents, the Clemson community was faced with the cold reality of one of its own dying for his country. On January 25th, 2005, a memorial service was held by Clemson's Army and Air Force ROTC to honor Captain Mark Stubenhofer, who was killed in action in Iraq in December of 2004. Stubenhofer graduated in 1996 with a degree in history and went straight into the service after graduation.



Political Decisions

In a very intense and cut-throat election between President George W. Bush and Senator John Kerry, Clemson students participated in their own activities to make decisions and support their candidates. Many students participated in the numerous voter registratio drives held around campus to get more college-age students to vote in the November 2 election. Other events included debates between the College Democrats and College Republicans to influence students' decisions. Photo



Elections

The 2004 presidential election took place on Tuesday, November 2. Running on the Republican ticket were George W. Bush and Dick Cheney. Representing the Democratic party were Senator John Kerry and Senator John Edwards. Ralph Nader ran for the Green Party again. Just as in the 2000 presidential election, the state of Ohio determined the entire election's outcome. Ohio's twenty electoral votes went in Bush's favor, giving Bush two-hundred and seventy four electoral votes, four more than are required to win the election. Kerry conceded shortly thereafter, and President Bush was elected to office for four more years. In his concession speech, Kerry re-emphasized his devotion to the American people, to make sure that all the votes in Ohio were counted properly despite any change in the outcome of the election. Photography Courtesy Saul Loeb / KRT

Tsunami

On December 26, 2004, an earthquake of magnitude 9.0 struck in the Indian Ocean, sending a tsunami towards the coasts of several Asian and African countries. In all, eleven countries' coastlines were devastated as the tidal wave struck, and over 150,000 lives were lost in the tragedy. The count continues to rise months after the disaster.
Photography Courtesy Bagus Indahono / EPA

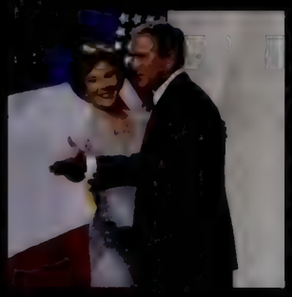
Gas Prices Rocket

As America went to war with Iraq, gas prices continued to rise throughout the nation, eventually reaching levels over $2 per gallon during the summer. Drivers began buying new hybrid cars such as the Toyota Prius and the Ford Escape Hybrid in attempt to find ways to lower their gas costs.
Photography Courtesy Jonathan Alcorn / ZUMA

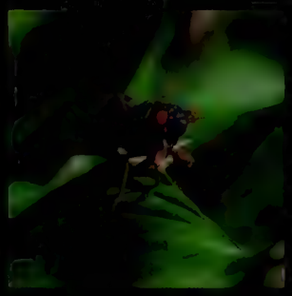
Community

Campus Tsunami Relief Efforts
After the tragedy in the Pacific, Clemson students and employees alike joined together in support of relief efforts. CAT buses could been seen driving around campus flashing the slogan "CU 4 Tsunami." Collections at basketball games were set up to allow for donations. There were also "Dollar Drives" throughout campus that allowed students to give small change, dollars, and even Tigerstripe account donations to support the relief efforts of organizations such as UNICEF, AID, and the American Red Cross. Downtown stores, Bi-Lo, and Winn Dixie also set up jars in their respective locations to help with the collection efforts. Tsunami relief bracelets sported by numerous students, faculty, and staff were also sold by organizations to show Clemson's devotion to the world.
Photography by Mandy Baker

In Brief...

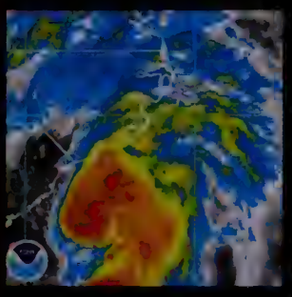


Inauguration 2005
President George W. Bush was inaugurated as President of the United States for his second term on Thursday, January 20, 2005. Special inauguration events included: the Inaugural Parade, the Oath of Office Ceremony, the "America's Future Rocks" concert, the Inaugural Balls, and the "Saluting Those Who Serve" event.
Photography Courtesy Gary Coronado / ZUMA



Cicadas
The summer of 2004 brought cicada Brood X, the largest of broods, out of the ground and into the trees. After spending seventeen years underground, the insects emerged in full force across the eastern United States. Although harmless, their "singing" or mating call was as loud as one hundred decibels in some areas. Photography Courtesy Chuck Kennedy / KRT

Yassir Arafat
At the age of seventy-five, Palestinian leader Yassir Arafat died on Thursday, November 11, 2004. Throughout his life, Arafat sought to give his people a homeland. Instead, he was seen as a ruthless terrorist. His death marks the beginning of a new era in the Middle East.
Photography Courtesy Ben Gurr / News International Photos



Hurricane Season
The Atlantic Hurricane season was one of the most active in recent years. There were fifteen named storms and nine hurricanes, including six major hurricanes. Florida faced the brunt of the storms, being hit by four hurricanes in August and September, which had not happened in nearly 130 years. The hurricane season lasted from June 1 until November 30. Photography Courtesy Rodney Turner / KRT

Sports

The 2004-2005 School Year in Review

Olympics

The 2004 summer Olympics were held where they originated, in Athens, Greece. The 11,099 athletes, representing 202 countries, competed for 17 days. The Games were special for many reasons, but one in particular: for the first time the Olympic flame traveled to all seven continents. The 2004 Games were notable for women athletes. Not only were there a record number of female athletes competing, but also many sports included women for the first time. Two such sports were wrestling and sabre fencing. Mariel Zagunis, a United States women's sabre fencer, won the gold medal, marking the first U.S. victory in fencing. The Olympics became symbolic of Iraq's new-found independence because of its participation in the Men's soccer event. The team eventually lost the Bronze medal to Italy 1-0. The United States won the most medals, with a total of one hundred and three: thirty-five gold, thirty-nine silver, and twenty-nine bronze. Photography Courtesy Pete Daniels / KRT

NBA Fight

On Friday, November 19, 2004, a fight broke out during a Detroit Pistons and Indiana Pacers basketball game. The brawl began when Indiana forward Ron Artest charged into the stands after a fan who threw a cup at him. The fan was later identified as John Green. Another fan, Charlie Haddad, ran onto the court. As a result of the fight, both Green and Haddad have been banned from attending other events at The Palace, the Pistons' home arena, and Artest was suspended by the NBA for the remainder of the season. Other players who joined in on the fight were also suspended for between one to thirty games, depending on their involvement. Photography Courtesy Splash News / Photographer Showcase

Kobe vs. Shaq

2004 saw the continuance of Kobe Bryant's sex scandal, which was dismissed by a Colorado judge, only to be reignited in Kobe's home state of California as a civil suit for more than $733,000 in emotional damages. Kobe also formally apologized to the accusing victim; however, he still maintained his innocence. Amidst the scandal, Shaq had transferred to the Miami heat where he publicly acknowledge his dislike for Kobe, his former teammate with the Los Angeles Lakers. The two met for a heated and much anticipated match on a Christmas Day game, with Shaq's new team taking the crowning win over his former home by a mere two points. Photography Courtesy Lori Shepler / L.A. Times

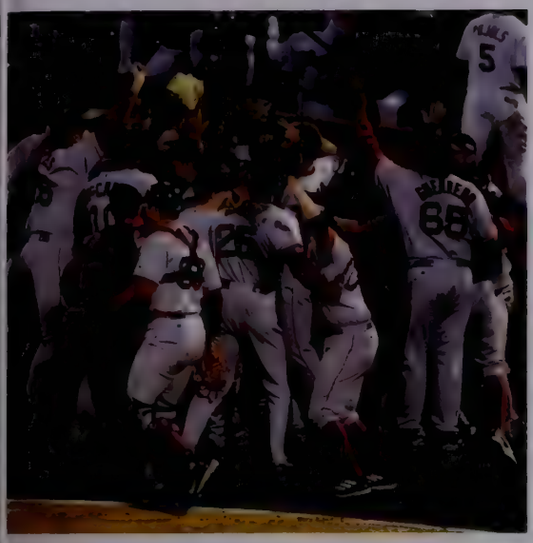
Clemson

Former Tigers in the Super Bowl

In the 2005 Super Bowl two former Clemson All-American defensive players, Brian Dawkins and Keith Adams (pictured) played for the Philadelphia Eagles. Dawkins graduated from Clemson in 1996, and played between 1992-1995, where he was ranked eighth in interceptions. Keith Adams played for Clemson between 1999-2000, and established Clemson's record for tackles for loss (35), total tackles (186), and sacks (16) in only one season, as a junior he entered the NFL Draft. They were the sixth Clemson duo to play in the Super Bowl.

Shawn Crawford

At the 2004 Summer Olympics in Athens, Greece, former Clemso athlete Shawn Crawfor competed in the men's 200 meters. He won the race with his own personal best of 19.79 seconds: enough to win against teammates Bernard Williams and Justin Gatlin. He also competed in the 100m race, but finished fourth. While at Clemso he was named to the ACC's 50th Anniversary team in 2003 and broke Clemson's indoor 200m record (which he still holds), while ranking second in the outdoor 200 race.



2004 World Series

The Boston Red Sox swept the St. Louis Cardinals to win the 2004 World Series. The win was the franchise's first world championship since 1918. The Red Sox's eighty-six year losing streak came to an end when they beat the Cardinals in a four-game sweep with a 3-0 victory in game four in the Cardinals' home, Busch Stadium. Many fans who believed in the Curse of the Bambino felt that the curse had finally been broken. Hard to believe, but the team synonymous with postseason misery and failure, the team who just one week before the World Series was only three outs from being swept by the Yankees, is now the 2004 World Series champion. The Red Sox have given their fans much to be proud of and celebrate this season. The team was never behind in the series. They had the lead at some point in every inning, a first in World Series history. In fact, the Red Sox never trailed during the postseason after tying the Yankees in the eighth inning of game five. Photography Courtesy Rob Tringali / SportsChrome

2005 Super Bowl

On Sunday, February 6, 2005, the New England Patriots beat the Philadelphia Eagles to become the Super Bowl XXXIX champions. The final score was twenty-four to twenty-one as the Patriots beat the Eagles in the Alltel Stadium in Jacksonville, Florida, with a crowd of 78,125 fans. The Patriots are now being referred to as a dynasty because they have won the Super Bowl three times in the past four years. The game's Most Valuable Player was Deion Branch. Branch tied the Super Bowl record of eleven receptions in one game. The halftime show was preformed by Paul McCartney in an attempt to make the show more conservative than last year's, which featured Janet Jackson's wardrobe malfunction.

Conmeotion

When Chickens Attack
On November 20, 2004, the annual rivalry between Clemson and University of South Carolina reached new heights. This was Lou Holtz's last game with the Gamecocks. Holtz, who lost five out of six games against the Tigers, will want to forget this last game. During the fourth quarter emotions were strong and the game was forced to stop for over ten minutes as coaches, police, and security attempted to break up a fight between the two teams. Later the two team's administration agreed to pass bowl bids, which would have been Clemson's sixth straight bowl game under Bowden. In response, six Carolina players broke into their athletic office and stole pictures of themselves and technology equipment. Fortunately the Tigers prevailed again in a victory over the Gamecocks, 29-7.

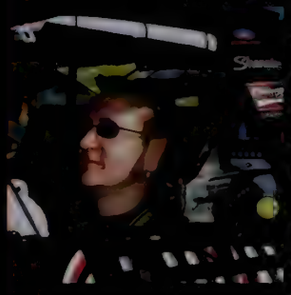
In Brief...

NHL Strike
On February 16th, 2005, the National Hockey League commissioner Gary Bettman officially declared the 2004-2005 NHL season cancelled. The players and NHL owners were unable to reach an agreement regarding the player's salaries. As a result, the season had to be cancelled. As of press time, there was mention of possible renegotiations. Photography Courtesy Thomas E. Witte / GO Icon

Steroids in the Majors
Major League Baseball faced one of its worst fears in 2004 and 2005 as evidence of steroid usage was released by several players including Jose Canseco, Barry Bonds, and Sammy Sosa. Mark McGwire (pictured) was also confronted with allegations of taking the illegal drugs by Canseco, despite his numerous denials.
Photography Courtesy Peter Stachiw / ZUMA

"Retiring"
In 2004 Ricky Williams made the choice to retire during the peak of his NFL career. Williams evidently did not want to face the press after testing positive for marijuana before the Miami Dolphins training camp. Currently, Williams studies holistic medicine in California. He currently has no plans to return to the National Football League.
Photography Courtesy Preston Mack / US Presswire / ZUMA



NASCAR
The 2004 season was filled with a competitive spirit and several new rookies. February 12, 2005, marked the beginning of the season. Jimmie Johnson won the Budlight Shootout in Daytona, FL. This season will prove to be especially memorable for drivers Mark Martin and Rusty Wallace, as this is their last racing season.

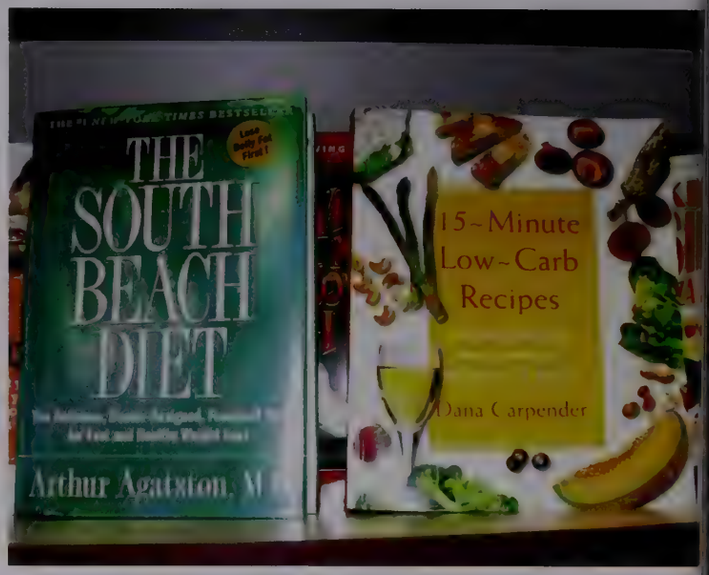
Pop Culture

The 2004-2005 School Year in Review

Low Carb Diets

This year a new fad swept through stomachs around the country, low-carb diets. South Beach Diet, Atkins, and The Hamptons diet are just a few of the types Americans are trying. The idea is to cut down or eliminate complex carbohydrates and refined sugars, such as white bread, potatoes, and white rice. While some diets are drastic, eliminating all carbs, others such as the South Beach Diet reintegrate carbs into one's diet in moderation. Low-carb has gotten a lot of criticism from nutrition experts. While moderating carbs is good, completely eliminating them can damage one's body. With all food companies offering food items in low-carb form, it looks as if the low-carb diet might not be a fad, but here to stay. Photography by Mandy Baker



Desperate Housewives

In 2004, ABC launched its very racy new series Desperate Housewives, a dark comedy delving into the secret lives of upper-class suburbia housewives. Clearly the network has struck gold in America's new guilty pleasure, as the show raked in nearly twenty-five million viewers every week and received a Golden Globe award for best comedic television series. It has become the talk among American households and college dorm rooms where it's prime time soap-opera drama evolves with every episode. The dramedy stars Marcia Cross, Teri Hatcher, Felicity Huffman, Eva Longoria, and Nicollette Sheridan. As it continues to dominate its time slot, more shocking revelations about Wisteria Lane will be revealed.
Photography Courtesy PR Newswire Photo Service

Pop Princesses

"Oops, I Did it Again" took on an all new meaning for Britney Spears in 2004, as she was married not once, but twice. Her first marriage to childhood friend Jason Allen Alexander was quickly annulled, but her second marriage to backup dancer Kevin Federline is to-date still intact. Ashlee Simpson also made her own "Oops" when her planned lip-sync of "Shadow" accidently started playing "Pieces of Me." Fortunately her "hoe-down" jig made up for the blooper.

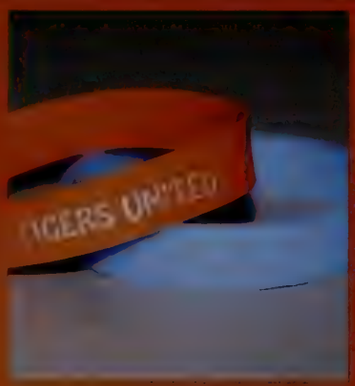
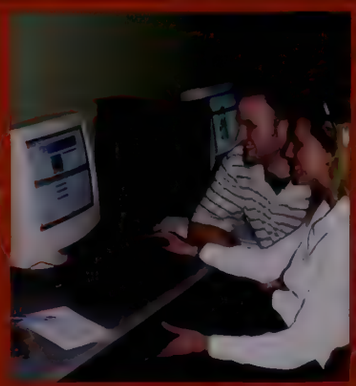
Clemson



The Bracelet Trend
The year 2004 marked the introduction of the Livestrong bracelets benefitting cancer; they gained so much popularity that United Way and Tsunami Relief bracelets were sold and seen all over the Clemson campus. Organizations such as Phi Sigma Pi national honors fraternity sold blue Tsunami Relief bracelets for $2 and gave the proceeds to fund relief in the Pacific. The bracelets became Clemson's symbolic support of the nation and the world through purchasing a simple fashion item that had much greater impact than just being in style. Photography by Mandy Baker



The Facebook
Facebook is the newest distraction for students like Emily Gowdy and Daron Zelmer! Universities around the nation are participating in this online yearbook, which allows students to include a personal picture and information, and offers other options such as sending messages and joining groups. It connects students who are in the same classes, organizations, and it shows bonds between mutual friends. This new method of procrastination continues to grow each day as more students join in on the craze.

Celebrity Passings

Former President Ronald Reagan died January 5, 2004, at his home in Los Angeles at the age of ninety-three. He suffered from Alzheimer's disease since late 1994. Christopher Reeve died October 10, 2004. Reeve suffered a cardiac arrest and slipped into a coma. Paralyzed in 1995 after being thrown from a horse, Reeve became an advocate for spinal cord injury research. Ray Charles, singer and pianist, died in California on June 11, 2004, at the age of seventy-three. Charles died of complications from liver disease. Prior to his death, he was able to collaborate on the Oscar-winning movie *Ray*, which chronicled his life. Late-night TV legend Johnny Carson died January 23, 2005, at the age of seventy-nine, from emphysema. "He created the template for that show, and everybody else who is doing a show, myself included, we're all kind of secretly doing Johnny's 'Tonight Show,'" said David Letterman.

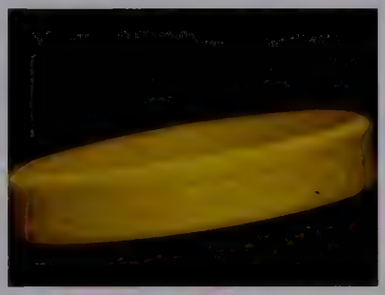
Livestrong Bracelets



In May 2004, Nike and Lance Armstrong, a six-time Tour de France winner who was diagnosed with cancer in 1996, launched a campaign for cancer awareness. The idea was simple - sell bright yellow rubber bracelets with the phrase "LIVESTRONG". All the proceeds benefit the Lance Armstrong Foundation. The bracelets cost one dollar and over thirty million have been sold. Photography by Mandy Baker

Brad & Jennifer

After four and a half years of apparent marital bliss, arguably entertainment's most attractive couple, Brad Pitt and Jennifer Aniston made the decision to formally split in January of 2005. Whether or not they will actually divorce has yet to be seen, but in their official statement they claim to "happily remain committed and caring friends with great love and admiration for one another." Photography Courtesy Mario Anzuoni / Splash

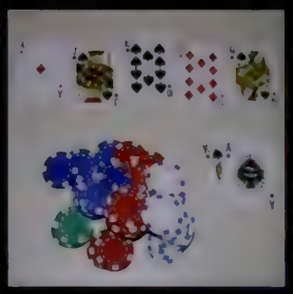
Campus Life

Poker

Clemson is keeping up with the popular new pastime that is taking over the rest of the country. Poker is gaining playing time both here on campus, as well as nationwide. Locally, games range from informal games among friends to organized tournaments. Clemson has a registered student organization on campus called the Clemson Card Players Club, with twelve members who meet twice a month. The goal of the club is "to educate and promote the recreational play of card games and to host events that serve as fund raisers for charity." The Clemson Card Players joined up with the Delta Chi fraternity to host a charity poker tournament. All of the proceeds from the tournament were donated to the American Cancer Society.

Photography by A.J. George

In Brief...



Poker

Within the past year poker has become more popular than ever before. These days the game can be found being played at casinos, in homes, and on television. Events such as the World Poker Tour and World Series of Poker have added to the attention the game is receiving. Photography by Mandy Baker

Fahrenheit 911

Michael Moore, famous for his biased documentaries, gained much fame and recognition for openly attacking President Bush as well as the Republican Party. The documentary grossed nearly 120 million dollars in the box office and was the attention of many politicians. In response, the Republicans released their own version entitled Fahrenhype 911. Photography Courtesy Rodney Turner / KRT

Usher

In 2005 Usher Raymond was king of R&B. With six Grammy nominations, his album "Confessions" went platinum in the first week. In the title song, Usher announces that he cheated on his girlfriend, TLC's Chili. Usher also had the club favorite, "Yeah" featuring Ludacris.

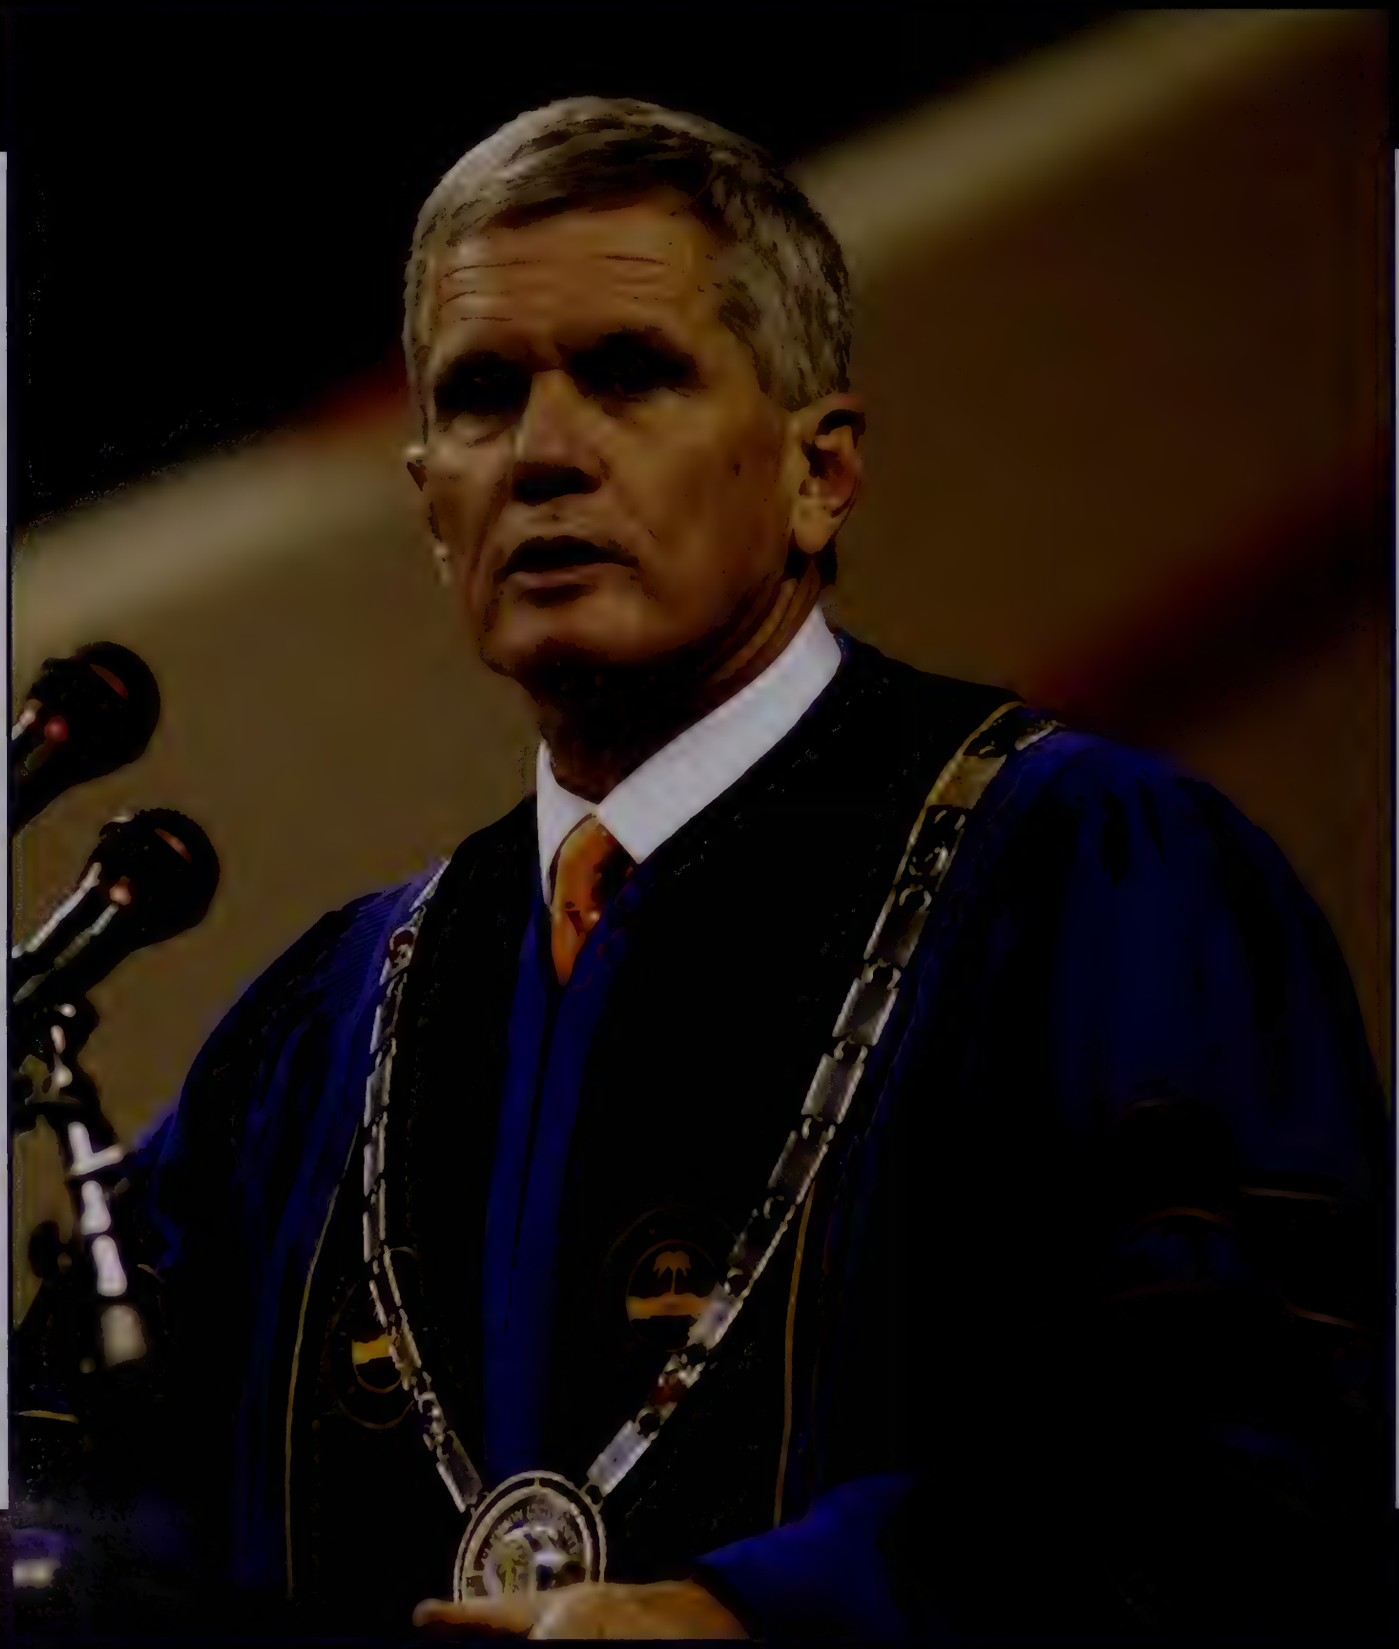
Colleges

Photography by Jessica Allen

Photography by Mandy Baker



Dear Clemson Students:

This year marks the fifth year of my service as your university president. As I reflect on this remarkable opportunity I have been given to serve our alma mater, I realize that it is a blessing to represent all parts of the Clemson Family. This is a large and diverse family and it includes our faculty, staff, alumni, parents, and friends. However, the one group that gives me the greatest pride is you – Clemson students.

The heart of the Clemson Family has always been Clemson students. I am inspired by your academic achievement, your character, your determination, your integrity, your spirit, your commitment to our alma mater, and your success in winning national championships (Forensics, Pershing Rifles, Golf, Concrete Canoe, Steel Bridge Building, and Scholar Bowl). You will lead this Clemson Family into a very bright future as a Top 20 public university.

How do I know all of this? Marcia and I live here on campus with you every day. You allow us to be part of your Clemson Experience, your highs, lows, challenges and successes. We feel the heart-beat of this distinctive place year round. Each day on campus may seem normal to you but to us it is a wonderful opportunity to be part of your lives.

You are Clemson's greatest strength. Go Tigers!

Sincerely,

James F. Barker, FAIA
President

"Dr. Smith is one of the most **energetic** professors, which keeps his class interesting. His **enthusiasm** for the material makes the class more enjoyable and helps students retain the material."

-Mark Conard

"Dr. Smith is by far the **best** professor I have had so far at Clemson. He really makes an **effort** to get to know his students, and gives them a lot of **support** and encouragement."

-Meghan Garofalo

Personal Information

Dr. Smith received the Master Teacher Award in 2001.

He completed his Ph. D. in entomology from Clemson University in 2003.

Family is very important to Dr. Smith. He loves spending time with his wife, three daughters, and baby granddaughter.

His dog, Star, accompanies Dr. Smith while he enjoys outdoor activities, such as mountain biking.

Excellence in Teaching

Each year the Student Government recognizes a professor for outstanding performance in the undergraduate classroom. This award is known as the Excellence in Teaching award. It allows for continued professional development of faculty by exposure to an international experience. Several different factors go into the consideration of a certain professor for this award. Nominations are taken from the student body. The selection committee, made up of students from the Freshman Council, Student Senate, and Cabinet, then gathers information about the nominees from both current and former students. Secret ballot votes are taken, and the recipient is determined. This year's recipient is Dr. A. Denny Smith. He is a professor in the biology and genetics department. He received his undergraduate degree from Mississippi College, his master's from East Tennessee State University, and his Ph. D. from Clemson University. He has been teaching at Clemson for the past 24 years. He says his favorite thing about Clemson is the students: their friendliness and desire to learn. Upon receiving the award, Dr. Smith describes being both surprised and excited. He enjoyed the awards banquet and being able to celebrate this achievement with his family. He feels very honored to have received this award because it is the student's recognition of his positive presence in the classroom.

Hitting the Books (with a little help)

The mission of the Academic Support Center is to provide "comprehensive academic support services that enhance students' learning potential while at the same time promoting academic success and personal growth." The Academic Support Center offers a number of resources to fulfill its mission. Two of the largest resources available to students are tutoring and Supplemental Instruction (SI). Tutoring is offered in a variety of courses, ranging from Math Science 106 to Astronomy 101 to Engineering Mechanics 201, at a number of locations around campus, including the Cooper Library and Schilletter Dining Hall. SI focuses on high-risk courses in which the drop and failure rate is thirty percent or more. SI leaders attend the high-risk class and facilitate three sessions outside the classroom every week. It is a large program, registering over 13,000 visits in the spring 2004 semester, for example. SI instructors expect it to continue to grow.

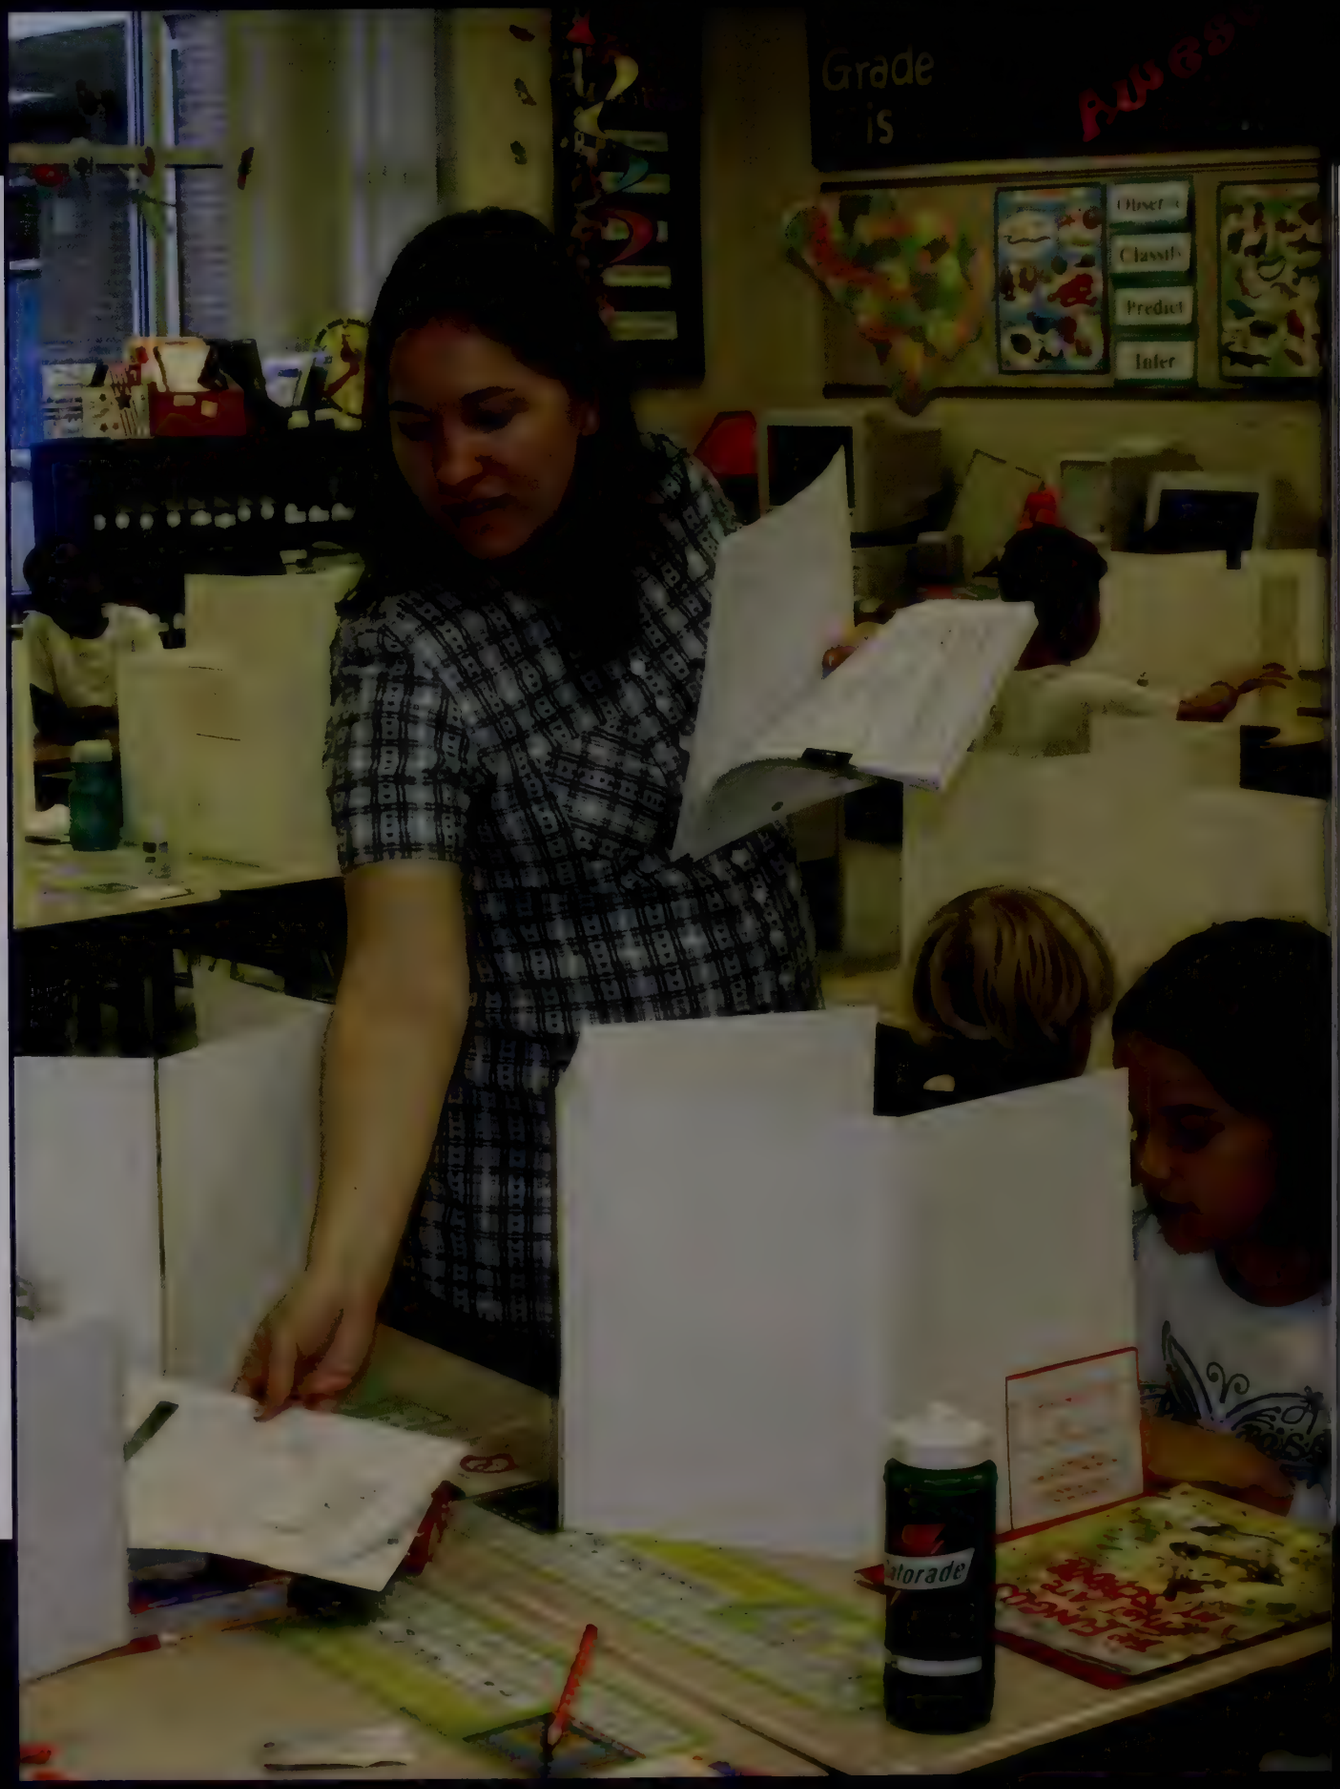
Jennifer Nichols cannot earn her Clemson degree without a semester of student teaching. She has the pleasure of gaining practical career knowledge through her work with Clemson Elementary third graders. What a rewarding experience!

Photography by Rachel Lindsay



Getting a Taste of the Real World

Before they even receive their diplomas, some students already have real-world working experience. Through internships, cooperative education (co-ops), and student teaching, Clemson undergraduates can work in their major field of study to get a first-hand glimpse of what lies in the future.

The Michelin Career Center helps students line up internships, (1) such as the one completed by Melissa McKinney through the Walt Disney World Epcot Science Department. Co-ops, on the other hand, are coordinated separately through the Cooperative Education office. (2) Mechanical engineering major Alan McGee put his education to work while co-oping at Siemens, while (3) Mike Soltys enhanced his civil engineering education at Collins Engineers, Inc. The main difference between an internship and a co-op is the duration–internships tend to be completed in a single semester while co-ops are usually completed over 2-3 semesters (alternating semesters of work and full-time school).

While only some students from majors like engineering and business choose to intern or co-op, all education majors spend their final semester student teaching. (4) Terri Robinson developed teaching skills she couldn't learn from a textbook while working at Clemson Elementary.

Melissa Putney

Photography: (1) Courtesy Lori Strongin & Les Frey, (2) & (3) Courtesy Co-op Office, (4) by Rachel Lindsay

"Co-oping was great because you get to see places and do things that you would never get to in class."

-Mike Soltys

"I would have to say the best part of my experience was being able to travel to so many different places from Rome to Paris to Amsterdam to Norway."

-Lauren Cooney (left)

"After spending half a year living a dream and experiencing some of the most beautiful places on the planet with friends I would have never met otherwise, it continues to surprise me that one of the most special parts of the experience is realizing what a truly unique place we all come back to in the end."

-Hudson Shelby

With her friends, Birgit and Sven, Katherine Chisholm (right) takes the "Sea Princess" out on the Cape of Good Hope in South Africa.

An Enlightening Experience

When asked about his experience in Angers, France, Robert Maguire said, "To live a life where every day's freshness has an appeal, an exhilaration that's exhausting, is to be in a foreign place. Go abroad. Be a foreigner." Approximately 500 students leave to search for that quality of adventure each year. Students travel to the Galapagos Islands for hands-on experience in biology and other sciences. South Africa is a popular destination for field research with some students analyzing the unique grasses of the area. Australia is the most popular program featured by the International Programs and Services Department; many students participate in the program offered through Deakin University. A new summer program in Brussels, Belgium is open to honors students this year. Honors students will study with ICHEC, learning about the European economy along with the culture and language of Belgium. Many other exciting programs are also offered.

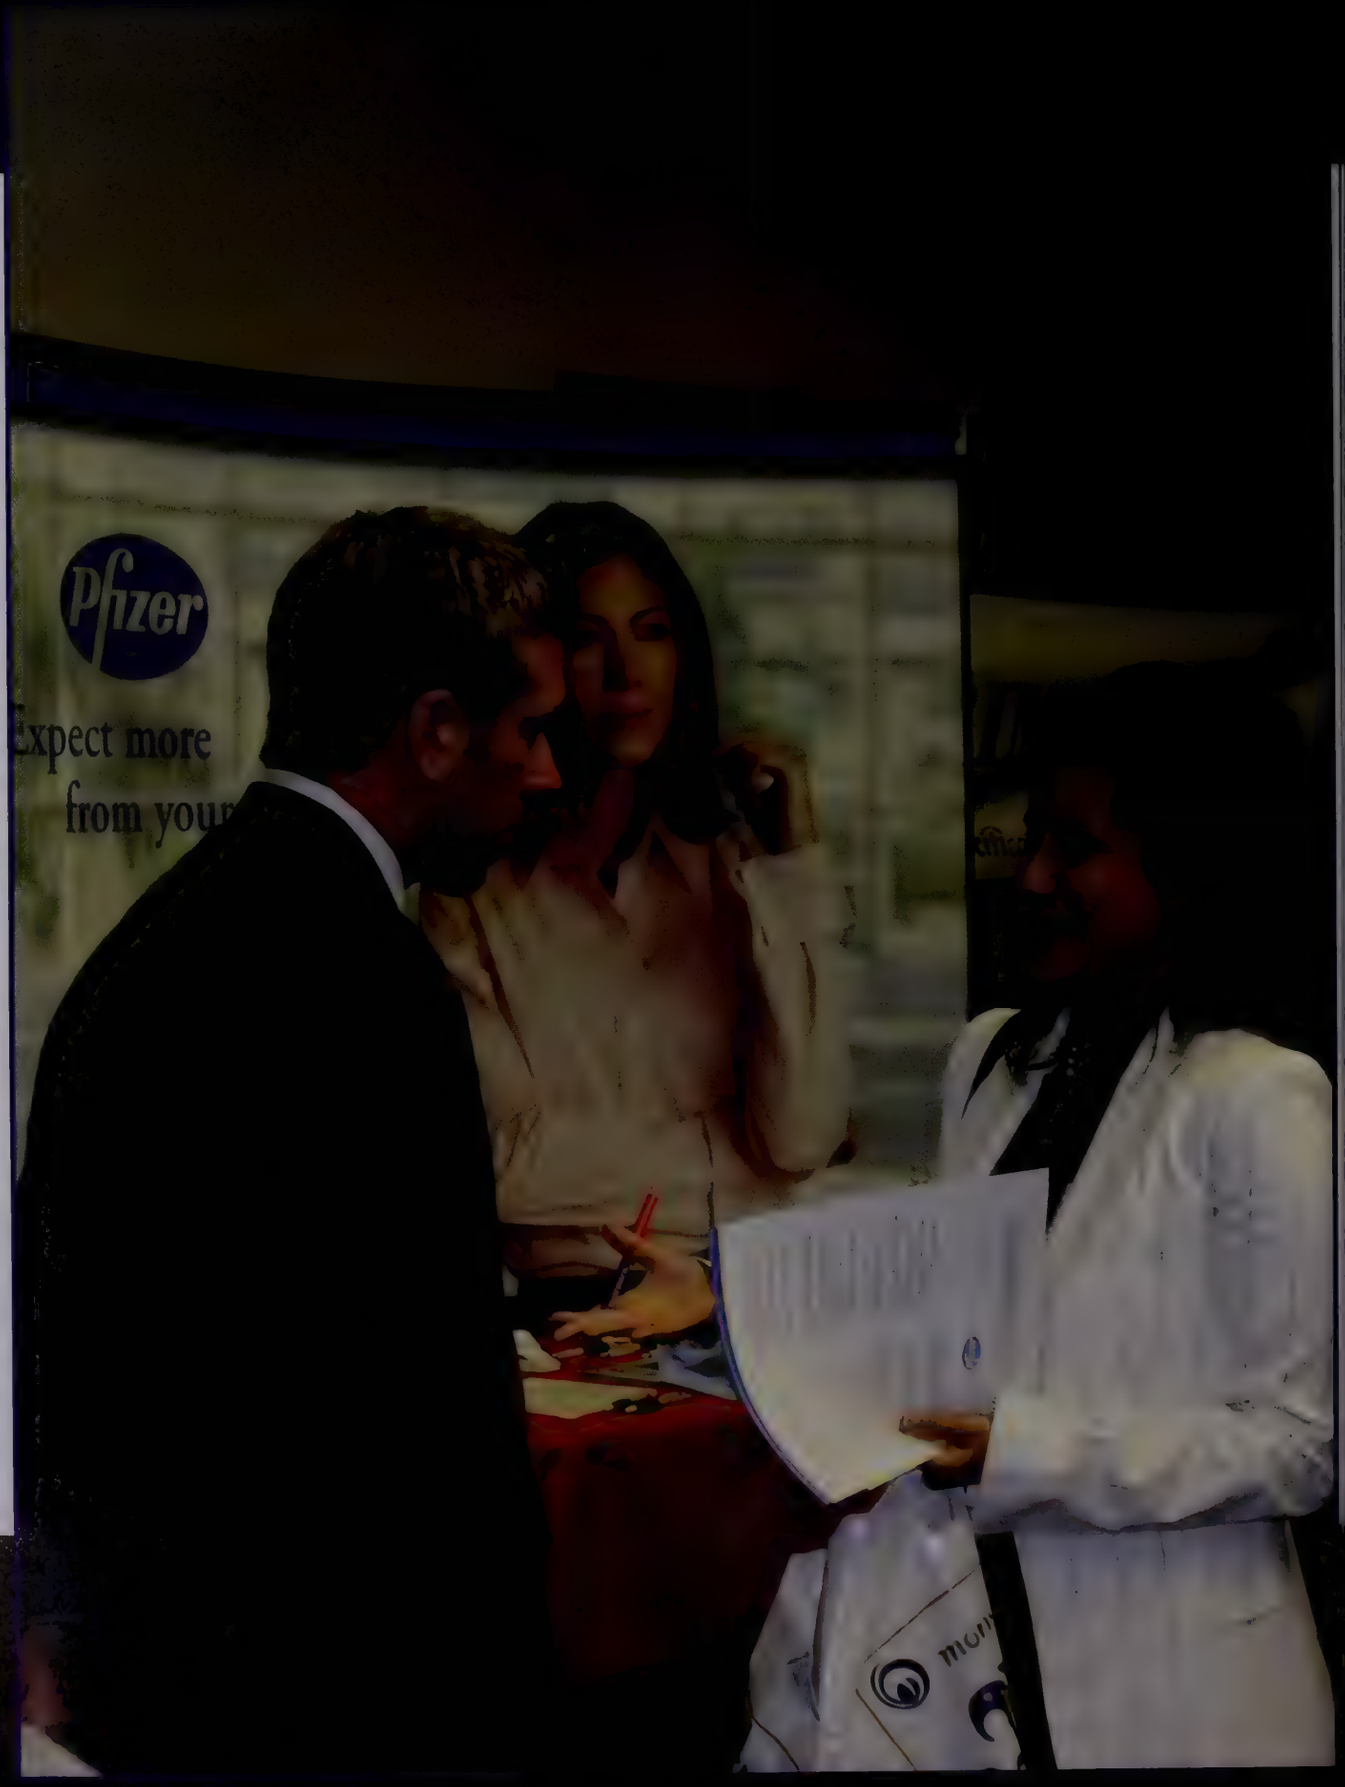
The future of Pfizer could be in her hands! Alexia Gonzalez speaks to a Pfizer representative about career opportunities. Hopefully an interview will result from the connections she makes at the career fair.

Photography by Jessica Allen



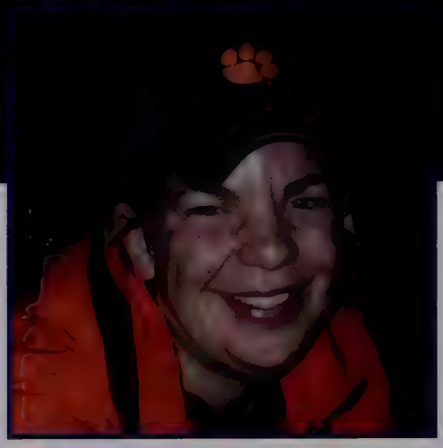
Jump Start your Job Search

Getting a job after graduation can be difficult, but luckily for students, the Michelin Career Center hosts career fairs in both the fall and spring semesters so that students can network with potential employers. At the fall career fair (1), students like Will McCain are able to speak with representatives from companies such as CNA Insurance about employment opportunities (2). Students also have the opportunity to pick up brochures and investigate job options within their major without having to brave an interview. Big name companies come to Clemson to recruit some of the nation's best students. The fall career fair featured 140 companies, including Wachovia, GE, Duke Energy, Frito Lay, Target, Michelin North America, Milliken & Company, FBI, Wal-mart, and American Express. The companies attending the fairs target a wide range of majors, giving many students the chance to make connections with employers that would be difficult to make otherwise. From (3) engineering students like Vijaya Narapsetty, who interviewed with PBS&J (4), to marketing students like Mark Furse, who met with the packaging company Sonoco, everyone has something to gain from attending the career fairs. Photography by Jessica Allen

Jessica Allen

I came to the career fair to find a job, get some interviews, and to make connections. Hopefully I'll get a job.

-Mark Furse



"I got close once, but couldn't bring myself to read it. I chickened out... After December (my graduation), I will do everything they said not to do."

-Jessica Malcolm

"Don't be afraid of really getting to know the history of Clemson. This school has great traditions and legacies that every student should know about and be proud of."

-Carson Hanahan

Fort Hill, once the home of John C. Calhoun, offers tours to the public seven days a week. Due to a recent superstition, you will rarely find a current Clemson student inside the beautiful mansion.

Photography by A.J. George

Students Beware...

Already rich in history and tradition, Clemson has acquired two new superstitions within the last twenty to thirty years. Every day, unsuspecting students pass by two Clemson landmarks that some say have the power to dramatically alter their paths in life. Most students are striving to graduate some day, doing whatever it takes to earn that degree. However, according to legend, all that hard work and time in the lab or library could go to waste if students tour the Fort Hill mansion or read the plaque on Thomas Green Clemson's statue prior to graduation. Students who enter Fort Hill will not graduate from Clemson, except in two cases: (1) if they take the tour as part of a class requirement, or (2) if they visit the Dean of Undergraduate Studies (currently, Dean Janice Murdoch) and request she lift the curse. And while students should not read the plaque on the statue before graduation, legend says reading the plaque on the day of graduation gives a student good luck in the future.

Melissa Putney

1 Watching over the plaque, Thomas Green Clemson is the only one who knows just how many students have read it before graduation. Photography by A.J. George

2 Decorated to look as it did during John C. Calhoun's day, Fort Hill offers an interesting look into the past for those who dare to enter. Photography by A.J. George

Architecture, Arts, & Humanities

Clemson's Where the Heart Is

Jimmy Agan, Philosophy '92

Now a senior pastor at Clemson Presbyterian Church, Clemson alum Dr. Jimmy Agan is a familiar face to many current Clemson students. Although this Abbeville, SC, native moved away from Clemson for eleven years after his 1992 graduation (pursuing further education for five years and teaching for six), he eagerly welcomed the call to return to the church he describes as his "home away from home" as a member of the pastoral staff in 2003. While his fondest memory of Clemson is meeting his wife (1990 Clemson alumna Tricia Lee), Dr. Agan's other memorable experiences include playing in a folk rock/acoustic style band, singing with the chorus, and playing ultimate frisbee, a pastime he still enjoys. In addition to preaching most weeks at Clemson Presbyterian, Dr. Agan occasionally speaks to local high school and college student groups and coaches pee-wee soccer in the fall.

Photography Courtesy Brent Nelson

Paul Cook, Architecture M '82

In Paul Cook's family, the blood definitely runs orange. Ties go back to his grandfather who enrolled in the first freshman class at Clemson College (although he never completed a degree) and continue down the generations. Mr. Cook, who earned his undergraduate degree in design at Clemson in addition to his masters, proudly reports that three of his four children currently carry on the family tradition as soon-to-be Clemson graduates. Mr. Cook also counts himself fortunate to be in business with many fellow Clemson alumni at Batson Architects Incorporated where he manages a team of design and architecture professionals. Because Mr. Cook lives and works in the upstate, the Clemson community comes into contact with his work on a regular basis. For instance, he had a hand in the early design work on the Fluor Daniel building on Clemson's campus. Photography Courtesy Paul Cook

Music minor Holly Long sharpens her piano skills in the Brooks Center for the Performing Arts. Brooks Center is home to university music and theater classes as well as special performances from students and traveling groups.

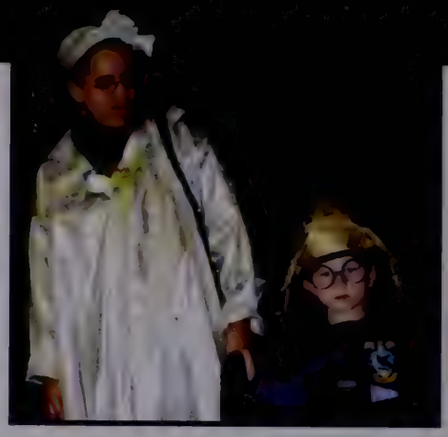
Building a Better Tomorrow:

Art, Architecture, and Humanities

Dr. Michelle Martin

Dr. Martin has devoted her life to demonstrating the importance of books, especially to children. In her Children's Literature class, Dr. Martin requires her students to spend an hour every week reading with a child. Also, Dr. Martin organizes events such as a Harry Potter party to get the community interested in reading. She has also written several books on children's literature. Photography Courtesy Michelle Martin



"In all of my service activities, I try to blow out into the community. I want everyone from four-year-olds to grandmothers to read together."

-Dr. Michelle Martin

The College of Art, Architecture, and Humanities is a hodge podg of different people and dreams. The combination of builders, writer actors, singers, thinkers, and so many more makes the feel of th college unique on campus. For example, ten students in the Performin Arts department are taking a manuscript, adapting it into a play, an

Julia Hamilton

"I can think of no better place to spend my four years of college than the Brooks Center: meeting new people, learning new things, expanding my horizons, and best of all performing," says sophomore music major and president of Women's Glee, Julia Hamilton. Photography Courtesy Julia Hamilton

Eddie Smith

Voted Best Professor in the 2004 issue of *The Tiger*, communications lecturer Eddie Smith is no stranger to recognition. In 2002 he was a Best Professor nominee, and in 2003 he won Best Lecturer. Besides being a popular professor with a fun and interesting teaching style, Smith is just a popular guy. Every semester he makes a sincere effort to get to know each student personally. Photography by David Tucker

The Winners are...

The Forensics Team traveled to the American Forensic Association's Tournament in the spring, and they returned anything but empty-handed. Megan Masset and Brad Smalling took first prize in duo interpretation with a script about a handicapped couple who marry, even though it is illegal. Also, Ian Turnseed made it to the quarter finals in impromptu speaking. Photography Courtesy Forensics Team

Passionate Dedication

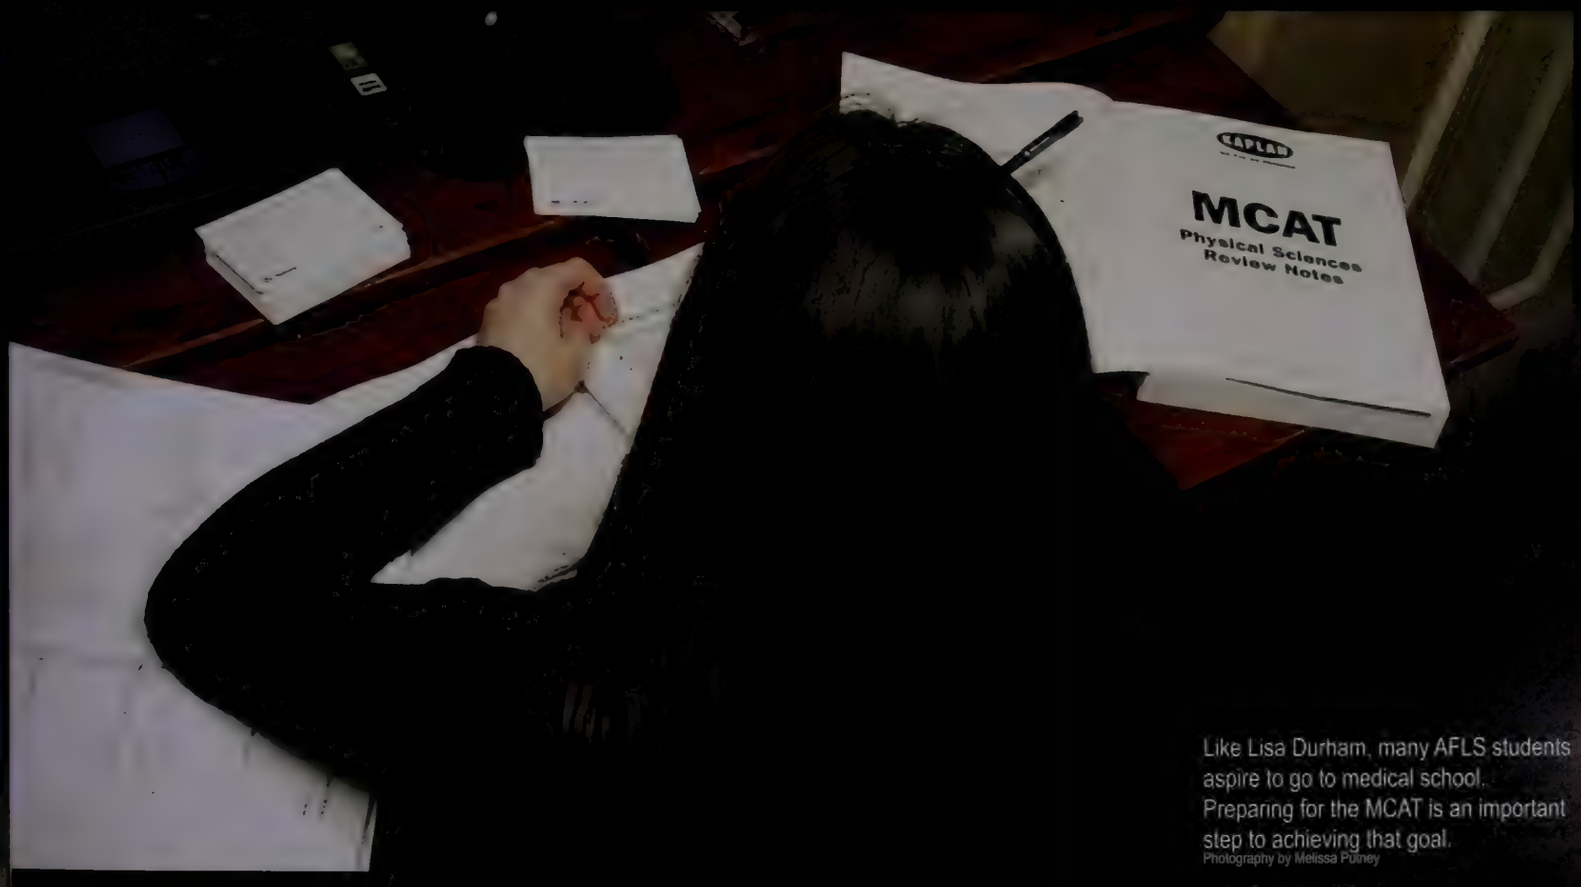
Tom Skelton, Entomology '53, M '56

Looking back, Tom Skelton's most vivid memories center around his ROTC experiences. Unable to choose a single most memorable experience, Skelton includes "driving a tank in the Clemson Bottoms... fighting a forest fire in the Issaqueena Lake forest... [and] participating in the Mothers' Day parades on Bowman." These may not be your average college experiences, but that's what makes them so special. For Skelton, the values of the ROTC built on the foundation of discipline and responsibility his parents had already instilled, and he credits this as the source of his success. In 1969, Skelton began teaching at Clemson and soon discovered it was his passion. At the end of his twenty-eight years on the Clemson faculty, the Agriculture Alumni Board established a scholarship in his name to honor the work he did to develop and organize that group.

Photography Courtesy Tom & Ginny Skelton

Erika Hartwig, Biological Sciences '03

Even before she completed her undergraduate degree, Erika Hartwig had interned with Senator Strom Thurmond, Governor Jim Hodges and his environmental advisor, and the United Nations Environment Program in Nairobi, Kenya, and she was involved in a multitude of activities while on campus. From participating in four intramural sports, to founding the Clemson Sierra Student Coalition, to everything in between, Erika is no stranger to a busy schedule. Currently, she is working on the Heritage Forests Campaign with the National Environmental Trust. She loves educating others about important environmental issues and has been giving presentations to groups along the East Coast. In the future, she plans to get a masters in environmental management. Photography Courtesy Erika Hartwig



Like Lisa Durham, many AFLS students aspire to go to medical school. Preparing for the MCAT is an important step to achieving that goal.

Photography by Melissa Putney

Take a Walk on the Wild Side

Jenny Virag

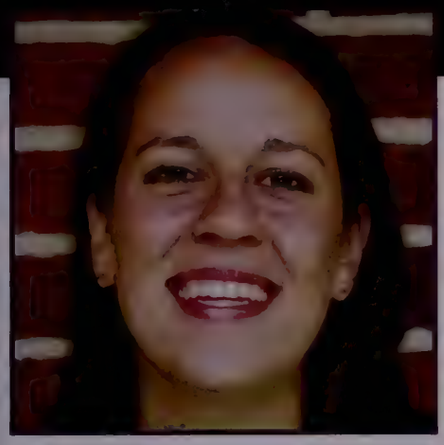
"Biochemistry is the hardest class I have taken. It's a new subject to me, and its massive amount of material is just too much to grasp in such a short period of time. The arrangement of the material is hard to get a good hold of and the information itself is not only complex, but there is a lot to memorize." Photography by David Tucker

"This college is great in that it has a wide variety of concentrations for students to study. Whether it's medicine, forestry, agriculture, or biology, this college prepares them all for their future careers." -Amanda Johnson

The College of Agriculture, Forestry, and Life Sciences is an area of study that appeals to a broad spectrum of students and their interests here at Clemson. Research is conducted in many different areas including genetics, biology, forestry, agriculture, and many other smaller disciplines. Anyone with an interest in the natural sciences is able to find his or her niche in this wide array of scientific categories. Conducting

Carrie Meetze

"As an agriculture education major, I love the closeness you are able to get not only with fellow classmates but with the professors. It is a major with more hands-on experience, different than the usual lecture class. The experience and knowledge we learn will help us go far in the working world." Photography by David Tucker

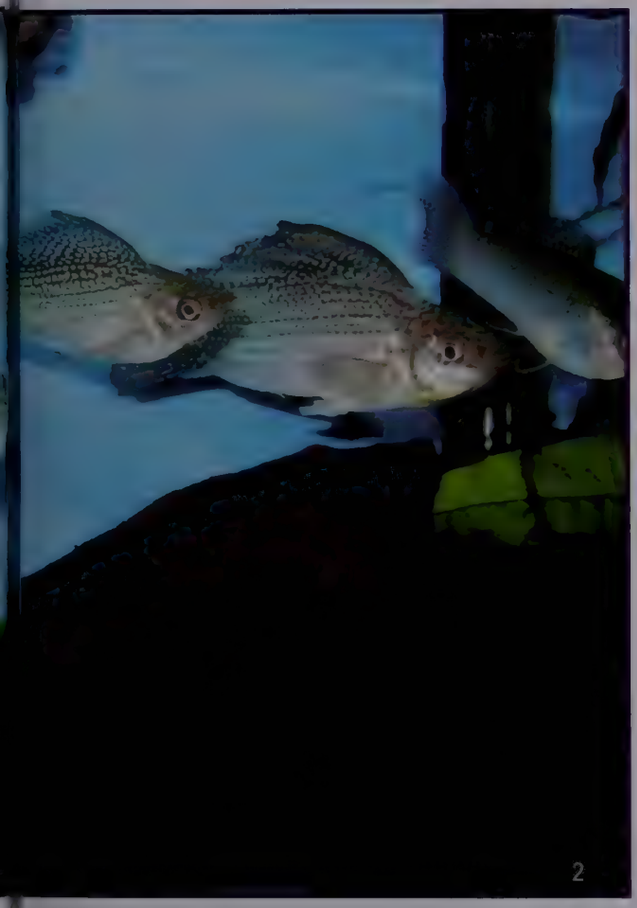


Dr. T. Dobbins

"As an Ag-Ed professor, I enjoy teaching very much because of the students. We have the best students in our program at Clemson. They are the students that Thomas Greene Clemson had in mind upon founding this college. We are sending out a quality product from Clemson, our students." Photography by David Tucker

Dr. M. Ptacek

"I like being in this college because of its diversity in the kinds of departments that study the natural sciences. I like the interaction with many different kinds of scientists, and I believe the diversity is good for both the students and the professors." Photography by David Tucker



2

Out in the Business World

Tami Corbin, Psychology '81

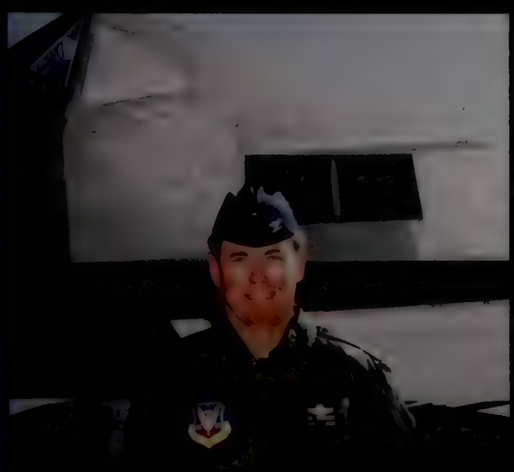
While her professional life has taken her to D.C., Dallas, L.A., and Las Vegas, Tami Corbin still vividly remembers her days as a Clemson student. In particular, she recalls "homemade chocolate milkshakes from the P&A building," tailgating before football games with her family in the lot behind Jervey, and "the view from my Clemson House sixth floor dorm room overlooking campus." Since those days, Tami has been very successful in the field of human resources, working at several interesting places such as Dodger Stadium, the Kennedy Institute (home of the Special Olympics), and the Disney Channel. She gives special credit to former Clemson professors Dr. Frey and Dr. Nowaczyk for challenging her, encouraging her, and preparing her for what lay ahead. In the end though, although professional success does have its rewards, she counts her husband and three stepchildren as the greatest success and happiness of her life.

Photography Courtesy Tami Corbin

Harry Frampton III, Economics '67

Most Clemson students, professors, and alumni alike can relate to Clemson alum Harry Frampton when he says his favorite thing about Clemson is the "sense of family." Even though this businessman now lives and works in Beaver Creek, Colorado as the Managing Partner of East West Partners, a real estate development in California, Colorado, and Utah, Mr. Frampton will always be a part of the Clemson family. While getting his undergraduate degree at Clemson, Mr. Frampton became a brother of the fraternity Delta Kappa Alpha (now known as Sigma Nu) and participated in intramural sports. A real sports fan, Mr. Frampton's most memorable experience as a Clemson student was attending an ACC basketball tournament. Since graduation, he has also served as chairman of the Urban Land Institute and president of a ski area operation in Colorado.

Photography Courtesy Harry Frampton



Al Whitley, Economics '68

When retired United States Air Force Colonel Al Whitley looks back on his first year at Clemson as an ROTC RAT, he knows the pain and humiliation he suffered was well worth it. Besides helping to create a deep bond with his fellow unfortunate freshmen, the ROTC experience prepared Whitley for his dream: to become a fighter pilot for the U.S.A.F. His most memorable times at Clemson were spent flying solo over the city with a spectacular South Carolina sunset as his backdrop. During his 26 year career with the Air Force, Whitley spent two tours in Vietnam, was honored with the Robbie Risner Award as the 1980 Outstanding Fighter Pilot, and flew F-117A stealth fighters in a top secret program and later in Desert Storm. While his Air Force career kept him away from Clemson for many years, Whitley returned with his family in 1992 and has enjoyed heading up Daniel High School's Junior ROTC unit (the SC-941 "Flying Lions") since 1994.

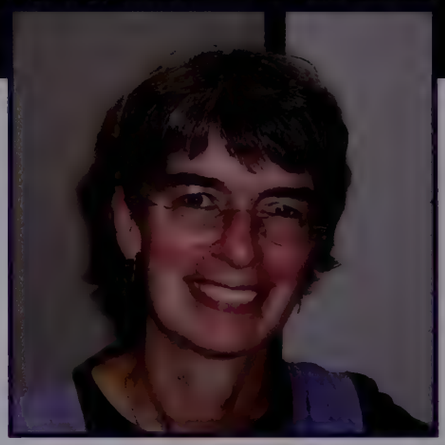
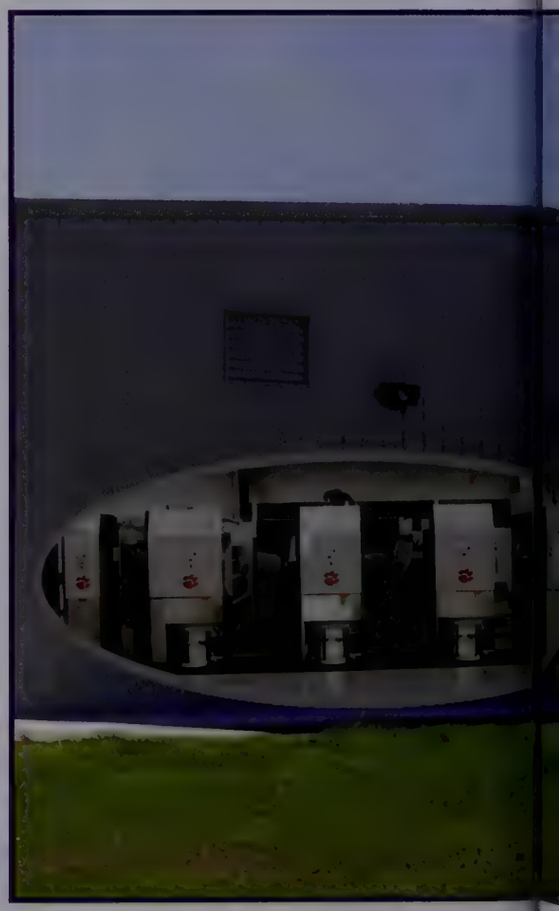
What Makes BBS So Special?

Dr. Conner-Greene

She may teach abnormal psychology, but the only thing abnormal about Dr. Patti Connor-Greene is her "abnormally" great teaching skills. Faculty and students alike will advise you not to miss an opportunity to take one of Dr. Connor-Greene's interesting and fun psychology classes. Photography by Melissa Putney





"I am excited to **work** in the economics department at Clemson. Our faculty are **strong researchers**. We regularly have leading economists visit to discuss their work. Plus, our students are eager, inquisitive, and getting better every **year**." -Angela Dills, Assistant Professor

Every college at Clemson has its own unique programs and services for its students, and CBBS is no different. For example, (1) through research, training, and outreach, the Center for International Trade plays an important role in helping South Carolina adjust to the increasingly globalized economy. (2) In the past decade, the graphic communications department has seen the evolution of the Printing and Converting

Caroline Kollar

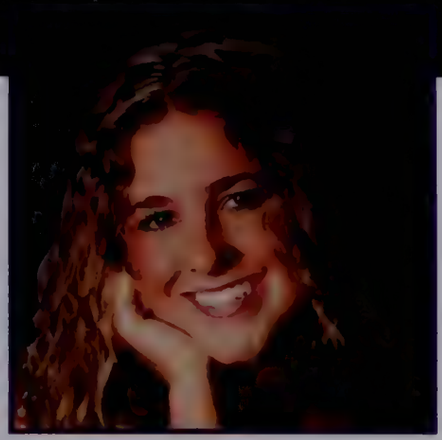
"Accounting 204 is a really helpful class for accounting majors. It gives you a lot of hands-on experience. We had to do two project sets, and they both really helped me better understand how to apply the accounting concepts I had previously learned."
Photography by Melissa Putney

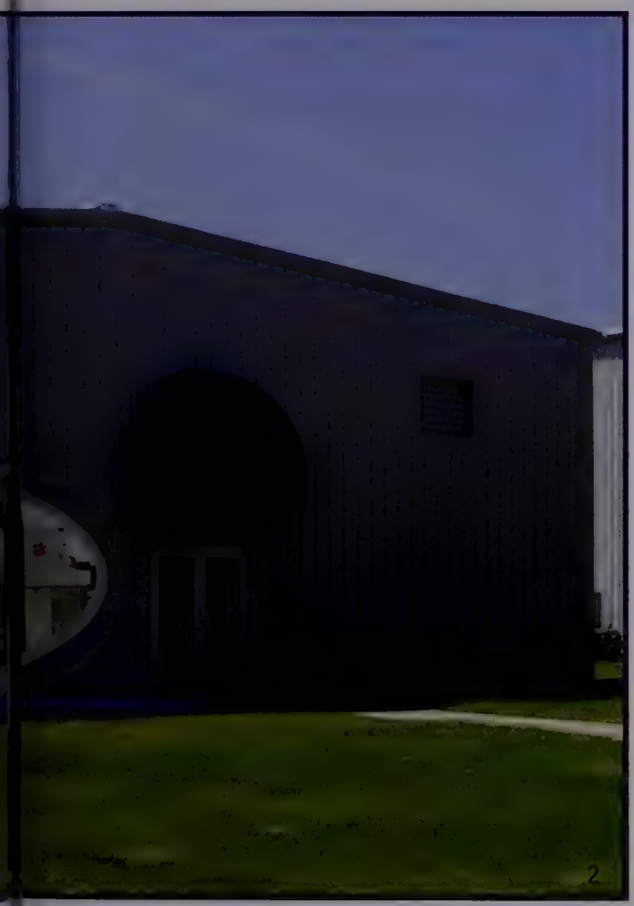
Mr. Patrick Rose

This graphic communications professor is one most, if not all, GC majors will come in contact with at least once during their Clemson career. Students enjoy Mr. Rose's classes because he is so knowledgeable about the subject, and he really challenges his students to think and make their own decisions. Photography by David Skinner

Cassidy Cleveland

"One of the reasons I came to Clemson was because of the opportunity to be in the First Class program. It's great living with the same people that I go to class with. We're always there to help each other out, and I've made some really great friends in the process."
Photography Courtesy Cassidy Cleveland





Research Center. The center allows students to interface with the printing, packaging, and converting industry. (3) Several upstate colleges and universities have collaborated to create SCBIZ HELP under the supervision of Clemson's Dr. Mike Crino. Business students can apply business concepts they're learning in the classroom by helping local businesses solve their problems.

Clemson's Lasting Impact

Dr. Robert Edwards, Textile Eng. '33

It's impossible to imagine how different Clemson's history would be if Dr. Robert Cook Edwards had not attended Clemson and earned a degree in Textile Engineering. You may be skeptical that one man could really make that big of a difference in Clemson's history, but that's only if you are unfamiliar with the story of former Clemson President Robert Edwards. One crucial decision, the decision to participate in a scholarship competition for Clemson at the age of fourteen, set the stage for a chain of fortunate events. Surprised that he won the scholarship at such a young age, Edwards accepted and started studying at Clemson College in the fall of 1929, shortly before the stock market crashed in October. His family was hit hard by the Depression, and without his scholarship, Edwards says he never would have been able to attend Clemson. Since Clemson was a military school in those days, Edwards also participated in ROTC while he was a student.

After graduating in 1933, he lived in Greenville and worked for a year at J.P. Stevens Textiles. Then he moved to Red Springs, NC, to work for The Thomas Textile Company. It was in Red Springs that Edwards met and married Louise, his wife of 70 years. The family moved a few more times, and during WWII Edwards put his military background to use while serving his country. Following the war, he and his family (which now included a son and a daughter) spent ten years in Abbeville, SC, where Edwards worked for Milliken Textile Corporation. All of his engineering experience would later prove valuable during his presidency.

Prior to becoming Clemson's eighth president, however, Edwards was named Clemson's first vice president in 1956, twenty-three years after his graduation. When President Franklin Poole passed away unexpectedly two years later, Edwards found himself in the position of acting president. His presidency became official in April of 1959. During President Edwards' twenty year tenure, Clemson underwent some substantial and crucial changes while still maintaining its sense of integrity and the values that the Clemson family holds so dear. Three events in particular stand out in Clemson's history. Even before Edwards took office, Clemson was faced with the problem that Lake Hartwell would imminently flood its banks and engulf entire sections of campus. This is where Edwards' engineering expertise proved useful. Today, Clemson students, alumni, and community members would not have the pleasure and excitement of watching the Tigers take on the opposition in Death Valley each fall if Edwards had not worked closely with the Corps of Engineers to ensure the construction of dams and diversion of the Seneca River took place without harming any of Clemson's land. To Edwards, the outcome of this project remains the most satisfying of any of his projects to date.

The other two major events from Edwards' presidency were the integration of the College in 1963 and the renaming of the school as Clemson University in 1964. Both were dramatic steps for Clemson to take; yet without those changes, Clemson would not be the place it is today. Edwards' bold actions led to wonderful accomplishments.

Edwards has shared so much of himself with the Clemson family, right down to his most memorable experience as a Clemson student. In 1932, as senior manager of the football team, he tripped and fell as he ran out to the field with a water bucket for an injured player. Today, in 2005, he says, "I can still hear the crowd enjoying my most embarrassing moment." Fortunately for the Clemson family, we have much more to enjoy today thanks to Dr. Robert Edwards. And despite his numerous accomplishments and enduring mark on this campus and community, Edwards remains humble. He says, "How honored I am to be considered among all the wonderful, successful alumni that have earned their degrees from Clemson University. They truly have made the world a better place to live. Wouldn't Mr. Clemson be proud?"

"Clemson is a Lifestyle"

Ginny Skelton, Education '58

Growing up in Anderson County and attending Pendleton High School, Ginny Skelton never expected to earn a degree from Clemson College because it was all-male. However, in 1955, Clemson opened its doors to women for the first time, and Mrs. Skelton became one of its first female graduates. Since graduating in 1958, Mrs. Skelton and her husband, Tom (featured on page 115), have always resided in Clemson with the exception of the two years they spent in graduate school at the University of Georgia. As she puts it, "Clemson is a lifestyle for me." She loves to give back to the community and volunteers much of her time. In 1998 she received the Alumni Association's Distinguished Service Award, which made Mr. and Mrs. Skelton only the second couple in Clemson's history to both receive this honor (as he had been honored the previous year). Photography Courtesy Tom & Ginny Skelton

Almeda Jacks, Education '74, M '75

A familiar face to many, Almeda Jacks has not left Clemson University since graduating with her masters in higher education personnel services (now known as student affairs). She worked with housing for eleven years and served as Dean of Students for six years before beginning her current job as Vice President for Student Affairs in 1992. Although it was not her original intention to remain at the University forever, new opportunities and challenges presented themselves, and the pull of the Clemson family was just too strong. Jacks and her family joke that Clemson isn't quite the "real world" because it often seems too good to be true. All this is not to say that Jacks doesn't work hard, though. As she puts it, having a career at Clemson "is work – not a football game every day!" Yet, sometimes it is about a football game: Jacks' most memorable experience is traveling to Japan in 1991 to watch the Tigers in the Tokyo Bowl. Photography Courtesy Almeda Jacks

Advances in Biotechnology

Oftentimes at Clemson, researchers collaborate across disciplines. Biotechnology research, for example, cuts across several areas of study - from plant and animal science and genetics to biochemistry, materials science, and biological engineering. At any given time, several biotech projects are underway. (1) Dr. Desmond Layne is studying anti-fungal genes in hopes of creating a peach rootstock strong enough to withstand oak root rot disease. (2) Dr. Bill Marcotte is involved in efforts to create a synthetic version of spider silk, the world's strongest fiber from plants. (3) On a different note, Dr. Weiguo Cao is searching for possible links between DNA repair pathways and the development of cancer. (4) Dr. Ted Bateman is looking at a protein naturally found circulating in the human body as a potential treatment option for osteoporosis. Specifically, he is studying bone loss in astronauts. And this only begins to highlight the interesting agricultural, human health, and environmental research that is conducted at Clemson. Together, Clemson's biotechnology research efforts are contributing to the university's goal of economic growth in South Carolina.

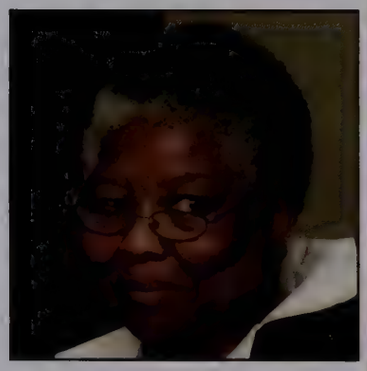
Historic Preservation

Over the past couple of years, Dr. Jeff Burden of the Department of Planning and Landscape Architecture at Clemson University has been busy planning and preparing for a new masters program in historic preservation. His hard work paid off, and in the fall semester of 2004, six graduate students enrolled in the program, which is based in the beautiful (and quite historical) Charleston, SC. While other institutions offer degrees in historic preservation as well, Clemson's program is unique in the fact that it integrates both design elements and architecture. With the help of two Clemson faculty members, students study everything from the minuscule details of the construction materials to the culture and history of the Charleston area. During the two year program, students get a chance to work collaboratively and individually, developing detailed preservation plans and interacting with community organizations and leaders. This new graduate degree is especially exciting because it is the first of its kind in South Carolina, a state with an important historical background. No doubt the program will grow in the future!

Melissa Putney

Photography Courtesy Cameron Schwabenton

Clemson EXPORT Director Dr. Shirley Timmons is incredibly passionate about the project. She has whole-heartedly dedicated herself to the goal of reducing health disparities and empowering minority groups throughout South Carolina.



The EXPORT Center could not run without the supervision of its Principal Investigator, Dr. Barbara Logan. A professor in the nursing department at Clemson, Dr. Logan specializes in psychology and mental health nursing.

A Partnership to Tackle Obesity

Clemson's Center for Excellence in Partnerships for Community Outreach, Research Health Disparities, and Training (EXPORT) is one of more than 50 EXPORT Centers in the country that are working to help reduce health disparities for minorities in the U.S. Established in September 2003 through a four-year grant from the National Institutes of Health Center on Minority Health and Health Disparities, the Clemson EXPORT Center focuses on the role obesity plays in increasing health disparities. At any given time, projects are underway in each of the three main cores: research, training, and outreach. For example, one research study is looking at the role of socio-cultural factors in lifestyle and their subsequent effects on weight. Through a partnership between the Clemson University CHEHD and Voorhees College, a private, historically black college in Denmark, SC, the EXPORT Center aims to intervene directly with the minority population in rural South Carolina - from Anderson, Oconee, and Pickens counties in the upstate to Bamberg, Barnwell, Calhoun, and Orangeburg counties in the lower part of the state. While mainly faculty-run, the EXPORT Center also values student involvement at both Clemson and Voorhees.

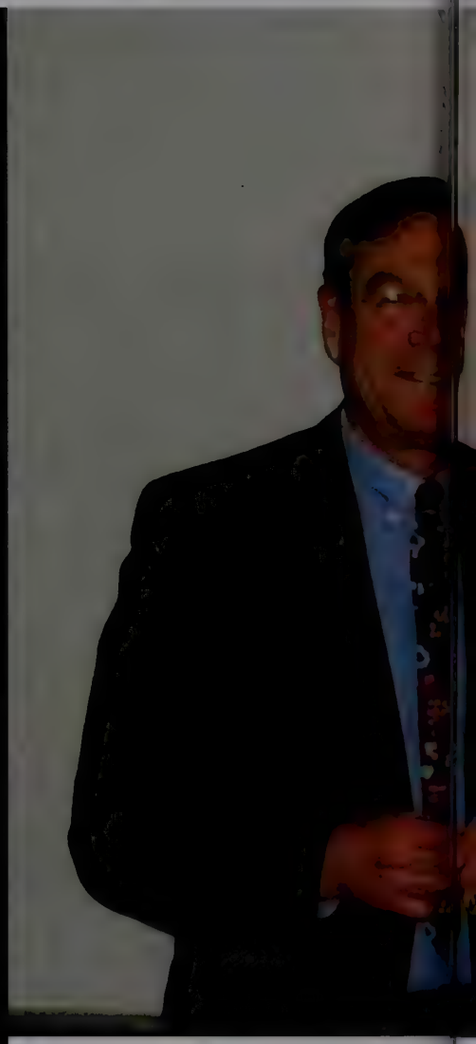
Inspired Innovation



The Arthur M. Spiro Center for Entrepreneurial Leadership received a 1.5 million dollar gift from Mr. Spiro and his wife in 1995. This funding assists the Spiro Center in actively enriching its three emphasis areas: outreach, education, and research. In the education program, a new certificate in technology entrepreneurship has been added for graduate students in science and engineering. (1) Another new addition this year, Dr. David Bodde is the Senior Fellow of the Spiro Center and Director of Innovation and Public Policy at the International Center for Automotive Research. (2) John Wilken, a retired CEO of Bi-Lo, teaches an undergraduate entrepreneurship class. (3) Another first, John Warner, VP of KEMET electronics; Dr. Caron St. John, Director of the Spiro Center; Dr. Clayton Christensen, a professor at Harvard Business School; Dr. Jeff Graves, CEO of KEMET Electronics; and Dr. Bruce Yandle, Interim Dean of the College of Business and Behavioral Science, attend a KEMET Innovation Forum. (4) Assisting in the work of one of the Spiro Center's focus areas, Malay Deshpande, John Megale, Lisa Perpall, and Dave Wurster are graduate research assistants. The Spiro Center is dedicated to updating and enhancing each one of its areas of importance.

CLEMSON UNIVERSITY
national Center for Automotive R
duate
Research
I-85

Breaking Ground for Auto Research

The Clemson University International Center for Automotive Research (ICAR) broke ground in November 2003 for its main research, development, and testing facility that will be located on 400 acres along I-85 in Greenville, SC. ICAR will also house the Carroll A. Campbell Jr. Graduate Engineering Center, named to honor the former South Carolina governor who is credited with helping bring BMW to the area. In the decade following BMW's arrival in South Carolina, the automotive and motorsports industry in the Southeast grew substantially. In fact, the Southeast is now home to the United States' largest regional automotive cluster. Clemson's ICAR is the next step in economic development for South Carolina. Not only will ICAR create a significant number of new high-paying jobs at the center itself, its presence in the state will attract new interest and technologies to the area which will further drive the economy. ICAR won't only benefit the economy of South Carolina; it will open up new educational opportunities for Clemson students as well. Clemson undergraduates can get involved in research projects, while the graduate program will help prepare the workforce of the future.

Melissa Putney

While being distracted from their sleep, participants are able to relax in the commons room. Recreational activities are provided for entertainment so that participants do not accidentally drift off too early.

The facility also has a kitchen and dining area, four private subject bedrooms, a master suite for cognitive and behavioral assessments, and an occupational stress simulation lab.

Residential Research Facility

The Clemson University Residential Research Facility is one of the few labs of its kind in the nation. Dr. James McCubbin believes "this facility can become a significant interdisciplinary research asset" because of its potential to serve as an environment for studies of alcohol and substance abuse; human factors engineering; performance enhancement for workers, athletes, and executives; family living; and much more. Starting in January 2005, the facility will be used for a study funded by the Department of Defense. Since national security relies upon the translation of foreign languages, a very complex cognitive task, it has become important to help CIA, FBI, and other government agencies develop strategies to minimize the deleterious effects of stress and fatigue on cognitive function. The study, headed by McCubbin, will involve multilingual participants staying at the facility, experiencing daily disrupted sleep, and then taking SAT, GRE, and MCAT tests for eight to twelve hours each day. Such tasks are similar to the monotonous tasks that government agents face on a daily basis. Both graduate and undergraduate students are working with the project; their work will provide a great service to the nation.

Clemson continues its ACC reputation of dominance

True Champs

Three Tiger teams won ACC Titles in 2004

It was a banner year for men's outdoor track, golf, and women's tennis at Clemson. The golf team could not repeat the success of their 2003 NCAA Championship team, but did blow away the rest of the ACC at the conference tournament to repeat as conference champs. The Lady Tigers tennis team simply dominated the ACC in 2004 with a perfect 8-0 regular season record, as well as winning the ACC regular season and tournament titles. It was the most succesful season in Lady Tiger tennis ever. The outdoor men's track and field ran past previous conference records to set the all-time ACC record for points. In addition, Coach Pollock was named ACC Coach of the Year.

Wade Beard

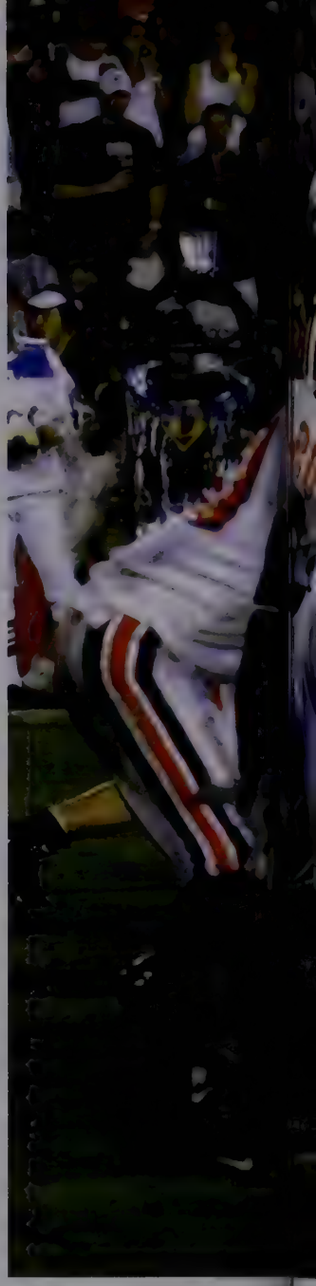
Photography by Harry Cappel

"I am speechless. I think it's so important to note how this was possible. This was absolutely possible only by the fact that I have a terrific staff, a wonderful team, and tremendous support."

Tennis Coach Nancy Harris

Tigers work hard to "break in" the new teams

ACC Expansion



The ACC welcomes two new schools into the competition

This year, the Atlantic Coast Conference welcomed two new teams into the conference. What was a nine team conference expanded to eleven in the summer of 2004. The University of Miami and Virginia Tech respectively left their current conferences to join the ACC. The original ACC was founded in 1953, and was made up of Clemson, Maryland, Duke, North Carolina, NC State, Wake Forest, and Virginia. In 1978, Georgia joined the ranks, and Florida State joined in 1991. In their first year of the ACC, Miami and Virginia Tech have come into their own through successful wins and heartbreaking losses. Virginia Tech became the ACC Champion in football this year with a 7-1 record.

Kathleen Wood

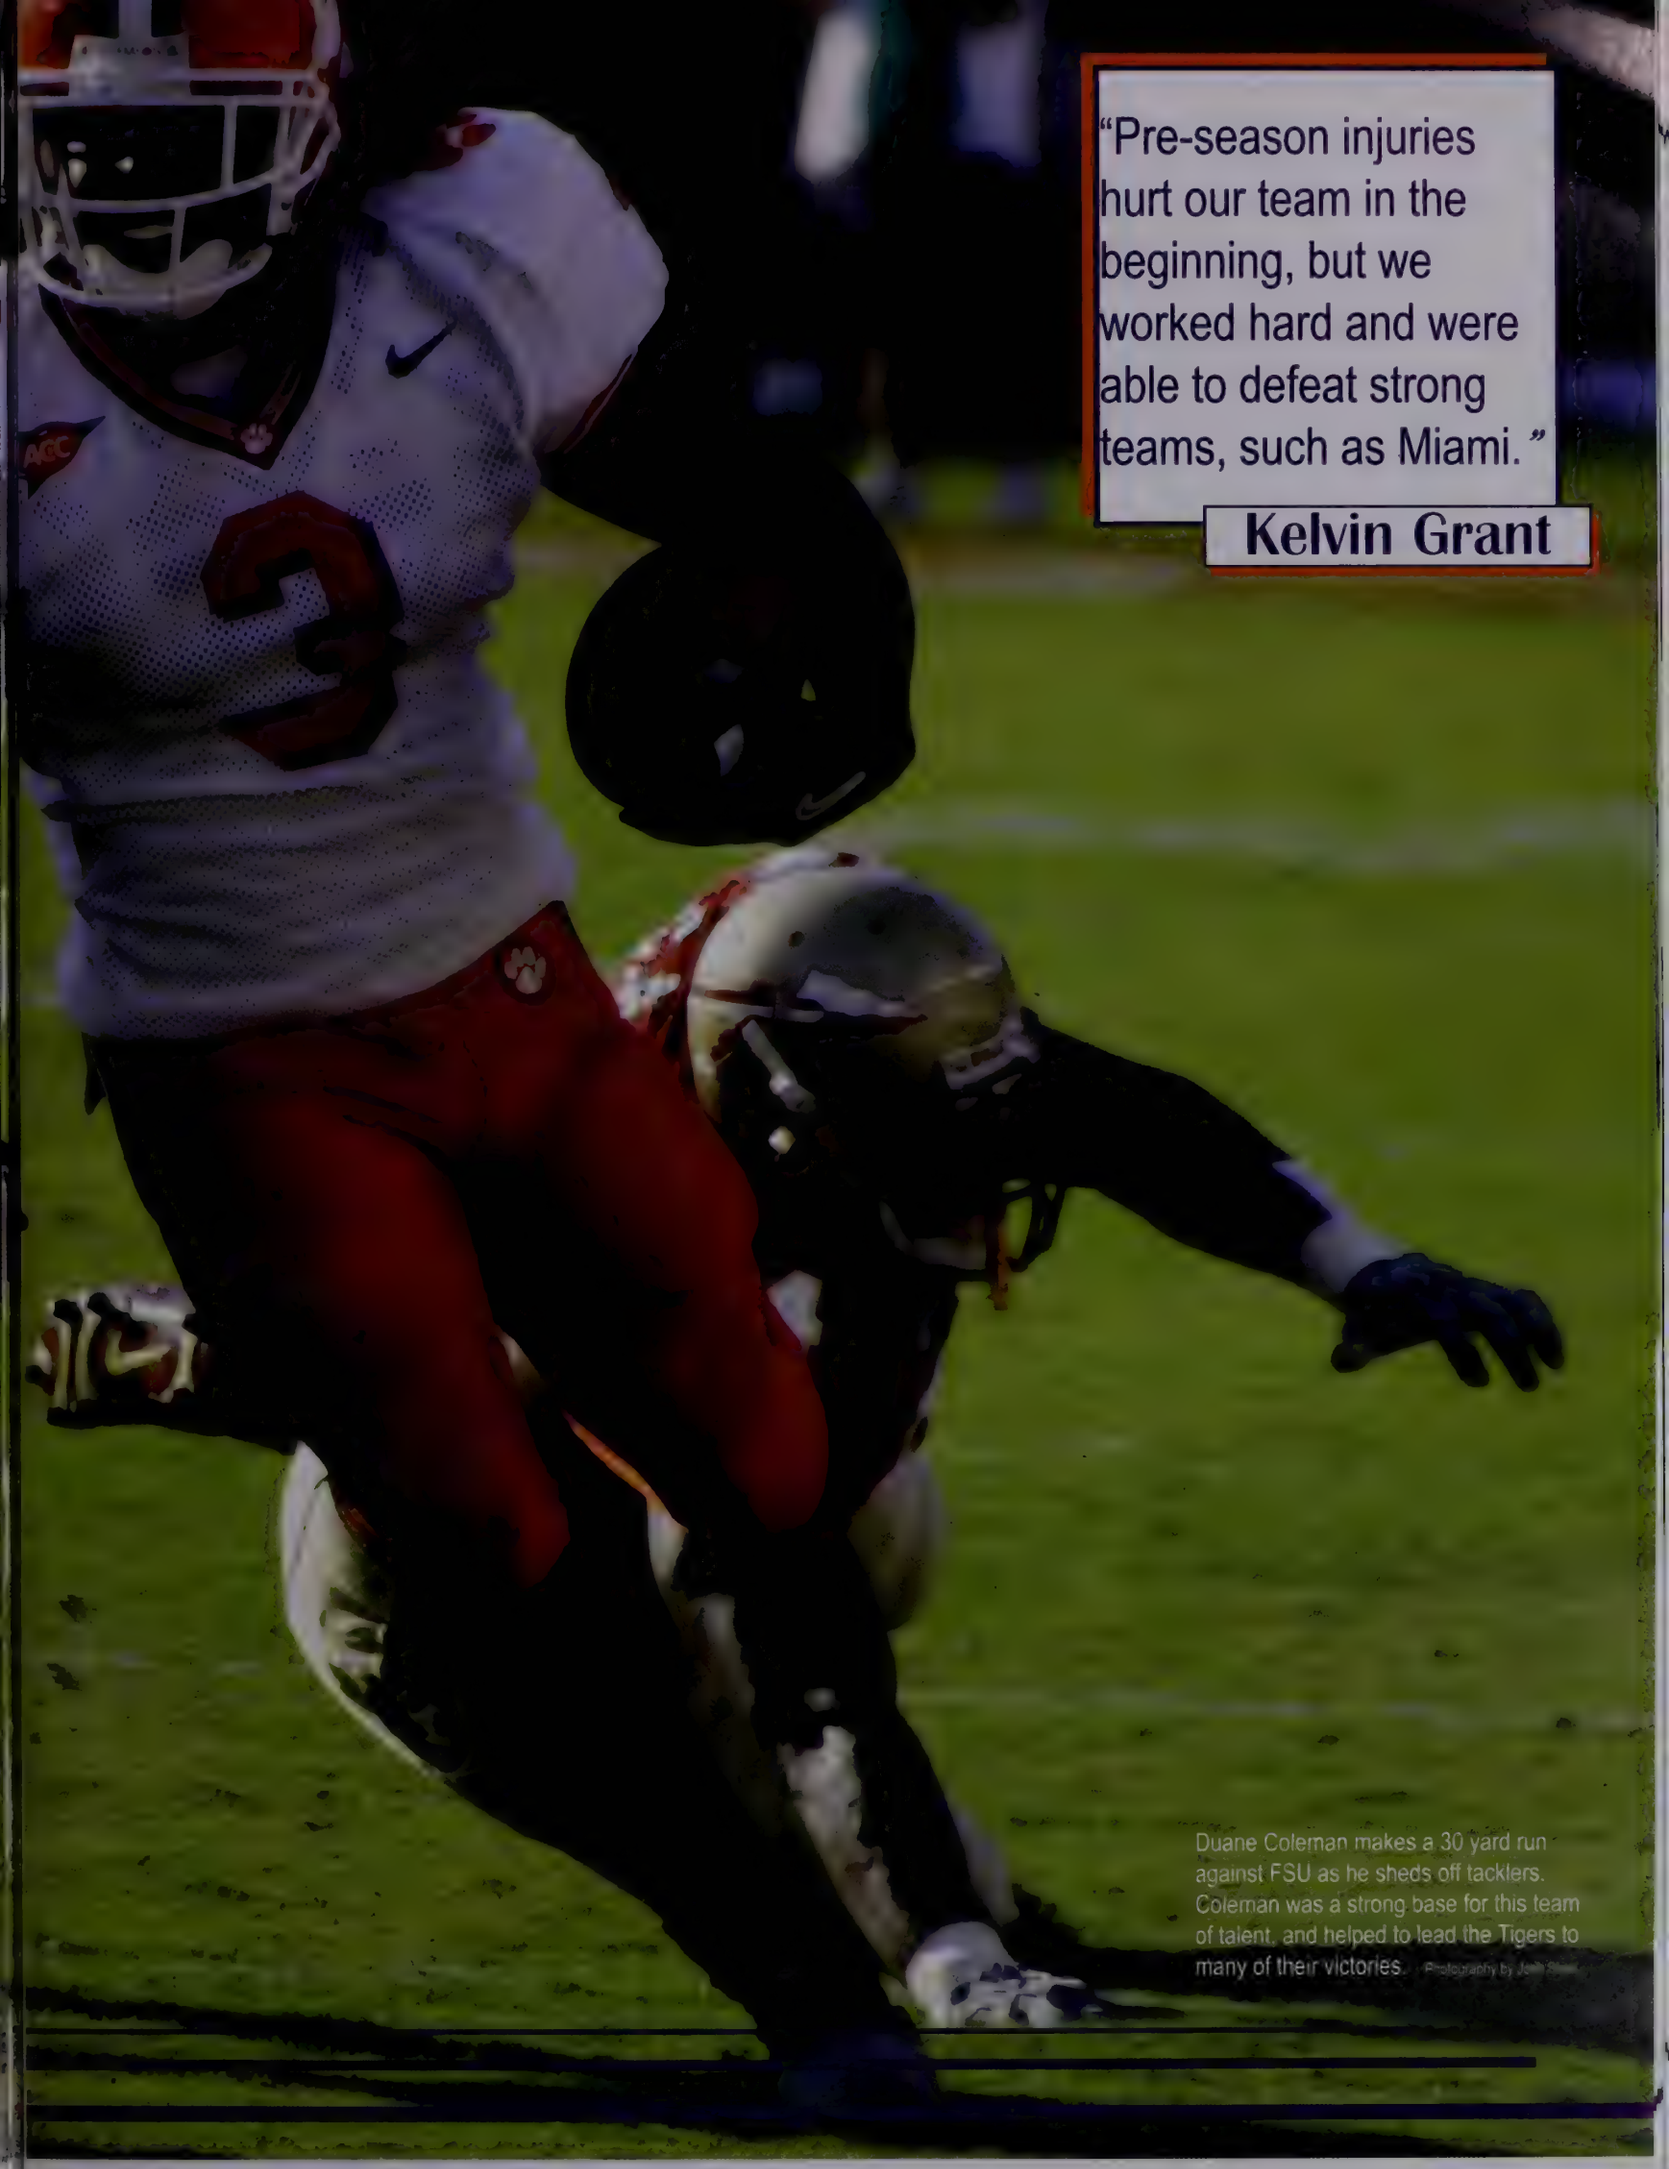
Tiger pride and traditon are what we carry with us

Team Victory

Down the hill, past the rock, and into Death Valley

The Tigers had a tough schedule this year, playing both Texas A&M and Florida State on the road. The season looked dismal after a 1-4 start and a heart-breaking loss at home to Georgia Tech. Powered mostly by a smothering defense, Bowden once again rallied his players to make a late season surge. Led by quarterback Charlie Whitehurst, the Tigers went on to win 5 of the last 6 games to become bowl eligible, including victories in two games that will be talked about for years to come. The first occurred when the Tigers came from behind to beat ACC newcomer and perennial powerhouse, Miami, in a thrilling overtime victory. Two weeks later the Tigers returned to the Valley where they beat up on USC in more ways than one, continuing their domination in a rivalry that has seen these two teams play over a hundred times. *Adam D'Alessandro*

Airese Currie makes a diving catch in the end zone to score against Wake Forest, making the cannon shoot and the Clemson fans go wild! Photography by Josh Shea



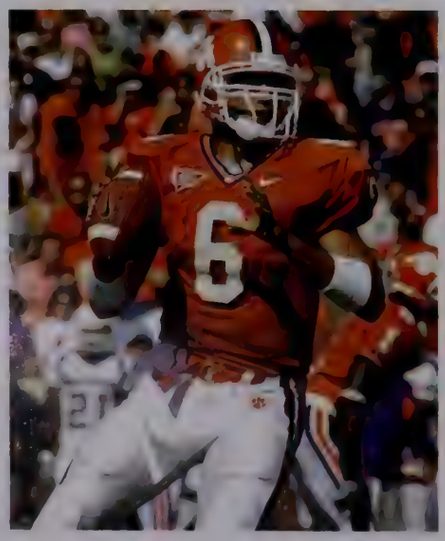
"Pre-season injuries hurt our team in the beginning, but we worked hard and were able to defeat strong teams, such as Miami."

Kelvin Grant

Duane Coleman makes a 30 yard run against FSU as he sheds off tacklers. Coleman was a strong base for this team of talent, and helped to lead the Tigers to many of their victories. Photography by Josh Sm

1 Cedric Johnson blocks as Reggie Merriweather sprints for the endzone. The Tigers went on to beat Utah State during this year's homecoming game. Photography by Wade Beard

2 Most of us know it as, "The most exciting 25 seconds in college football." The Tigers running down the hill at the sound of the cannon always pumps up the crowd. Photography by Matt Johnson



Charlie Whitehurst | Quarterback | #6

Whitehurst is from Duluth, Georgia, and was not even considered a top pick out of high school because of an injury. As we have all seen, he is an amazingly accurate and consistent player, and seems to have recovered from his high school injury very well. He leads the offensive line, and is third in Clemson's history for passing yardage. He is also the only player since Homer Jordan in 1981 to quarterback during two wins over top ten teams, in the last four games of the season. Since being at Clemson he has established 33 records for passing and total offense. Whitehurst is an impressive player, and we are sure to see improvements from him in the future. Photography by Wade Beard

Football Highlights

Tiger defense showed what it was made of against South Carolina. The Gamecocks could not even manage to make a first down against the team until 10:37 was left in the second quarter.

Wake Forest	37 - 30
Georgia Tech	24 - 28
Texas A&M	6 - 27
Florida State	22 - 41
Utah State	35 - 6
Maryland	10 - 7
NC State	26 - 20
Miami	24 - 17
South Carolina	29 - 7

Overall Record: 6 - 5

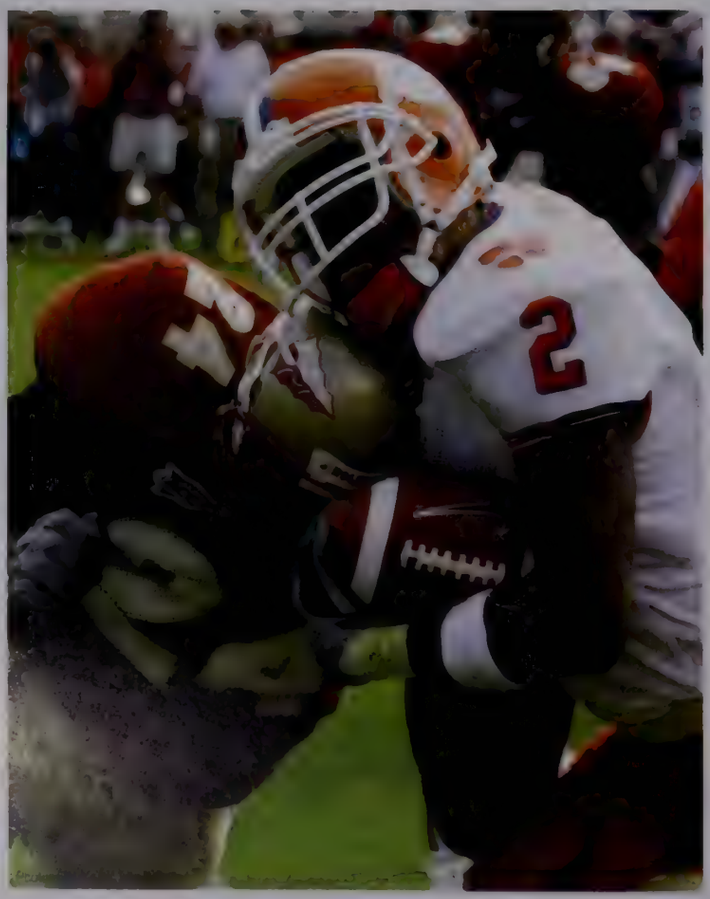
Big games mean big victories

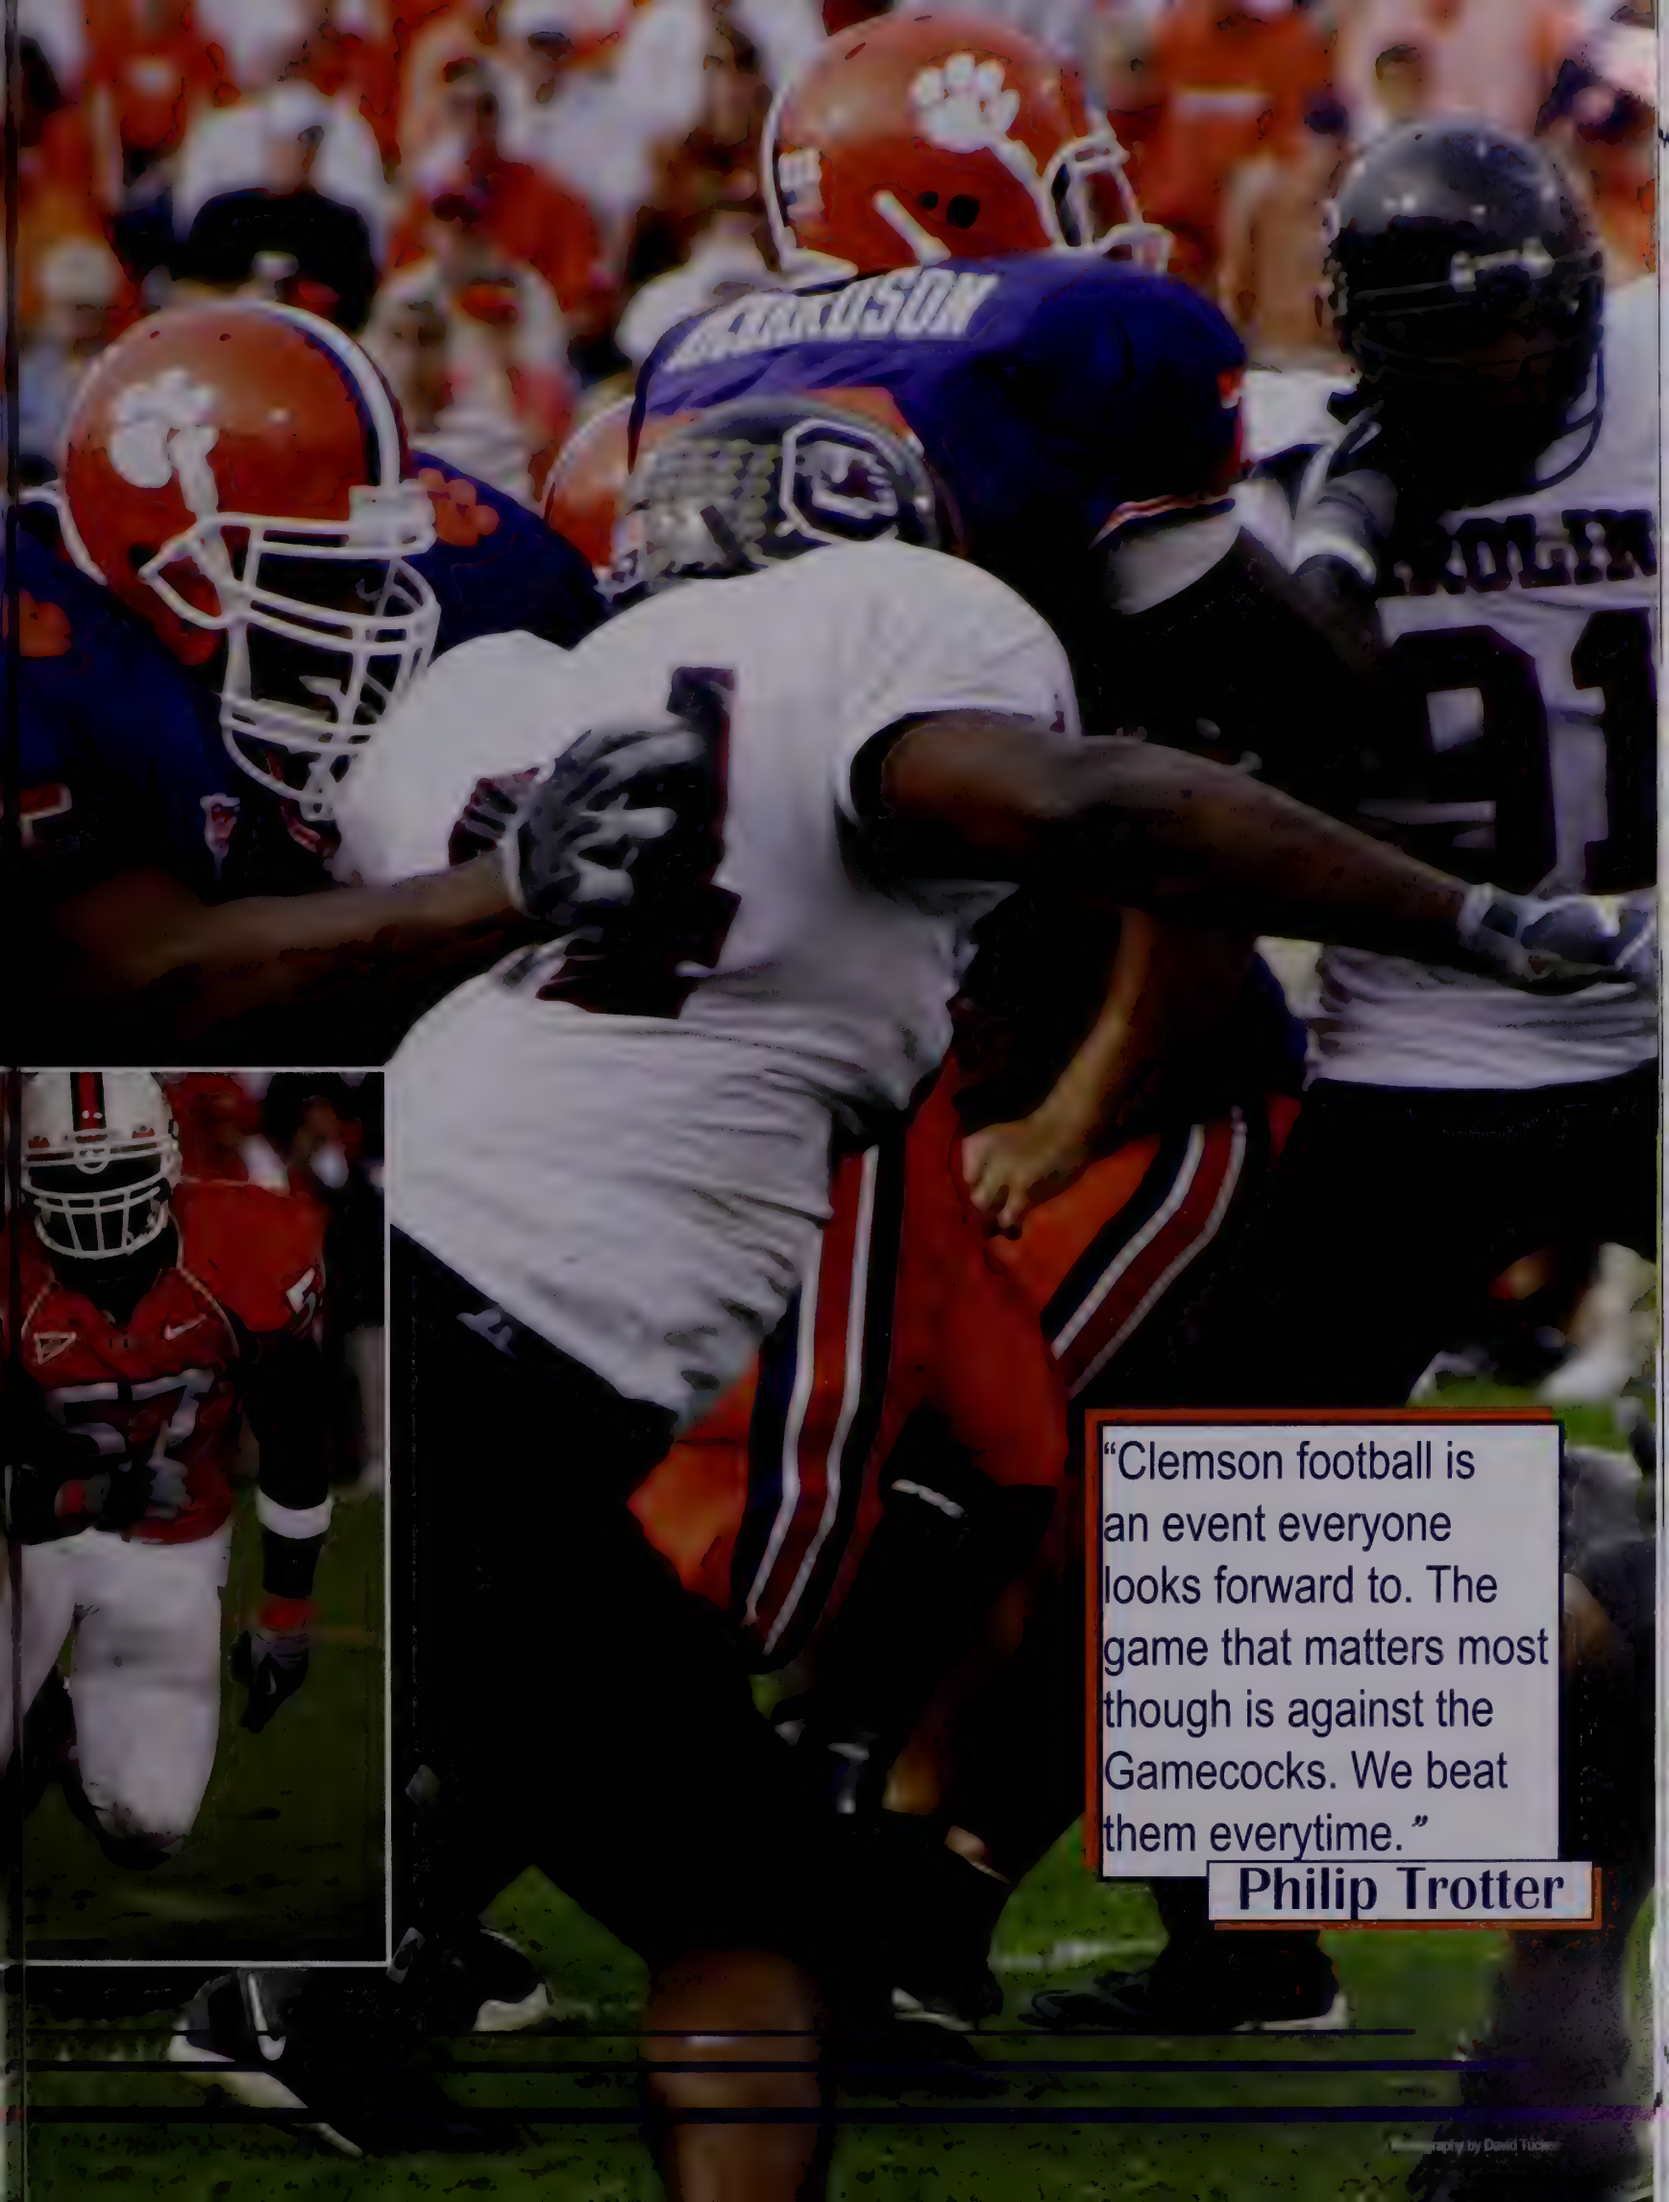
In Death Valley

Rival teams tested the Tigers' skill and power on the field

This was another great year for Tiger football fans, as the Tigers plowed forward with a 6-5 record for the 2004 season. Big victories against ACC opponents such as Miami, Wake Forest, Maryland, and NC State showed the strength and dedication of a team out for victory. In an impressive game, the Tigers defeated the nationally ranked and number one ACC team, the Miami Hurricanes in overtime. Wrapping up the season, the Tigers faced arch rival USC and came away with a 29-7 victory over the Gamecocks and bragging rights for yet another year from the biggest rivalry in the state.

David Tucker





"Clemson football is an event everyone looks forward to. The game that matters most though is against the Gamecocks. We beat them everytime."

Philip Trotter

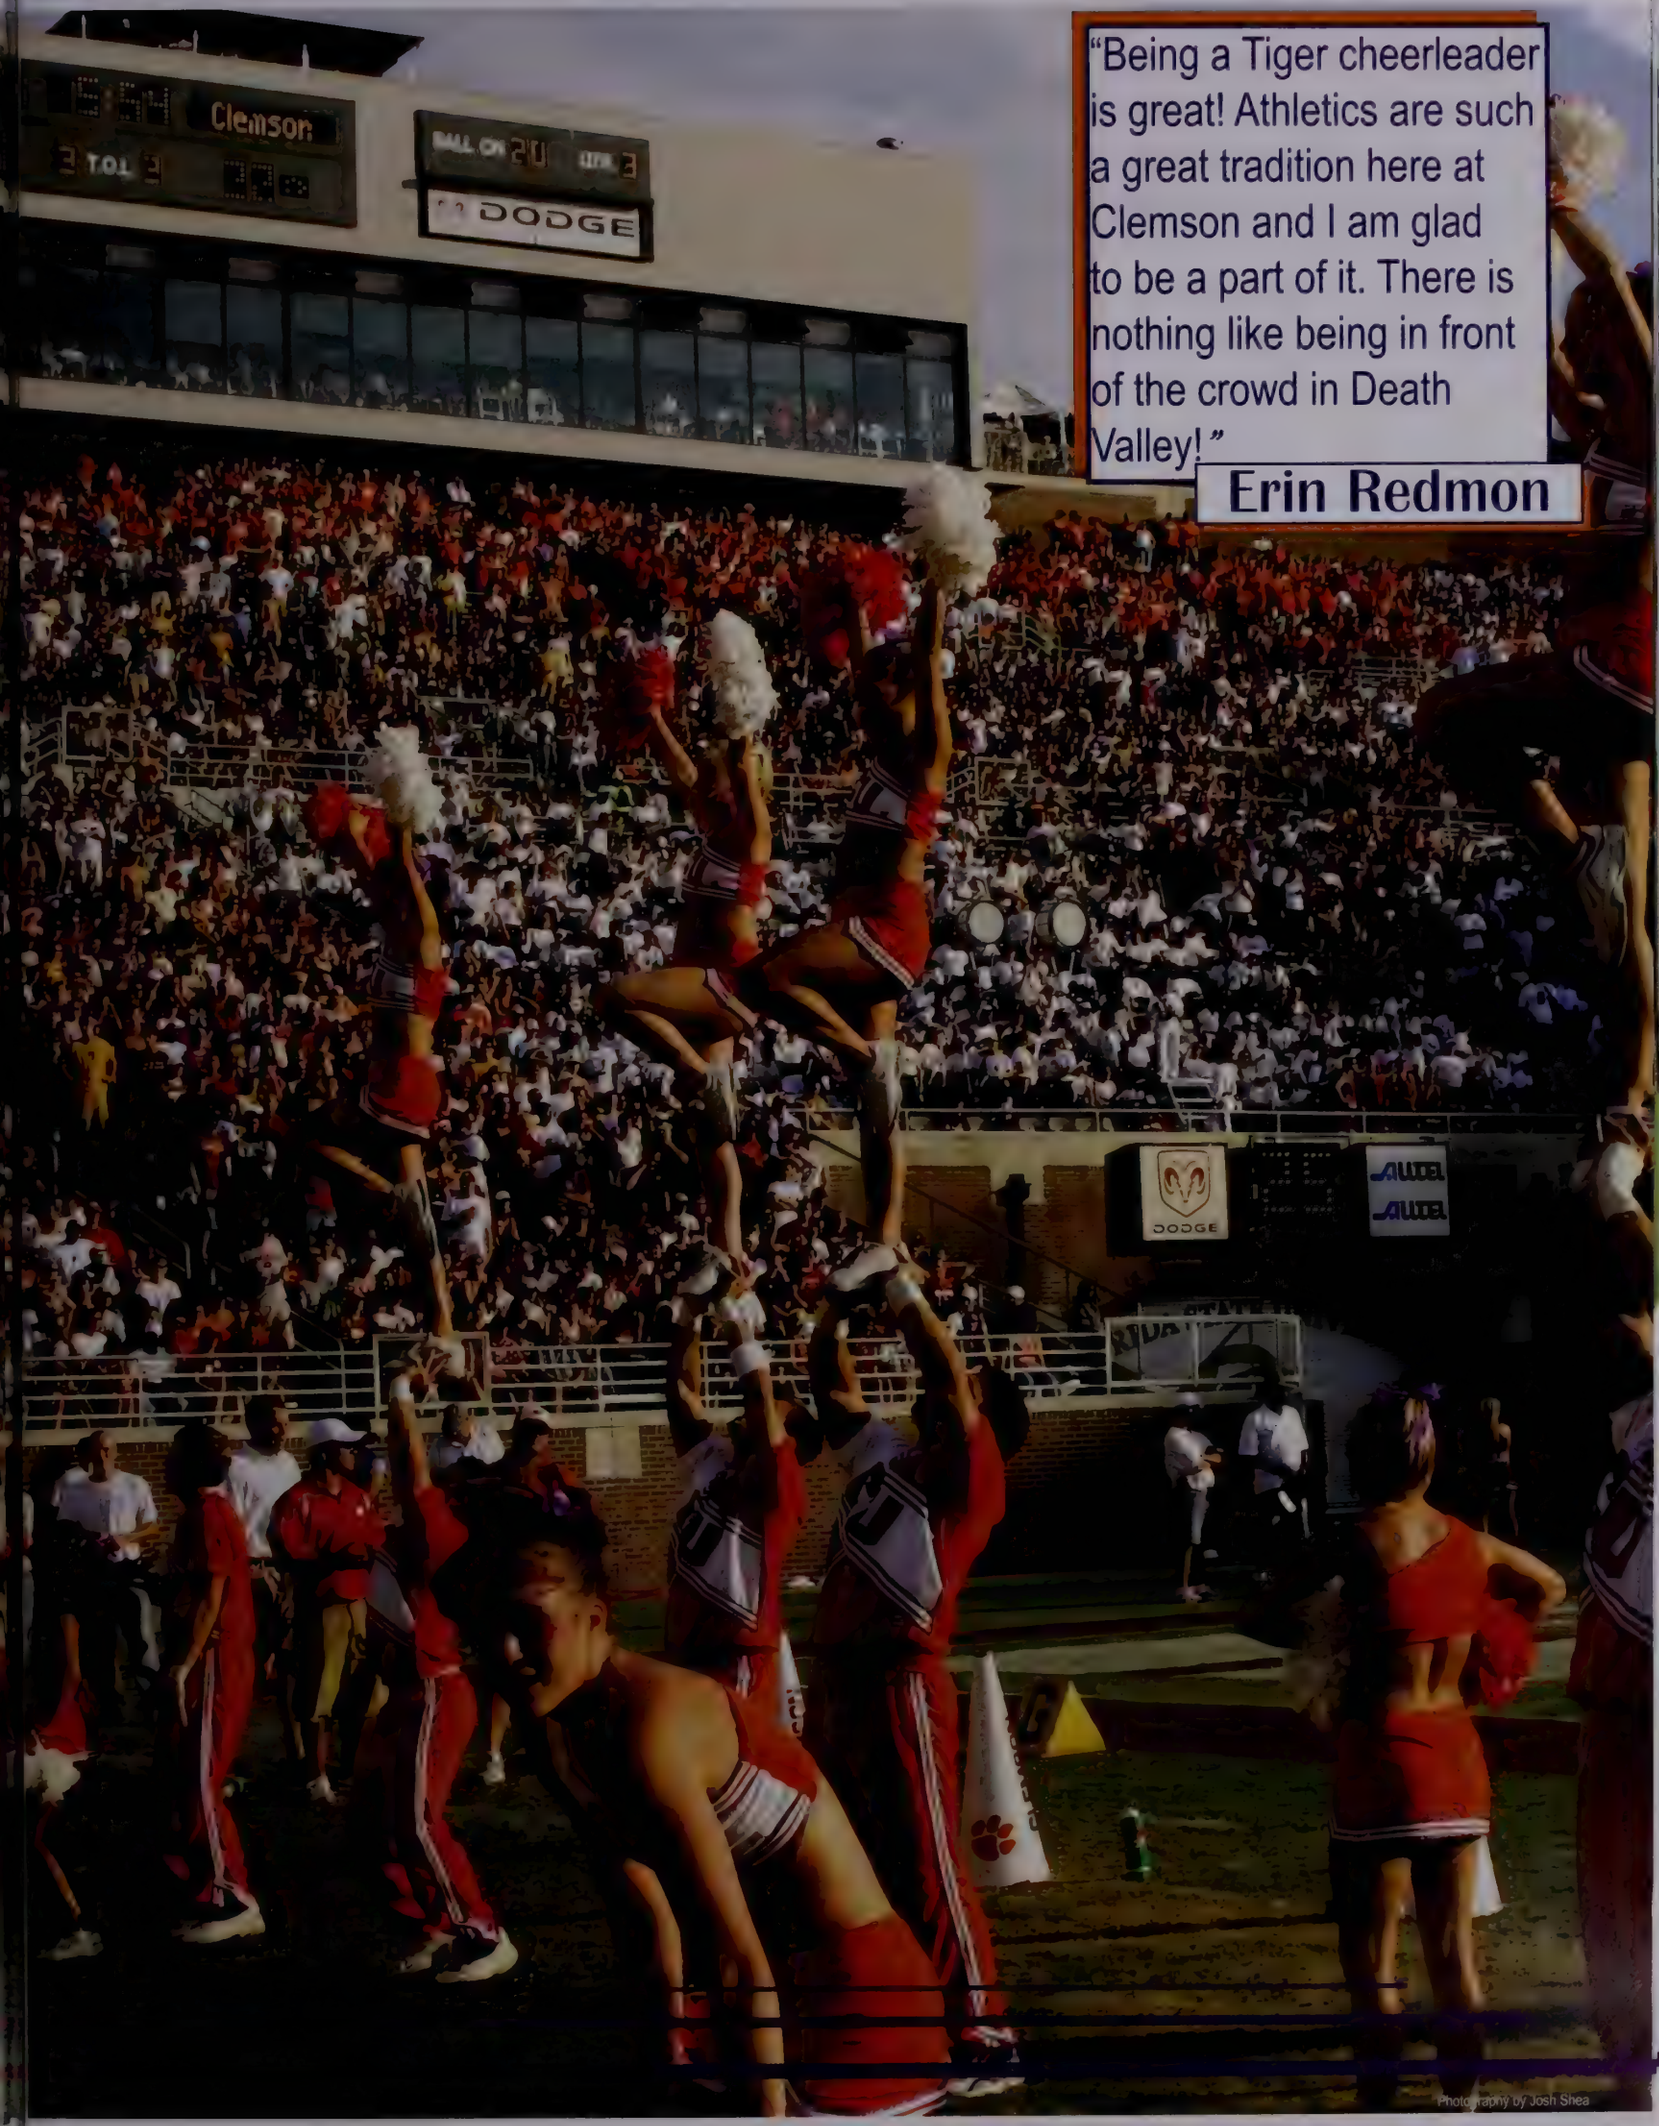
Bringing fans to their feet

Make some Noise!

Tiger cheerleaders help bring spirit to Tiger fans everywhere

Clemson's cheerleading squad is a group of incredibly athletic girls and guys brought together to help spread Clemson Tiger pride to fans everywhere. Their flips, stunts, and loud spirit-filled cheers can be seen and heard at sporting events throughout the year. It is up to these cheerleaders to ignite the Tiger pride in all Clemson fans to support the athletes. The cheerleaders themselves go through hours of vigorous practice just like any other Clemson athlete in order to give their best to all the fans in attendance. They bring spirit to the stadium as they support the Tigers. The deafening roar in Death Valley, as Tiger fans cheer in unison, begins with the chants of the cheerleaders. *David Tucker*

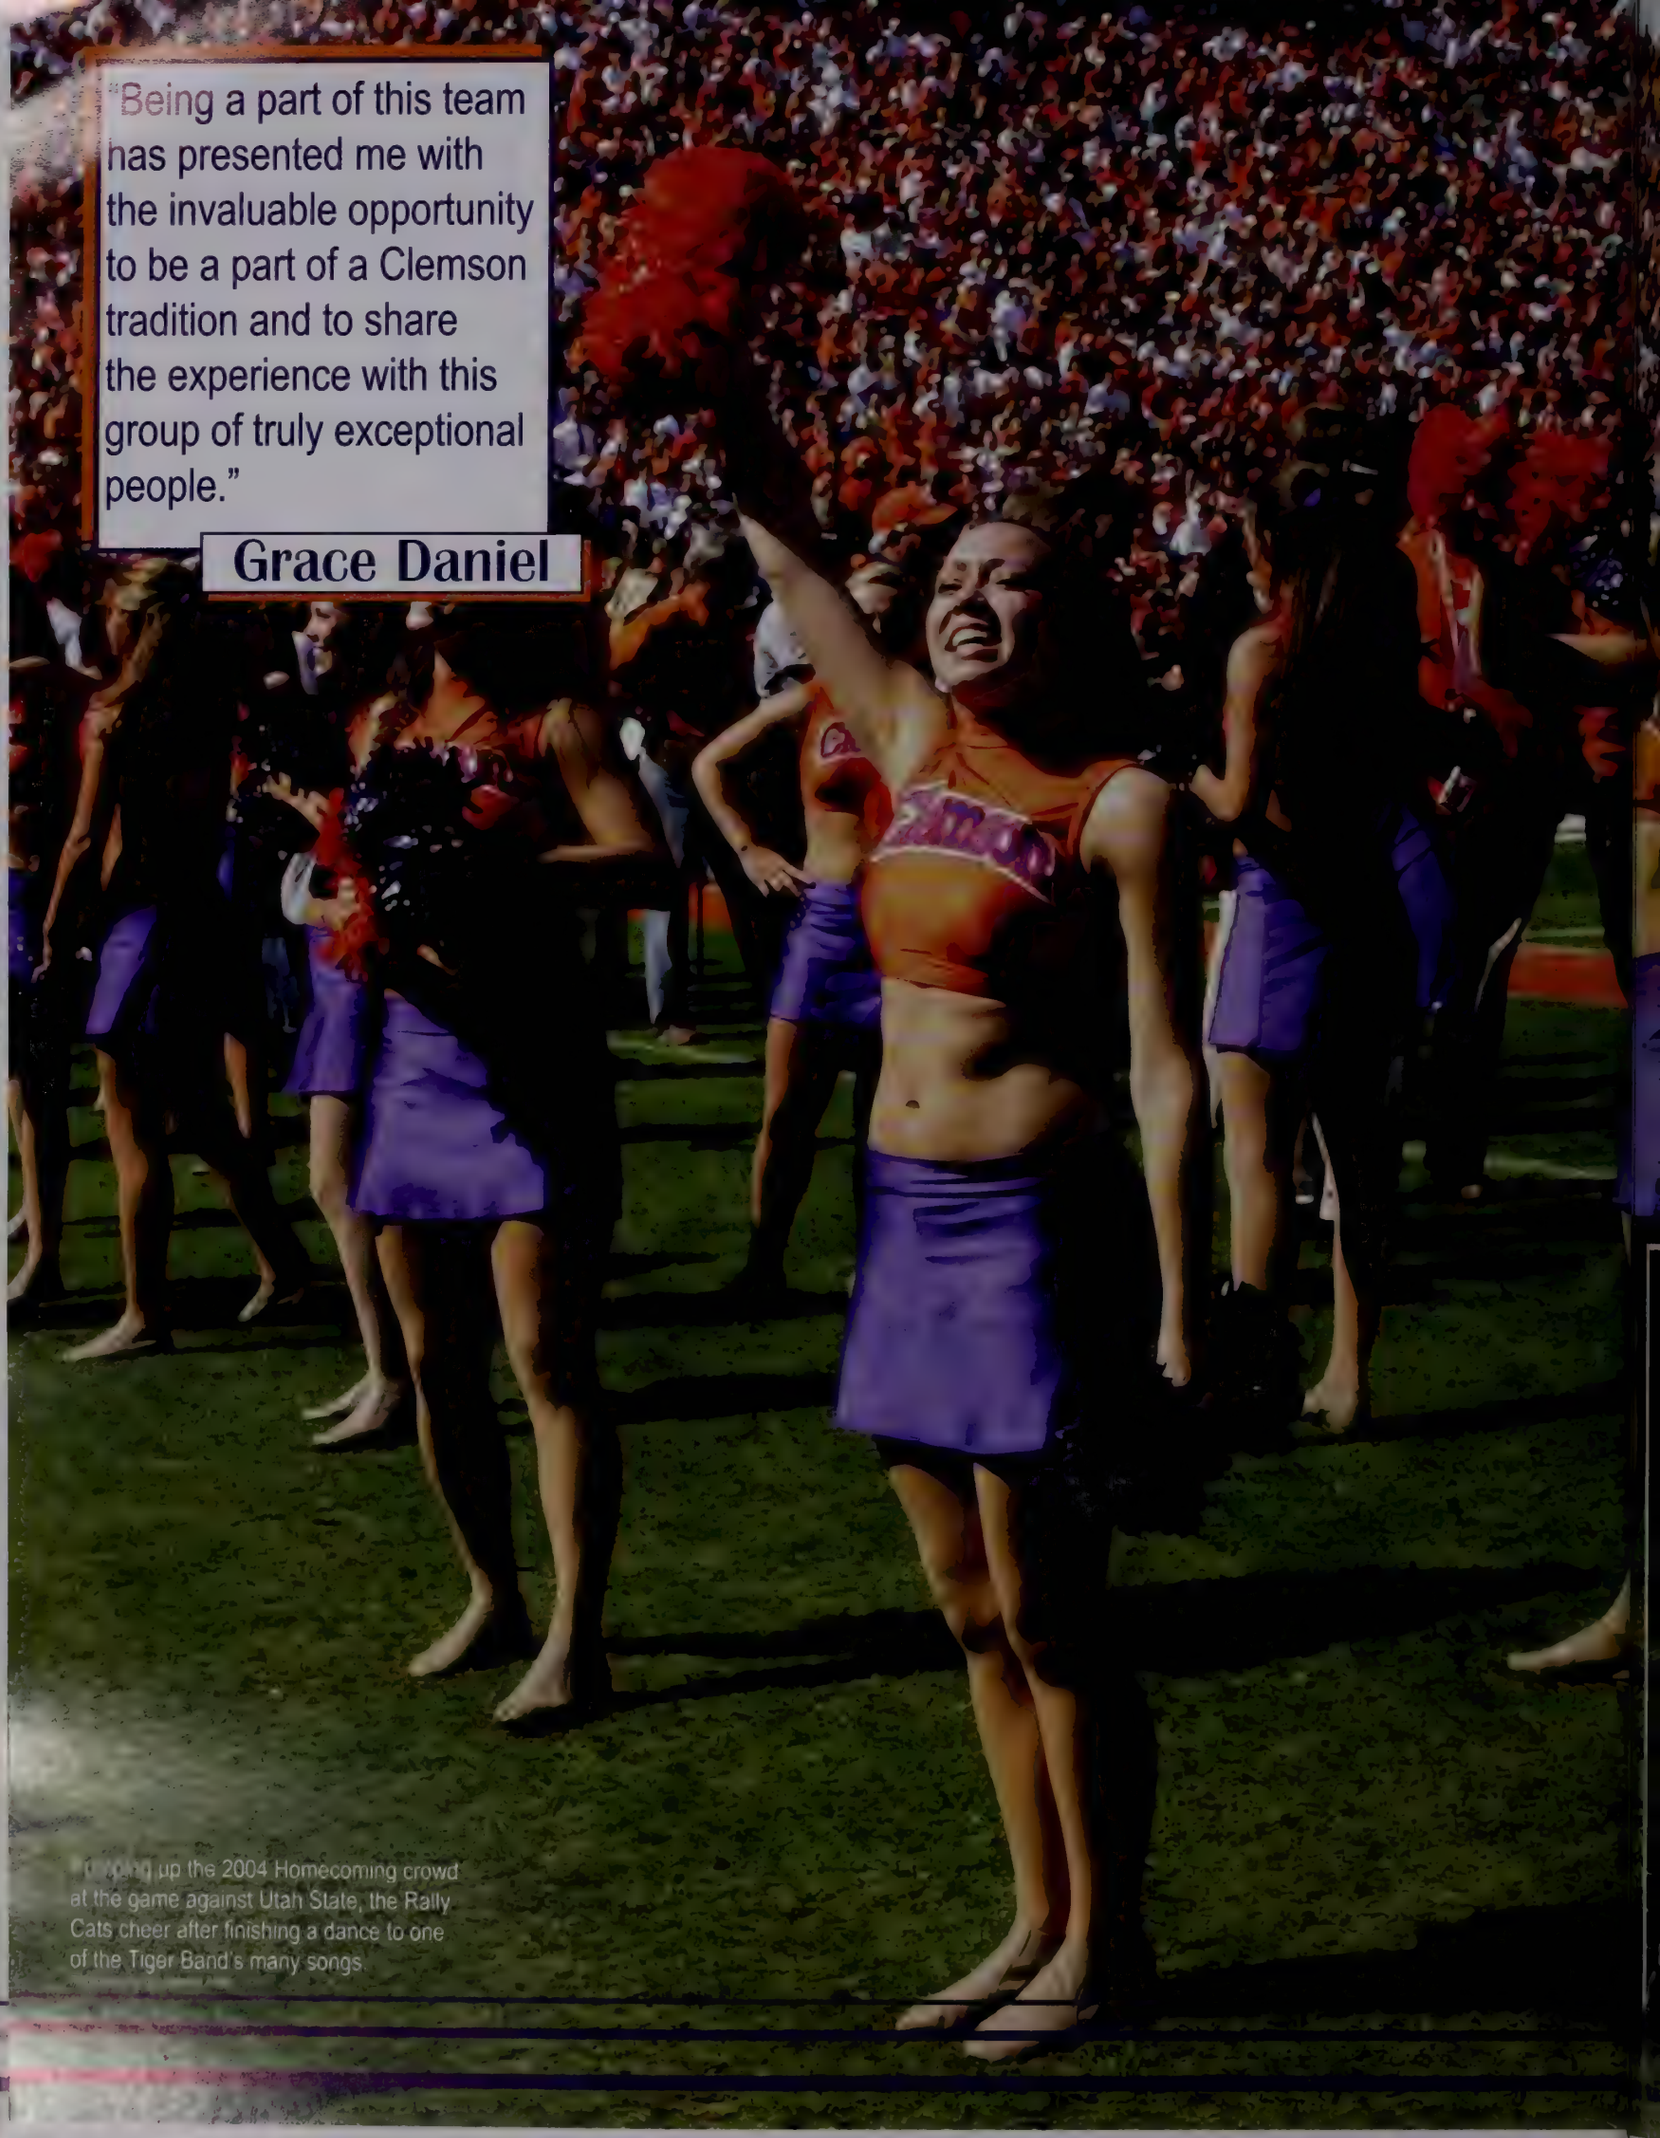
The cheerleaders work hard every game to bring the fans to their feet screaming for the Clemson Tigers. Their spirit and cheers are a key element to every football game. Photography by A.J. George



"Being a Tiger cheerleader is great! Athletics are such a great tradition here at Clemson and I am glad to be a part of it. There is nothing like being in front of the crowd in Death Valley!"

Erin Redmon

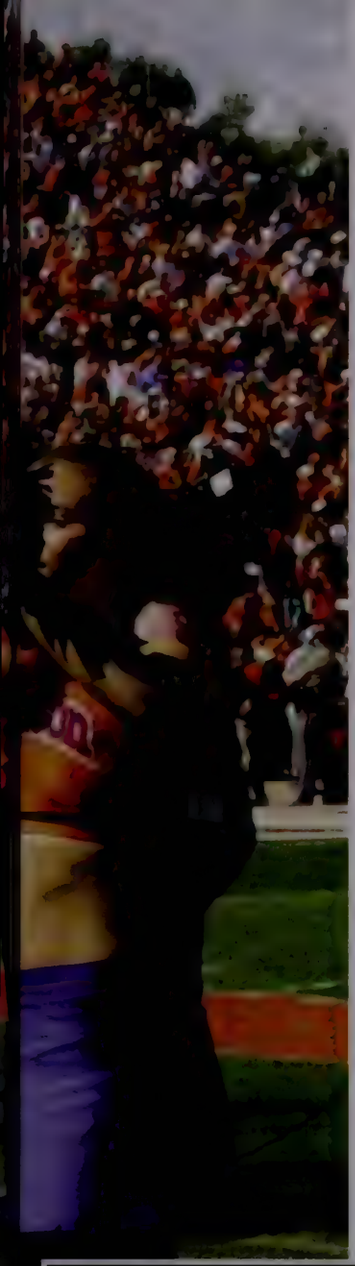
Photography by Josh Shea



"Being a part of this team has presented me with the invaluable opportunity to be a part of a Clemson tradition and to share the experience with this group of truly exceptional people."

Grace Daniel

Pumping up the 2004 Homecoming crowd at the game against Utah State, the Rally Cats cheer after finishing a dance to one of the Tiger Band's many songs.



Using dance and spirit to liven up the Clemson crowds!

The Rally Cats

Taking Clemson dance to a whole new level

Clemson's own dance team, the Rally Cats, have become an integral part of athletic programs and events that fans know and love. Their performances are enjoyed throughout the year at football and basketball games, as well as a few soccer and volleyball games. The Rally Cats' spirit is also shown during First Friday, Tigerama, Big Thursday, and many other events in and around Clemson. Not only have they become well-known around campus, but they have also gained national recognition at the NDA National competition in Daytona each year. Last year they placed higher than ever before, finishing in sixth place. Each member of the team auditions and faces stringent practices and mandatory workout times for hours each week in order to perform the best that they can. *Justin Stone*

Setting, Spiking, Digging, Serving, and Bumping... Point Tigers!

When you go to a volleyball game, be prepared to help cheer for the Lady Tigers

The Lady Tigers, led by Leslie Finn and Brittany Ross, played their way to a great season. With four seniors helping to fill the team with experience, the team knew the direction that they wanted to head in this season. The Tigers finished with a 12-8 overall record with the help of coaches and fans. Lindsey Meleski said, "I was amazed to see that many fans at a volleyball match because in high school not many people came. The fans really motivate the team and I know they mean a lot to the coach." It has been said that Jervey is one of the hardest gyms for the opposing team to come into because of the fans.

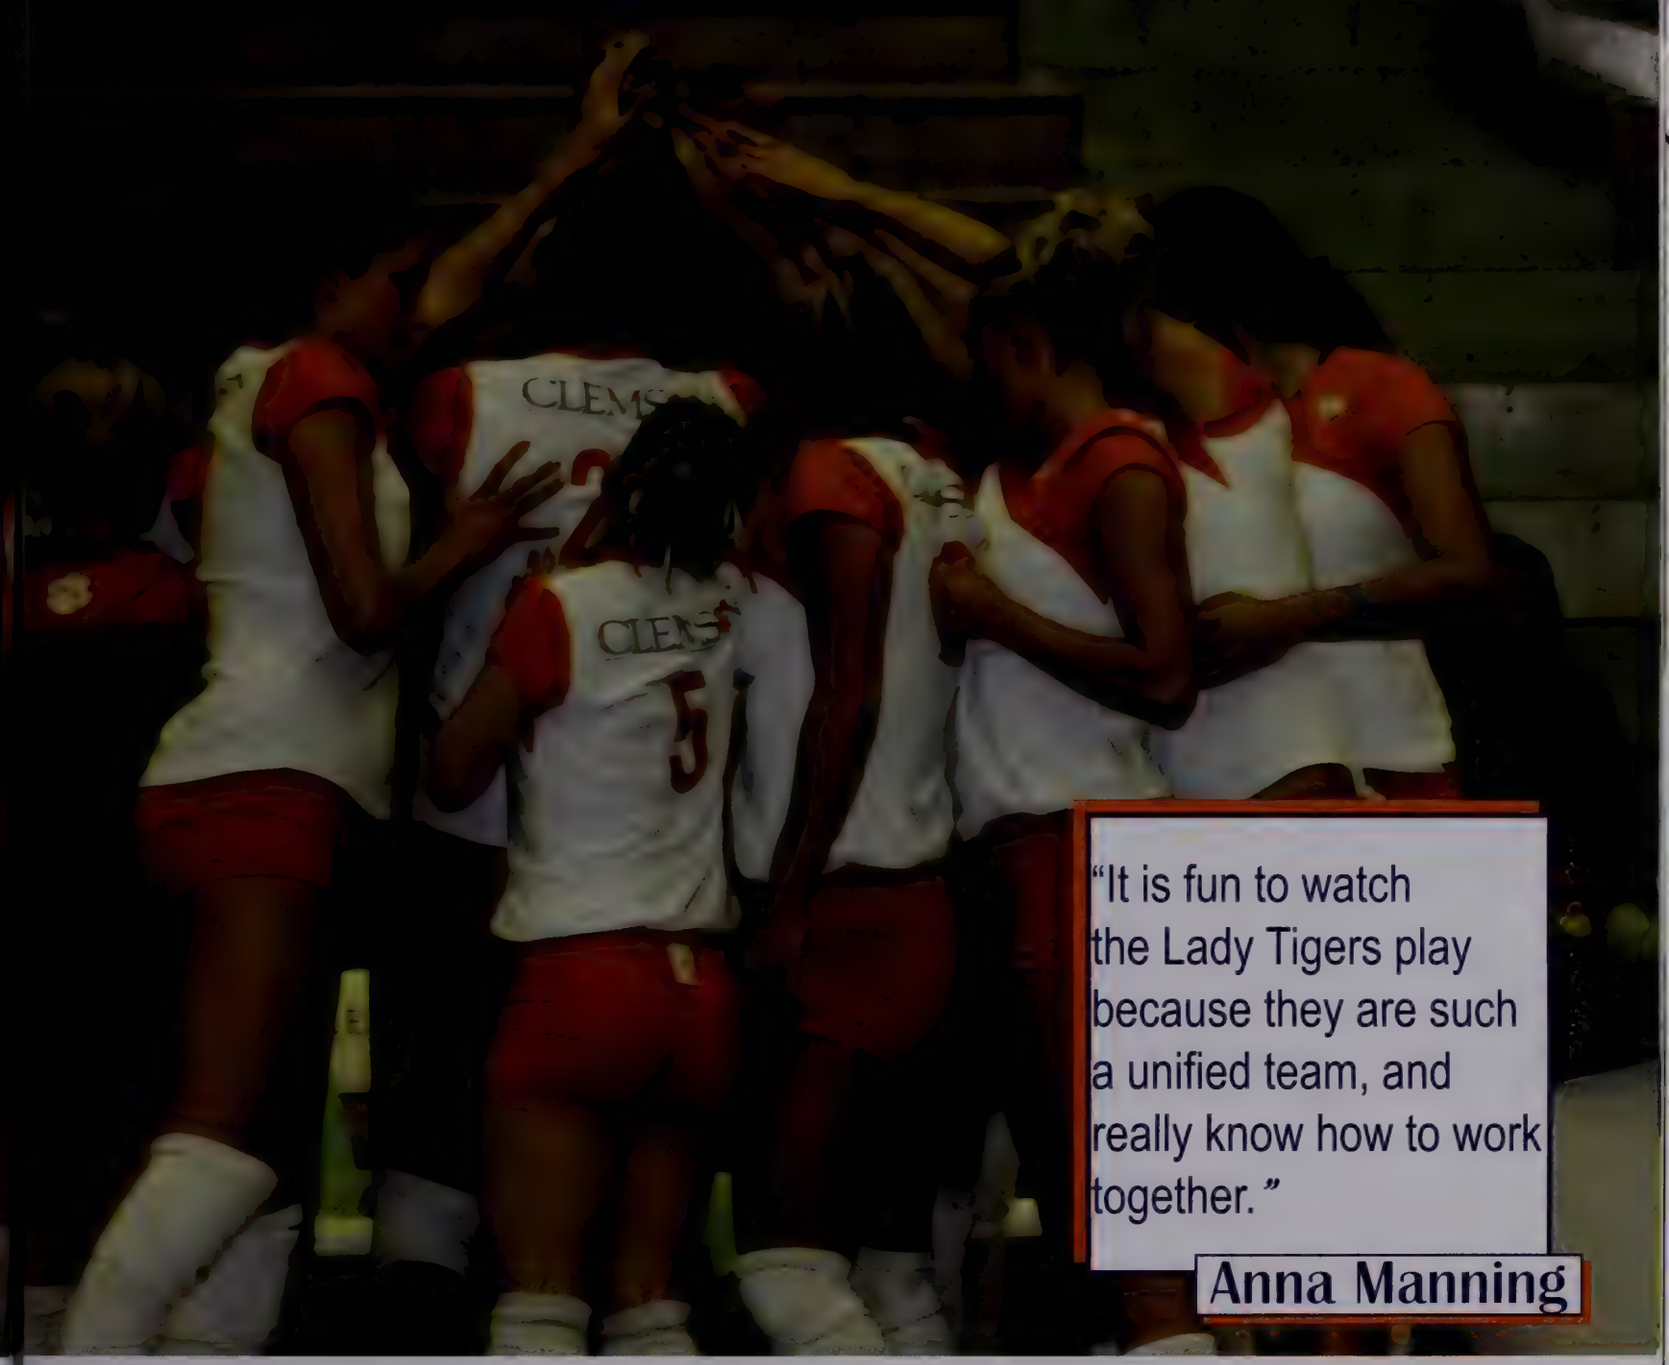
Rachel Lindsay

Leslie Finn, a senior general business major, goes up for the kill against Georgia Tech. She averages 5.61 kills per game and leads the team with 684 total kills. Photography by Rachel Lindsay

Lori Ashton | Middle Hitter | #15

Lori Ashton, a senior sociology major from Waldorf, MD, is a leader for the Lady Tigers. In the pre-season Ashton was named to the All-ACC team. She was also honored as the Clemson Invitational Most Valuable Player and as a member of the Big Orange Bash All-Tournament Team.

Coach Jolene Jordan Hoover said, "Lori Ashton is a phenomenal athlete, and I do not use that term lightly. She has an incredible jump and can touch ten feet five inches, that is a pretty impressive number. She is the most athletic player that I have had the opportunity to coach. She is one of the best players in the ACC, and we will definitely miss her." Photography by Rachel Lindsay



"It is fun to watch the Lady Tigers play because they are such a unified team, and really know how to work together."

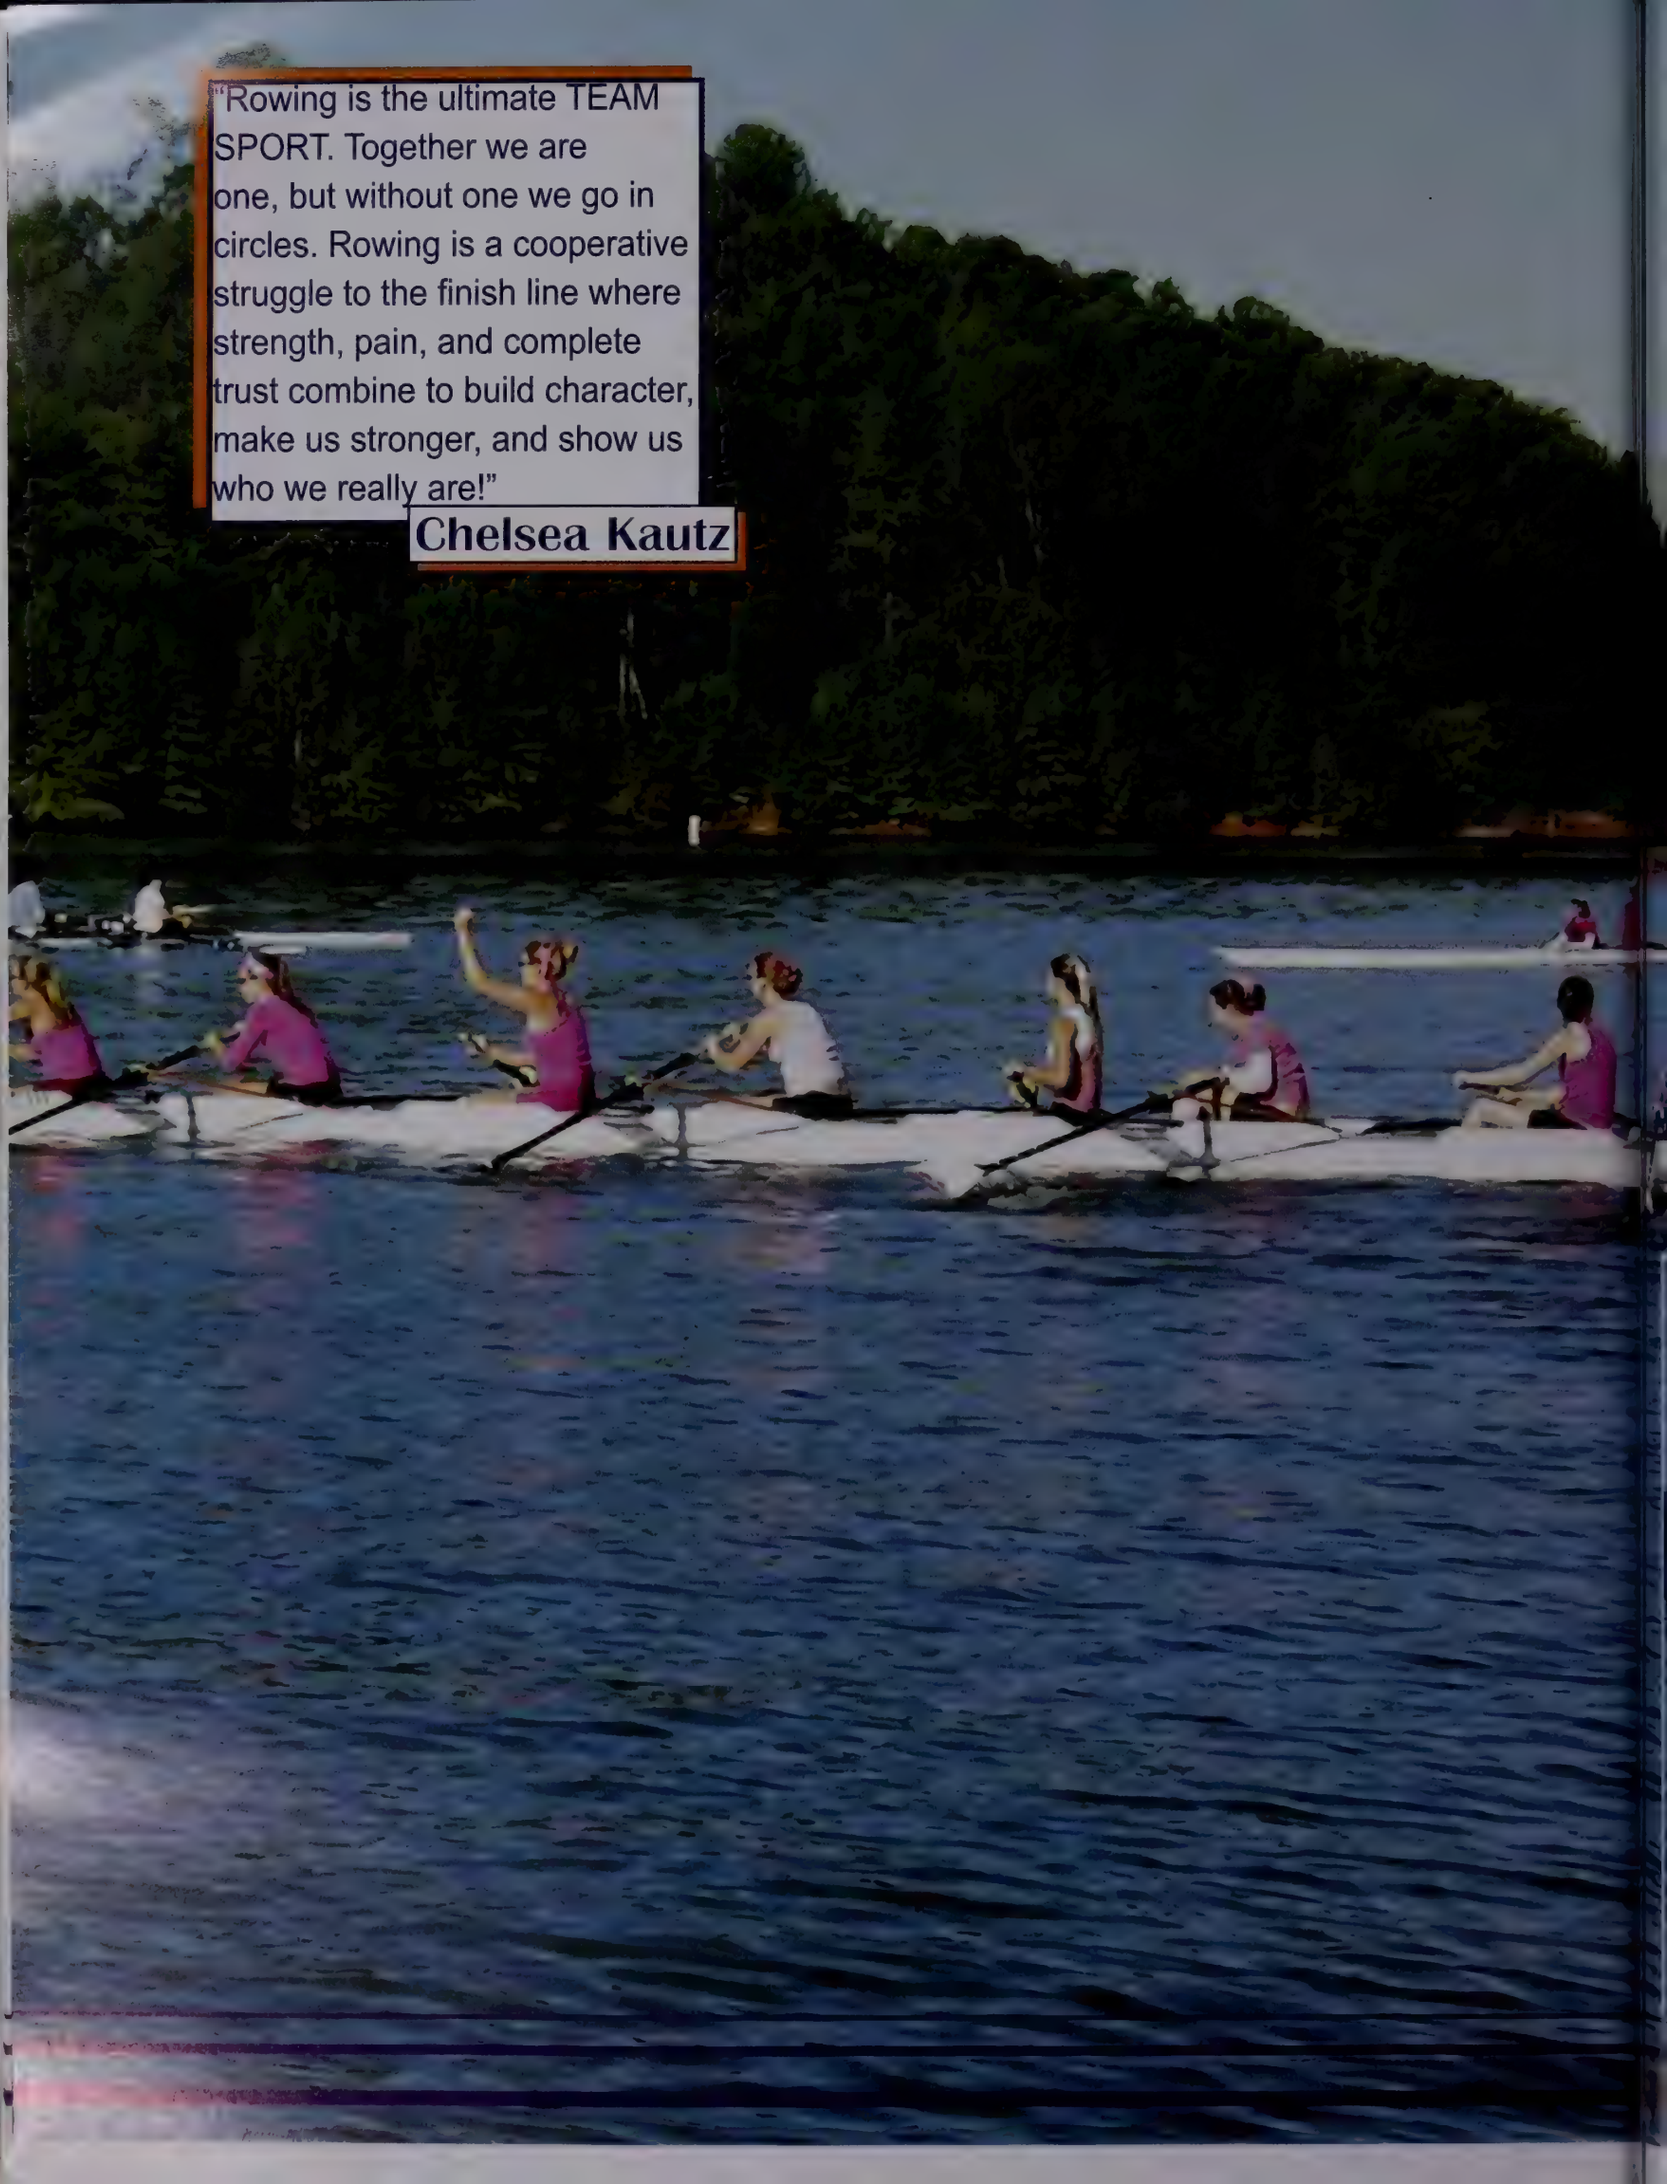
Anna Manning

Volleyball Highlights

The Clemson Tigers had a great season, ending with a 18-13 overall record and a 7-9 record in the ACC. The Tigers swept the Big Orange Bash and Clemson Invitational Tournaments.

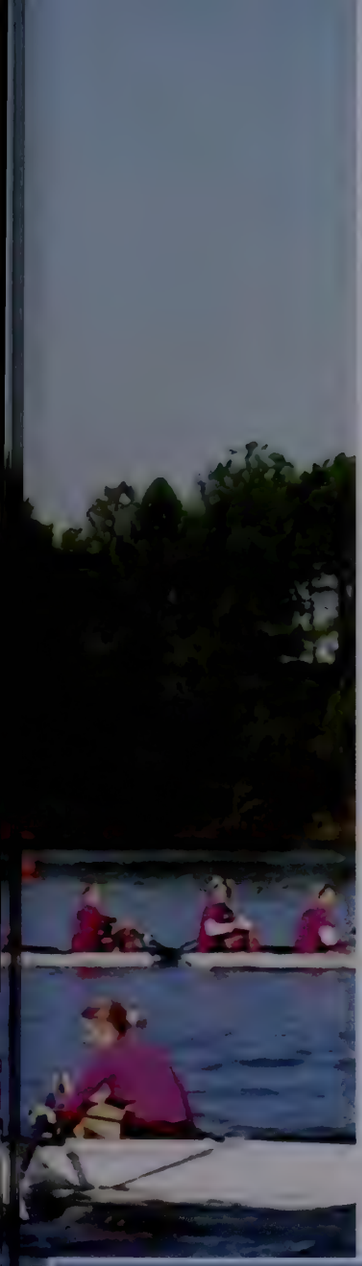
Coastal Carolina	3-0
Louisiana-Lafayette	3-0
North Carolina State	3-0
Furman	3-0
Duke	3-1
Wake Forrest	3-1
Virginia	3-1
Miami	3-0

Overall Record: 18-13



"Rowing is the ultimate TEAM SPORT. Together we are one, but without one we go in circles. Rowing is a cooperative struggle to the finish line where strength, pain, and complete trust combine to build character, make us stronger, and show us who we really are!"

Chelsea Kautz



Clemson's rowing team never fails to bring their A-game

Row Your Boat

Having fun while dominating in the water

Continuing a tradition of excellence, this year's rowing team had an awesome season. From earning top positions in competitive regattas such as Tail of the Tiger to showing their creative side through costumes at the Class Day Regatta, the rowing ladies never cease to impress. Not only is the rowing team extremely competitive, leaving trails of wins in their wake, they are also very community friendly, participating in events such as Lake Hartwell Cleanup. Leave it to Clemson's rowers to not only cleanup in competitions but in their free time as well.

A.J. George

Men's Swimming and Diving are taking it up another notch

In the Lanes

Success at the 2004 NCAA Swimming and Diving Finals

Head Coach Chris Ip's men's team tied for a 35th overall national ranking. This is the first time since the 1988-89 season that the men's team has scored at the National Championship. Mark Henly scored two points for the Tigers by finishing 15th place in the 200 meter event. Senior Buddy Reed was a strong member of the men's team this past season as well. He won his individual event, the 200 meter feestyle, in three meets, scoring important points to make the team successful. The men's swimming and diving team also set three new school records this year. Finishing the year 13-2-1, 4-1-1 in the ACC, and second in the Nike Cup 2004, the team members show that they have been working hard this past year.

Women's Swimming and Diving

Making a Splash

Setting new records to be the best in the ACC

Finishing 39th in the nation, the Clemson Women's Swimming and Diving team made their coach proud. Kim Routh led the Tigers, taking 15th place in the 1500 meter freestyle. She also set a new school record in the 1650 freestyle at the Nike Cup this past year. The Lady Tigers showed that practicing hard pays off in the end. Jessica Watcke set a new Clemson record in diving with a score of 258.15 against USC in the one meter. In a meet hosted by the Tigers, Christine Anseeuw and Nicole Kroeger both earned top positions in the 200 meter freestyle, sweeping the event and securing valuable points. These points helped the Tigers beat both Duke and College of Charleston. The Lady Tigers finished with an overall record of 10-5. This is the most wins by a Tiger swimming and diving team since 1988.

Josh Shea

Kim Routh paces herself for her event. Routh is a distance swimmer that led the team to many of their victories.

Getting back to their winning ways

Tigers Return

A strong finish gives the Tigers a solid season and a 25th ITA ranking

Head Coach Chuck Kriese is one of the top six active winningest coaches in Division 1. The Tigers dominated the ACC in the 1980's, and during the 2003-2004 season it was evident that they were getting back to their winning ways. The Tigers finished with a 26-12 record (4-4 ACC), the most victories in a season since 1986. After losing to Virginia in the ACC Tournament Championship, they made the NCAA Tournament. There they eliminated Minnesota, upset #6 Duke, and defeated #16 TCU in the Sweet 16 before being eliminated by UCLA. Nonetheless, the Tigers had a great season full of accomplishment.

Wade Beard

Ryan Young (above) is just a sophomore but he has shown plenty of poise and confidence finishing with a 24-9 record in his second season. "He knows how to win. He is a clutch guy," according to Coach Kriese. Photography Courtesy Kerry Capps

Jarmaine Jenkins | 2004 Doubles All American

Jarmaine Jenkins was expected to be a key to the Tiger's success after finishing his freshman year with a 27-8 record (7-1 ACC). He rose to the occasion in 2004, leading the doubles team (along with Nathan Thompson) to a NCAA Final Four appearance. The two were 24-20 as a team and beat California, Ohio State, and top-seeded Rice at the NCAA Tournament on their way to the first Final Four appearance for Clemson since 1987. Both were named to the 2004 All ACC team as well as 2004 All Americans. Things look bright for the sophomore from College Park, Georgia, according to Coach Chuck Kriese, "He has great speed and he is growing into his athleticism. He is a very gifted athlete whose tennis game is really catching on." Photography Courtesy Kerry Capps

"The way that the guys go about their training, the way they work, their heart and their character, makes me very proud of them."

Coach Kriese

Men's Tennis Highlights

The 2003-2004 season was one of the best the Tigers have had in recent years. Their final 25th ranking was the highest since 1997 and the highest win total (26) since 1986.

Princeton	5-2
Maryland	7-0
South Carolina	6-1
Georgia Tech (ACC Quarterfinals)	4-3
North Carolina (ACC Semifinals)	4-2
Minesota (NCAA Regional)	4-0
Duke (NCAA Regional Finals)	4-3
TCU (NCAA Tournament - Sweet 16)	6-1

Overall Record: 26-12

The Lady Tigers pose after winning the ACC Tournament in Raleigh, NC, after defeating #5 Duke.

The Lady Tigers dominated the ACC in the 2003-2004 season, winning the regular season with an undefeated record (8-0) and the conference tournament. The Lady Tigers never hesitated at the ACC Tournament in Raleigh, NC, disposing of Maryland, #14 North Carolina, and #5 Duke by a combined score of 12-3. It was the seventh ACC Tournament title for the program, but the first since 1987. The 2004 Lady

Julie Coin | 2004 ACC Player of the Year

Julie has been a major force for the Lady Tigers tennis team on singles and doubles. The senior from Amiens, France, went on a tear in 2004. She finished the season ranked eighth by the Intercollegiate Tennis Association, with a 32-9 overall record. Julie earned All-American Honors in singles play, was a finalist for the Collegiate Women's Sports Award for Tennis, and was named the 2004 ACC Player of the Year. She was also named ACC performer of the week three times and is an honor roll student.

Photography Courtesy Kerry Capps

Lady Tigers have most successful year ever

igers were only one of four teams in school history to finish with more than twenty-five wins and the first to do so since 1986. This season as the most successful in the program's history. The ladies made it into the NCAA Final Four before being eliminated by UCLA, but finished ith a school record #5 ITA ranking. "They are true champions," says Coach Nancy Harris. *Wade Beard*

Women's Tennis Highlights

The Lady Tigers were undefeated at home this season (10-0) and had an impressive 21-4 record against ranked opponents.

South Carolina	4-3
Arizona State	4-3
Maryland (ACC Tournament)	4-3
North Carolina (ACC Tournament)	4-3
Duke (ACC Championship)	4-2
University of South Carolina (NCAA Regional)	4-1
Texas A&M (NCAA Tournament - Sweet 16)	4-1
Washington (NCAA Tournament - Elite 8)	4-3

Overall Record: 26-4

This year's hard-working team shows promise

Playing Full Court

The team trained hard to step up their game plan this year

With 29 years of coaching experience, Coach Purnell is no stranger to the game of basketball. This year the Tigers worked hard to make their season a winning one, with Sharrod Ford, Cliff Hammonds, and Shawn Robinson leading the team in points scored. The team showed that it has great talent and is continuing to grow. Freshman Cheyenne Moore has proven to be a great asset and has made his presence on the court felt. The Tigers show great promise for the future.

Josh Shea

Jimmy Hudson is one of the new and outstanding guards. He has demonstrated great skill and has the potential to be a starter in the future.
Photography by Wade Beard

Vernon Hamilton | Guard | #3

A valuable player as a freshman in the 2003-2004 season, Vernon Hamilton was one of only three returning starters for the men's basketball team for the 2004-2005 season. During his first year, Hamilton led the Tigers in both assists and steals. He returned just as strong for his second season at Clemson. Some highlights for Hamilton from the 2004-2005 season include scoring 12 points in the Florida State game at home on February 27, 2005, scoring 11 points in the Virginia Tech game at home on March 1, 2005, and ranking third overall on the team in assists with 70 during regular season play. As a native of Richmond, Virginia, Hamilton is the first Virginian to receive a basketball scholarship to Clemson since 1973. Photography by Wade Beard

The Tigers double up on N.C. State's Julius Hodge. Between Cliff Hammonds, Sharrod Ford, Akin Akingbala, and Shawan Robinson, the Tigers defense is tough to beat.

Men's Basketball Highlights

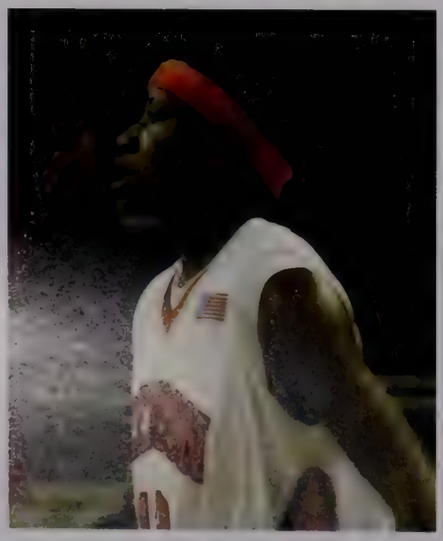
Senior Sharrod Ford led the Tigers in points and rebounds averaging 15.6 points and 8.3 rebounds per game. In ACC conference play, those averages are even higher with 16.3 points and 8.8 rebounds per game.

Florida State	56 - 54
Ohio State	80 - 72
East Carolina	74 - 40
Indiana State	83 - 57
The Citadel	76 - 52
South Carolina	63 - 62
Maryland	88 - 74
Virginia Tech	66 - 64

Overall Record: 15-14

Lady Tigers warm-up together before games. Photograhy by Wade Beard

With the departure of First Team All ACC player Lakeia Stokes, the Lady Tigers had to look for other leadership and poise from the young team. The Lady Tigers added six new faces to this year's team that included only one senior and two returning starters. There may have been some early growing pains, but it paid off in the end for Coach Jim Davis and his team. The competition was fierce for the Lady Tigers



Reggie Maddox| Guard | #13

Reggie Maddox has had some big shoes to fill this year, and she took on the responsibility like a true champion. The first year junior college transfer from Dyersburg, TN made a major impact on the Lady Tigers. Midseason, she led the team with a 9.9 points per game average and was second on the team in rebounds with a 5.4 average. She scored in double digits in 15 games this year. "Reggie is a really fine combination guard. She can play both positions. She is an exceptional athlete with great basketball savvy," Coach Jim Davis said.

The Lady Tigers face off on the court

Time to Rebound

The Lady Tigers basketball team was trying to build on the 17-12 record and WNIT appearance of the 2003-04 season. But a new and improved ACC along with a tough out of conference schedule made that more difficult than originally expected. Left: Tasha Phillips and Carrie Whitehurst prepare to rebound against Miami. Below: The Lady Tigers watch the game intently from the sideline.

his year, both in and out of conference. Seven ACC opponents have been ranked in the Top 25 throughout the season, with UNC and Duke eing in the Top 5, but the Tigers secured several key victories over South Carolina, NC State, and Georgetown. With exciting wins from a oung team, this year has been a true year of transition for the Lady Tigers. *Wade Beard*

Women's Basketball Highlights

The Lady Tigers have been working hard on rebounds! Midseason, in February, the Tigers were leading all of their opponents combined in total offensive and defensive rebounds.

South Carolina	87 - 79
Wagner	80 - 50
Georgetown	71 - 62
Pittsburgh	51 - 38
Morehead State	72 - 48
NC State	78 - 65
Western Carolina	62 - 55
Georgia Tech	58 - 49

Overall Record: 8-20

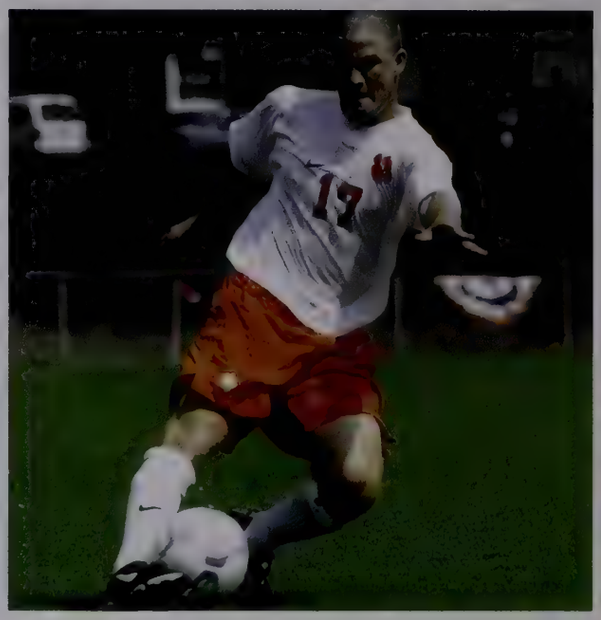
The men's soccer team practices hard, striving to put the **Best**

Foot Forward

Soccer fans should watch out for the hidden talent on the men's team

With such a young team - sixteen of the twenty-four team members were freshmen and sophomores - the men's soccer team had a 2004 season of team-building and development. Although the team's true talent was not fully reflected in the Tigers' record, it did not go unnoticed. Stuart Holden, Justin Moore, and Steve Rhyne were named to the All-ACC second team, while Nathan Sturgis was named to the All-ACC freshman team. Justin Moore was also named to the All-South third team. Aside from these individual accomplishments, the entire team was honored by the National Soccer Coaches Association of America for their academic achievements.

Melissa Putney



With a little fancy footwork, Steve Rhyne turns the ball back towards the team's goal. This senior forward was the high scorer for the Tigers in the 2004 season.
Photography Courtesy Sports Info

Steve Rhyne | Forward | #17

After sitting out the 2003 season with a knee injury, senior Steve Rhyne returned this year as a starter, recovered and better-than-ever. Before his injury, Rhyne completed three full seasons with the Tigers, scoring seven goals in each of those first three seasons. However, he managed to top his previous performances this past year. A starter in all eighteen games in 2004, Rhyne scored eleven goals. While that is an impressive personal accomplishment, you cannot say Rhyne wasn't a team player, too. This past season he made five assists for a career total of twenty-three assists. All this talent will not go to waste when Rhyne graduates from Clemson. In early February 2004, Rhyne was selected first in the Major League Soccer Supplemental Draft by Real Salt Lake. Photography Courtesy Sports Info

"Our coach has always told us to play for what is on the front of the jersey (the Clemson name) and not what is on the back (typically, your own name)."

Stuart Holden

Men's Soccer Highlights

Playing on their home turf, the Tigers' record this season was 6-3-0. The spirit and support of the men's soccer fans in the solid orange stands helped the Tigers compete at their best level of play.

Lipscomb	5-0
Brown	1-0
Yale	3-2
NC State	4-3
Gardner Webb	4-0
Virginia Tech	1-0
Appalachian State	4-0
Stetson	3-2

Overall Record: 8-9-1

The T[illegible] to face their rivals [illegible] joins the huddle to [illegible] the ladies.
[illegible]by Rachel Lindsay

The Clemson Women's Soccer team had a strong season this year. It began with an amazing weekend when they defeated two top-ranked teams, Texas and Texas A&M. These two games were upsets in the ACC. Head Coach Todd Bramble said, "The 2004 Lady Soccer Team is quite possibly the best that has ever been assembled here at Clemson. We have a wonderful combination of skill, athleticism, experience

Paige Ledford | Forward | #11

Paige Ledford is a senior mechanical engineering major from Ooltewah, Tennesse, and is one of the leaders for the Clemson Women's Soccer team. She returned this season after having started every game last season.

During the first game of the season, on August 27, Ledford scored the winning goal against the fourth-ranked team in the ACC, Texas. As a result of this game, she was honored as the ACC's Women's Soccer Player of the Week. Another one of Ledford's accomplishments is tieing the school record for the most assists in a single match, with four in the game against UNC-Asheville. This season, she scored 11 goals.

This team knows it is all about the Leg Work

Constant practice helped this team to win the ACC

In 2004 the Tigers had a great season, resulting in nine members competing in the NCAA Outdoor Championships. Airese Currie, Larry Griffin, Rich Hill, Tye Hill, and George Kitchens were just a few of the Tigers that made an appearance. At the Georgia Tech Invitational, Michael Bolling posted a season best time in the 400 meter dash. This helped him qualify for the regionals. Derek Gilson also put on an impressive performance, winning the shotput and placing 4th in the discus throw. The men's 4X100 meter relay had a continual high performance season, winning the relay in 5 meets, placing 3rd in the ACC Championships and earning a spot in the NCAA Championships. Photography Courtesy Sports Information

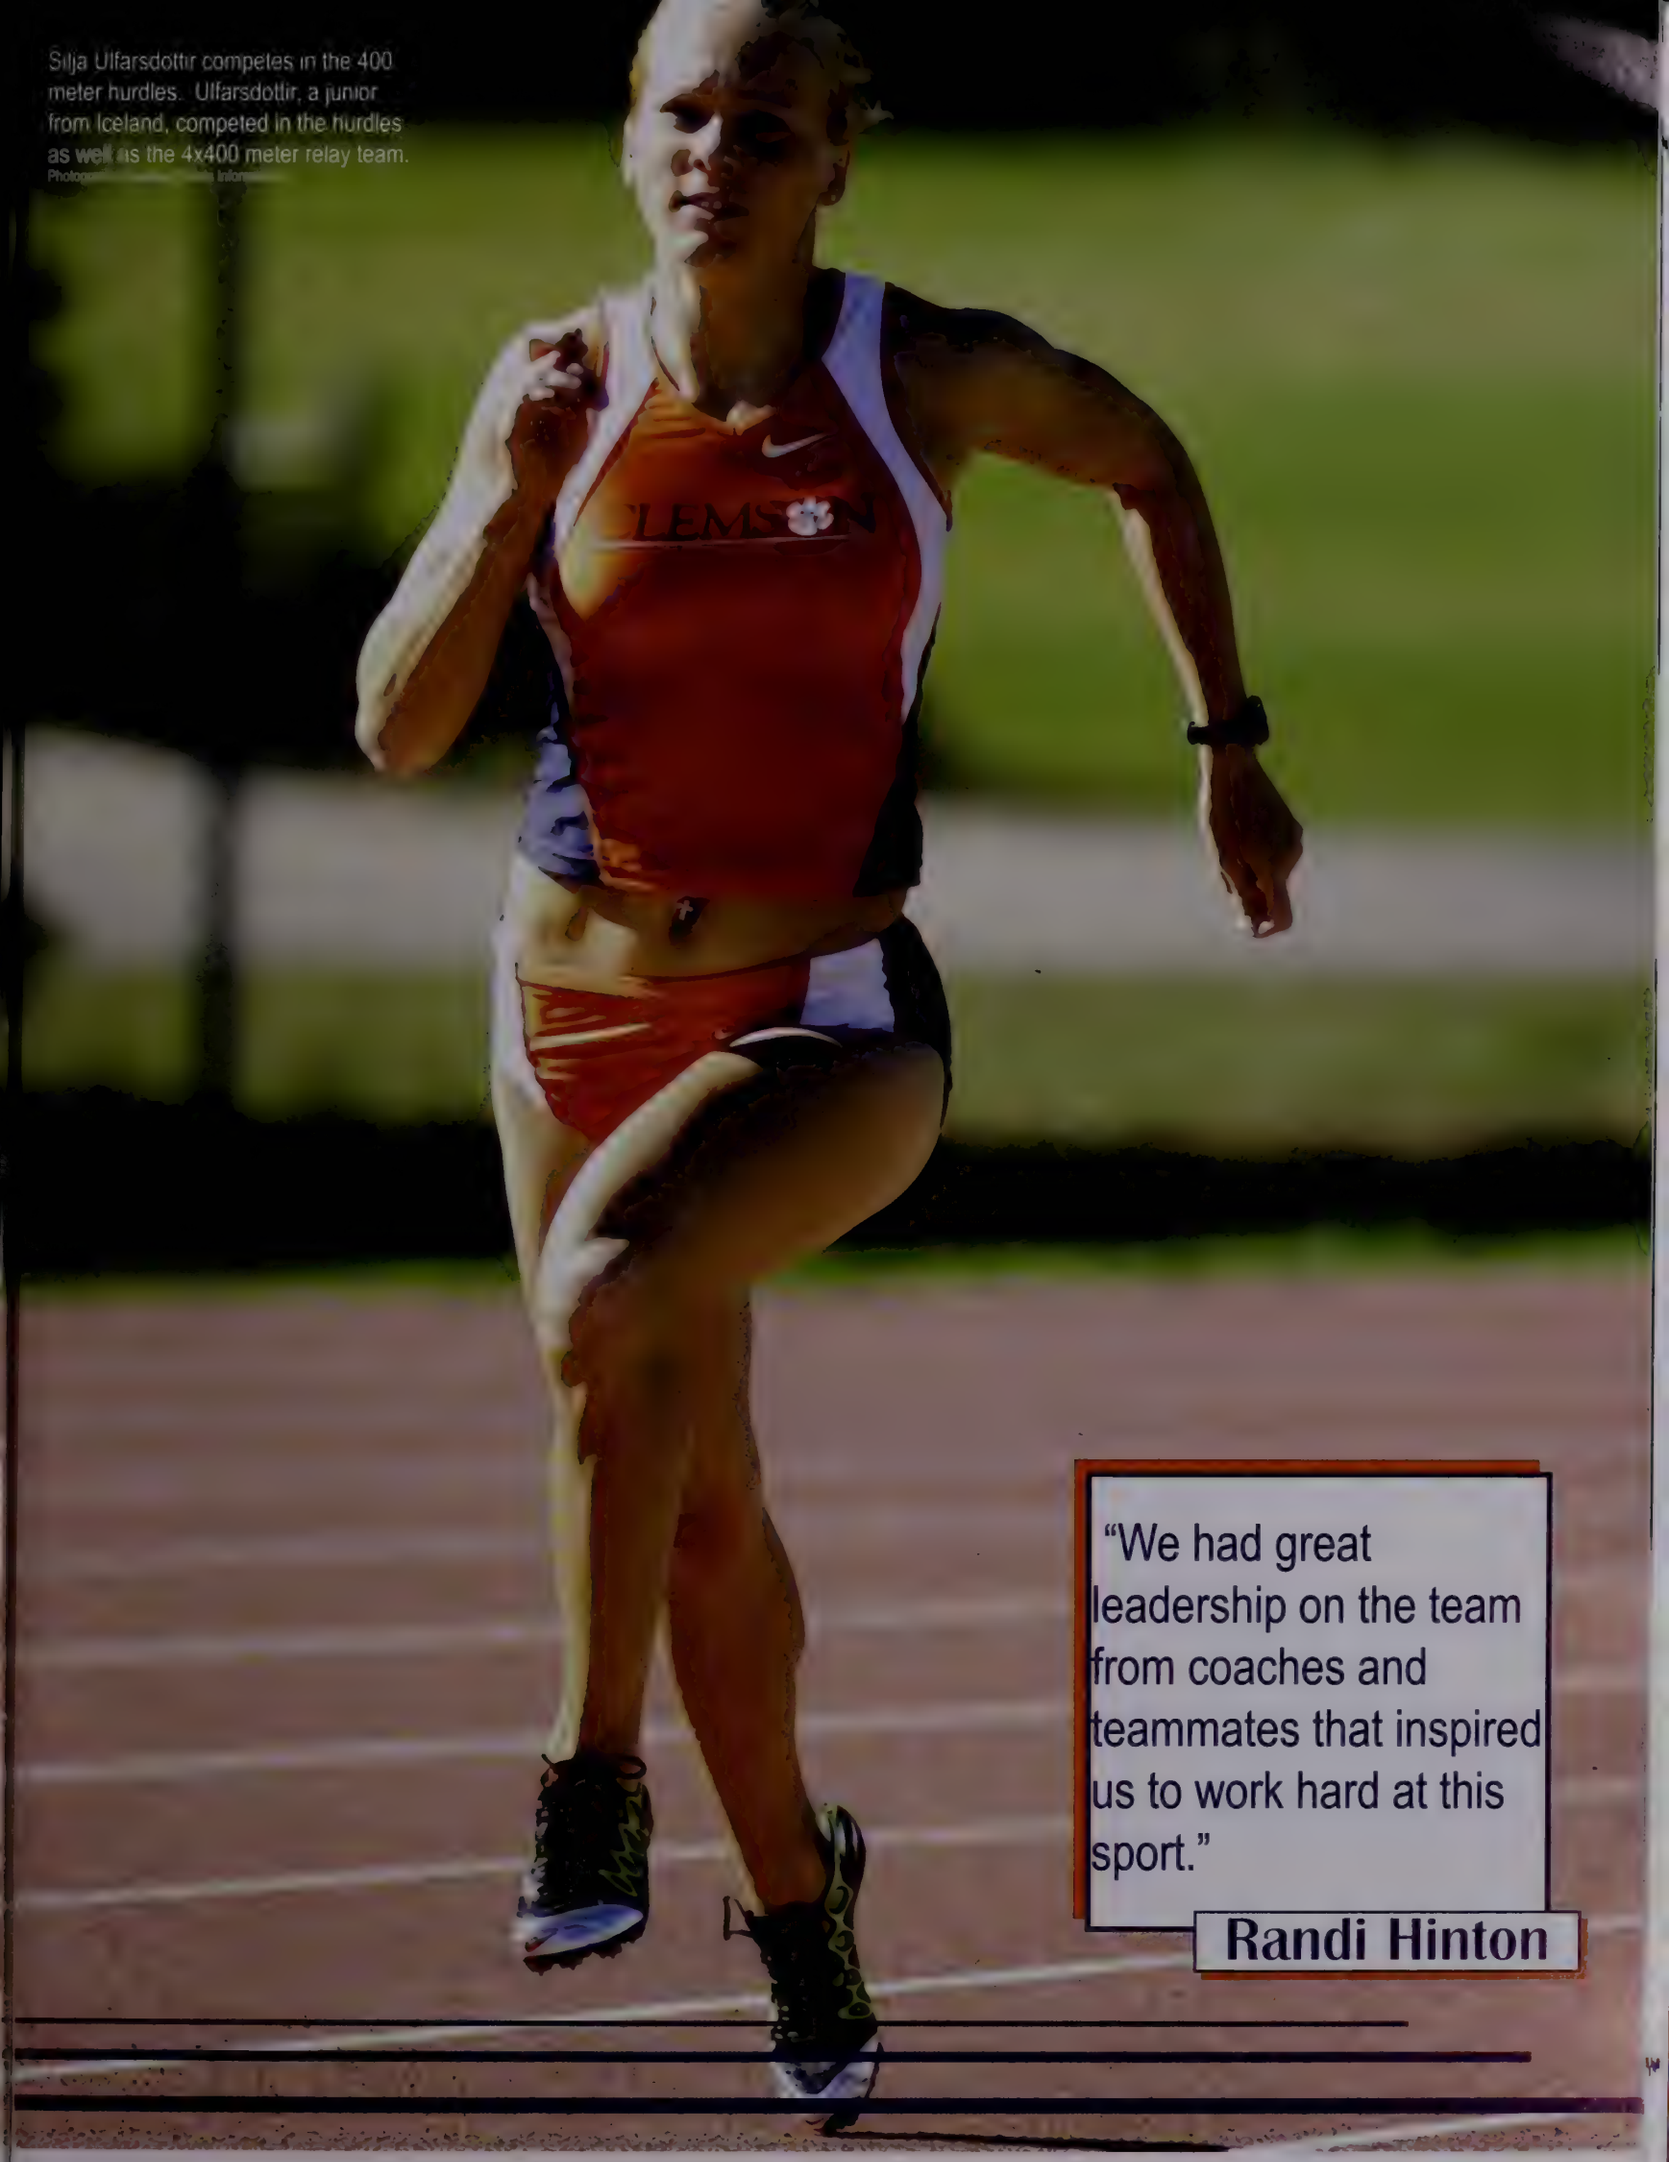
Look at the women's team and see their Fancy Footwork

Five members compete in the NCAA finals

The 2004 season ended in a victory for the Tigers. Five of the Lady Tigers placed in events at the ACC Championships to qualify for the NCAA Championships. This is the largest number of competitors that Clemson has sent to the women's competition in four years. Hard work and dedication are what got these five ladies to the ultimate meet of the season. The team was led by Gisele Oliveira and Silja Ulfarsdottir. Oliveira was named the ACC all time leader in the triple jump. Other Tigers that performed at the Championships were Jessica Cousins, Randi Hinton, and Christiana Smith.

Kathleen Wood

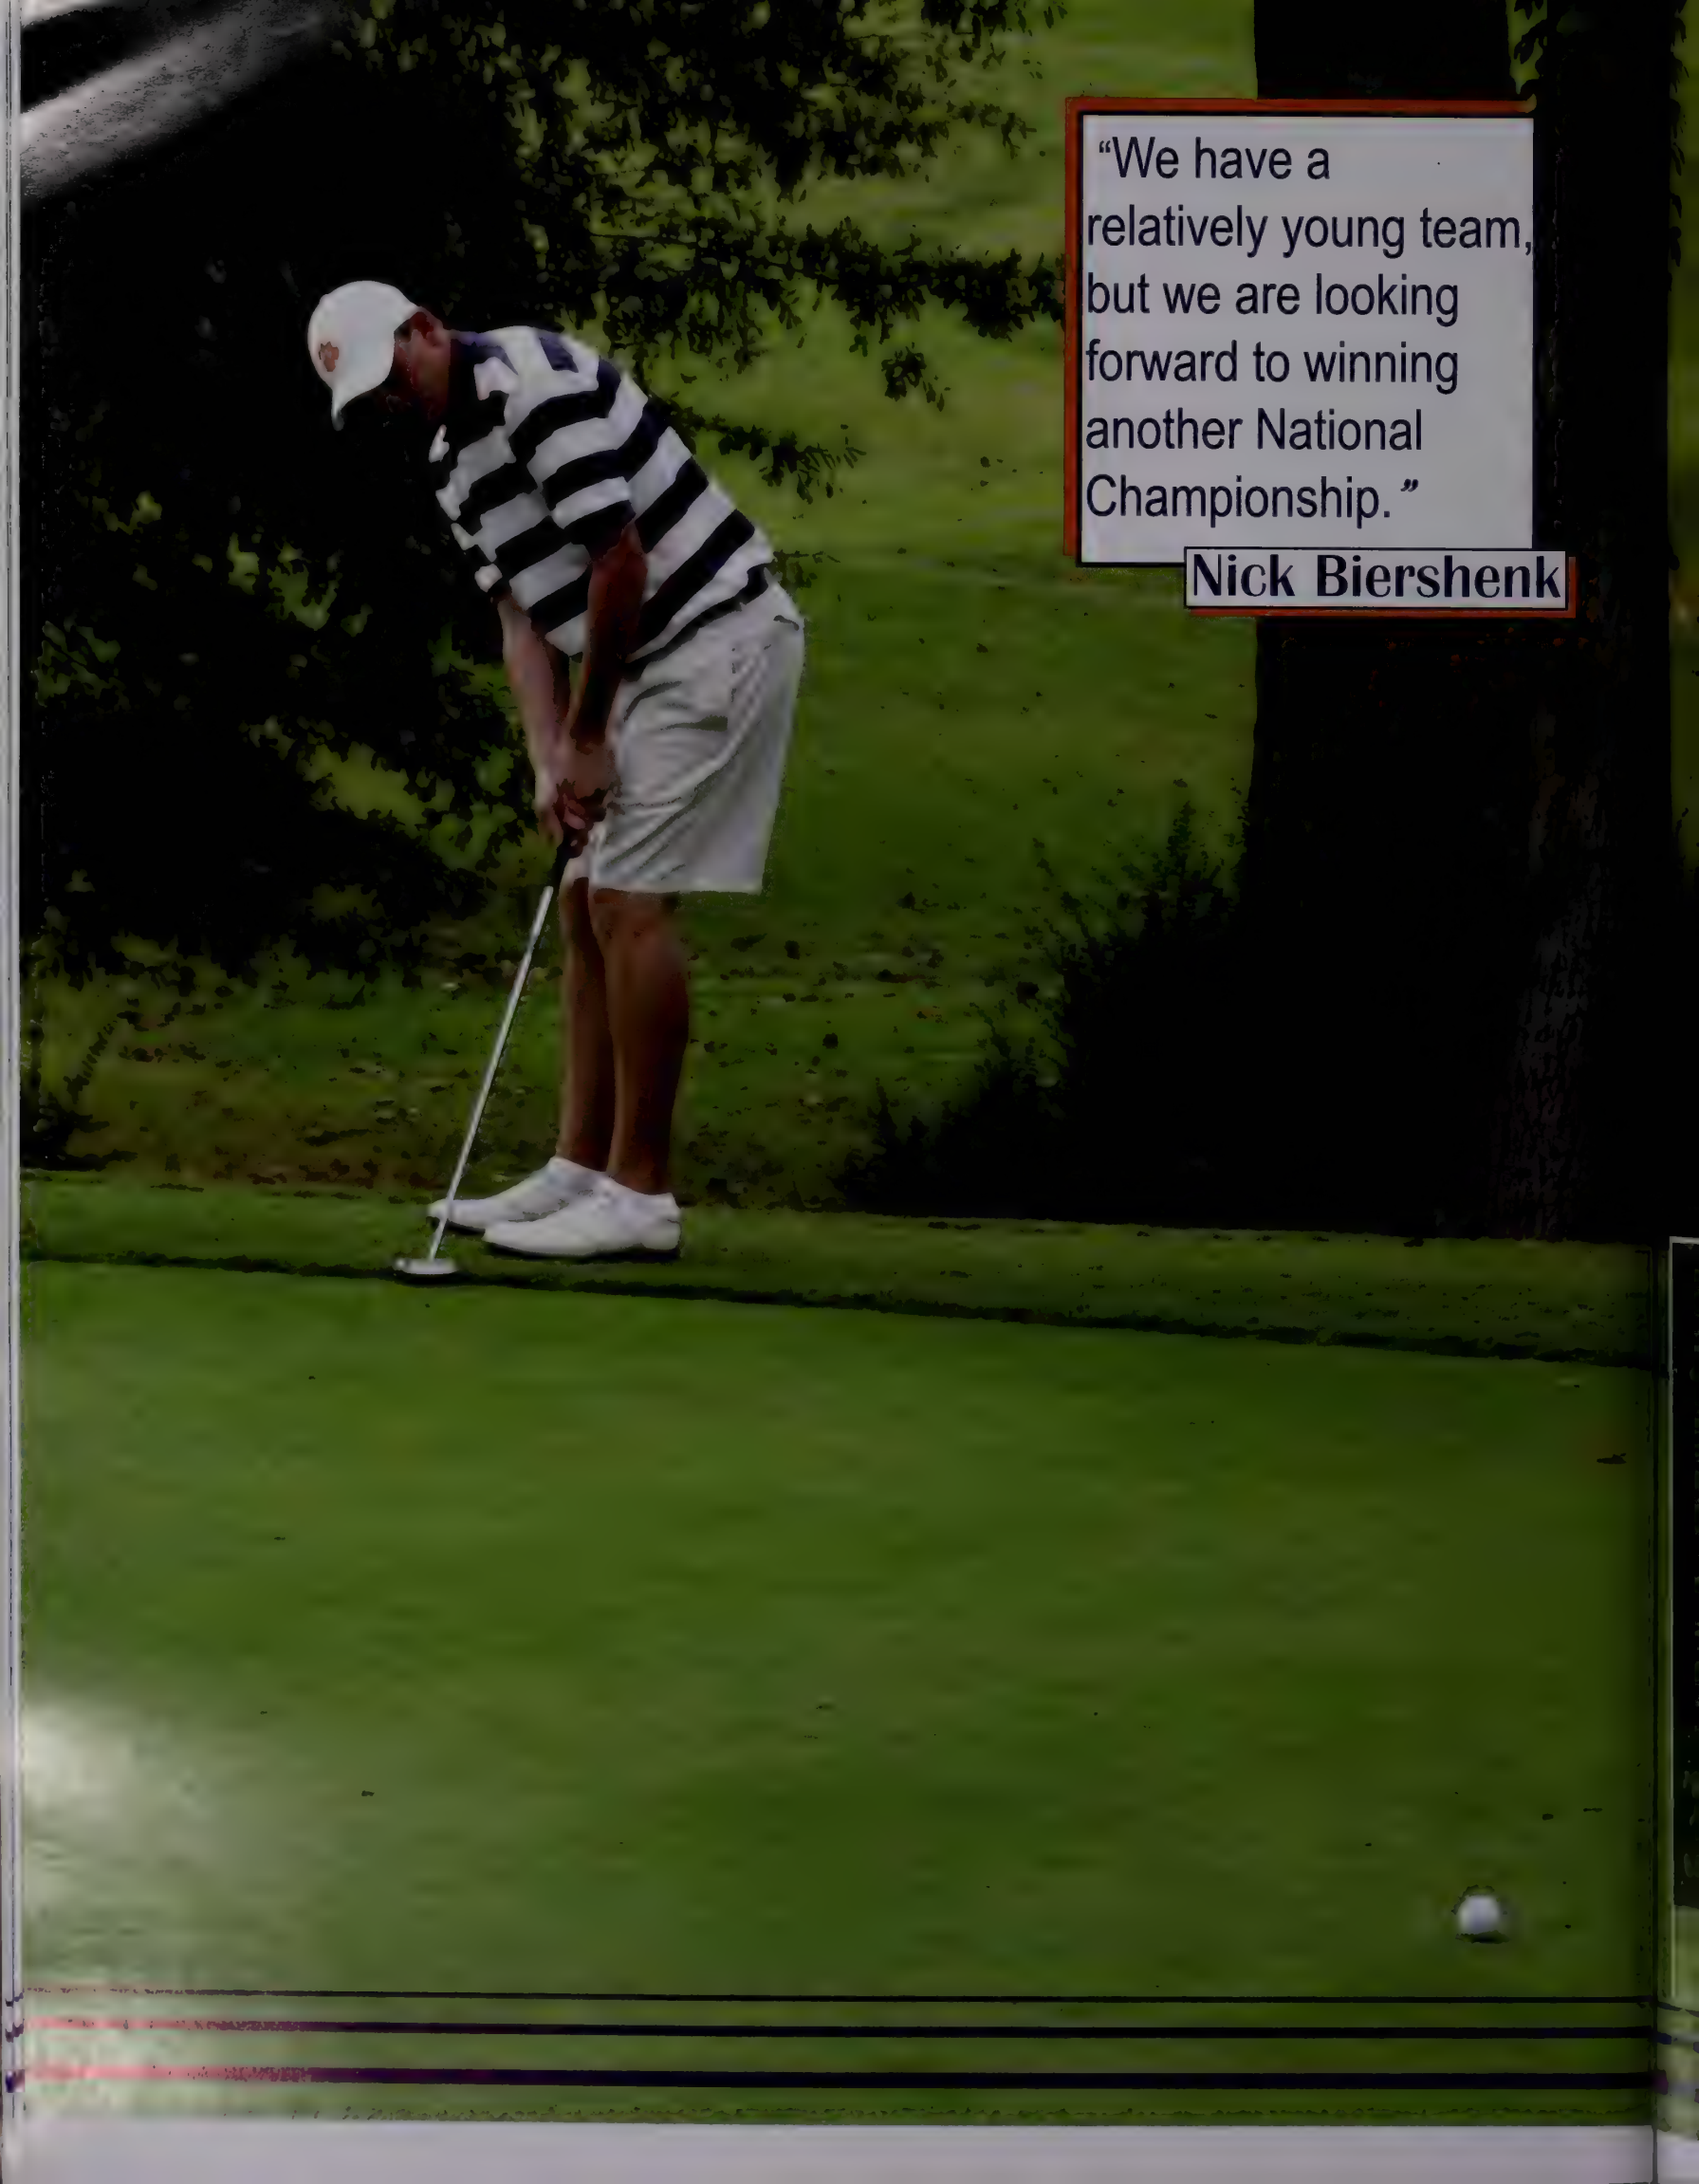
Katie Pickett, a senior from Tennessee, is one of Clemson's standouts in the high jump. Photography Courtesy Sports Information



Silja Ulfarsdottir competes in the 400 meter hurdles. Ulfarsdottir, a junior from Iceland, competed in the hurdles as well as the 4x400 meter relay team.

"We had great leadership on the team from coaches and teammates that inspired us to work hard at this sport."

Randi Hinton



"We have a relatively young team, but we are looking forward to winning another National Championship."

Nick Biershenk

The golf team really knows how to make a Hole in "Won"

The Tigers look to bounce back in '05

Only two seasons ago the Tigers were at the top of the national golf rankings. They have appeared in 23 straight NCAA National Tournament events, the longest streak of any Clemson team in history. Leading the way for the Tigers are juniors Brent Delahoussaye and Jack Ferguson. With ten top-twenty finishes, Jack Ferguson is Clemson's most consistent golfer. Brent Delahoussaye fired a final round 66 at the Jerry Pate Intercollegiate in Birmingham, Alabama, with Brian Duncan following close behind with 67. The Tigers defeated fourth ranked Kentucky in the Hooters Match Play Championship. A unique fact, Clemson's entire roster for the 2004-2005 academic year is made up of golfers from the state of South Carolina. Photography by Cameron Wenzel

Cameron Wenzel

The New Minor League?

Field of Dreams

Nine Tigers stepped up to a bigger plate

The Tigers had an impressive season ending with a record of 36-26. The team had thirty-seven members and was led by senior Russell Tripplett, junior Tyler Lumsden, and sophomore Kris Harvey. The Tigers had some difficulty during three games against Virginia, but came back to defeat the next three teams, including South Carolina and North Carolina. Unfortunately, the team was eventually defeated in the NCAA regional tournament after a disappointing loss to Georgia, 7-6. However, later in the year the baseball team set a school record when nine of the players were chosen for the Major League Baseball Draft.

One thing is for sure, these Tigers sure know how to Cut & Flow

These men know how to take a hit and keep on fighting

Men's Lacrosse

Lacrosse is a cross between soccer and hockey. Above, goalie Rob Hayden waits while the ball is being played. The goalie must always be ready during this fast-paced game. Photography by Kathleen Wood

"We have a lot of returning players, talented freshmen, and new coaches. We have a lot of potential for the upcoming seasons."

Ryan Lambert

Michael Butkus, right, cradles the ball and prepares to get rid of it before he is hit. Unlike the women, the men are allowed to hit and check their opponents. Photography by Kathleen Wood

Men's Lacrosse is a club sport that is slowly growing in the South. Clemson adopted a club team back in the late 90's. Since then Clemson has watched men from all over the country compete. The lacrosse team competes against many schools during both the fall and spring seasons. They are a part of the Southern Conference and even host their own tournament at Clemson in the fall. This year they competed in the finals against Auburn. *Kathleen Wood*

Jennifer Gilbert waits for the game to resume. When a ball is out of bounds, the team that is closest to it gets possession.
Photography Courtesy Steven Furr

The women's lacrosse team finished the season in 8th place in the Southern Women's Lacrosse League. This fast-paced, high-scoring game has been rapidly growing on Clemson's campus over the years. The women also host a fall tournament, the "Southern Comfort Tournament," in which they invite schools from the North. The team is run by an executive board of 5 girls and is co-run by presidents Kathleen Gilbert and Elizabeth Ernst.

Kathleen Wood

"We have a lot of talent with great dedication. I'm impressed with the growth of the sport in the South. It definitely adds to the depth of the team."

Kathleen Gilbert

Lacrosse starts the game in a face-off, also known as a draw. At left, Elizabeth Born lines up to start the game. Photography Courtesy Steven Furr

Below, the team prepares to defend the goal against Emory. Photography Courtesy Steven Furr

The girls can do anything the boys can do, and they do it ... In Skirts

In 2002, wrestling made its way back to campus as a club sport. Made up of fifteen members, the wrestling club participates in over twenty tournaments from October to March. Completely self-coached, the team consists of people with little or no wrestling experience to those that have been playing since high school and were state champions.

Josh Shea

"We have a commitment to working hard and representing the school to the best of our ability. We welcome anyone who has a love for the sport."

Nick Marra

Left: Nick Marra prepares for his match. Last year, Clemson had five wrestlers qualify for the national championships in Dallas, Texas.
Photography by David Skinner

The club wrestling team works hard to keep their opponents Pinned Down

Not just a "Northern thing" Field Hockey

Practice makes perfect. Team members challenge one another, improving individuals' skills, while becoming a more cohesive team.
Photography by David Tucker

Even though field hockey is not as popular in the South as it is in other parts of the country, the Tigers have a team! The field hockey team competes in several tournaments each year, playing schools such as Davidson, Emory, and the College of Charleston. Normally a fall sport, field hockey is played year-round at Clemson. Aside from regular season play, the team enjoys going up against the Tiger club ice hockey team, too. Team members also participate in Campus Sweep and other community service projects, and raise money through car washes and cleaning up after events in Littlejohn.

Jessica Allen

"I have gotten to meet some of my closest friends at Clemson through field hockey, and adore all of the girls on the team. We are a very tight-knit group."

Amy Scheck

The field hockey team consists mostly of a group of dedicated women, but several men are on the team too.
Photography by David Tucker

The Tigers work hard, gearing up for tournaments on the road at schools such as Maryland and Virginia Tech.
Photography by David Tucker

Intramural softball is a homerun with students

Tigers

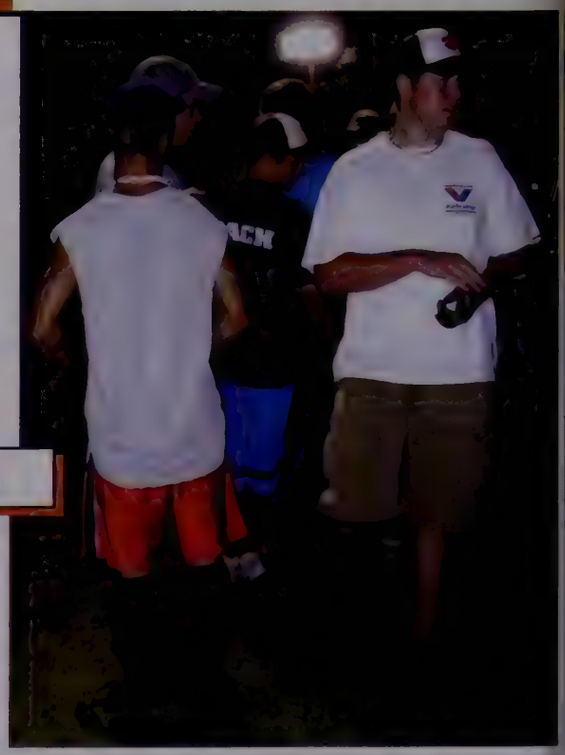
Play Ball

Athletics are a big part of many students' lives here at Clemson. Intramural sports, such as softball, give students the chance to get out and play sports without the strictness of mandatory practices and workouts. The students are also able to organize their own teams to compete for the coveted title of Intramural Champions.

Kimberly Taylor
Photography by Kimberly Taylor

"Playing intramural softball has been a great experience because it's fun, and it helps you meet new people."

Chad Mims



"Intramural volleyball was a great way for me to meet new friends who were interested in the same things I am. We had a blast and made great memories."

Erin Booth

ight: RUF girls, also known as R U 'Fraid, hallenge the Charleston Girls.
otography by Rachel Lindsay
elow: The two teams from Kappa Kappa Gamma attle each other. Photography by Rachel Lindsay

The volleyball courts in Fike were the place to be Wednesday and Thursday nights during the fall intramural season. The exciting sight to see was the indoor women's volleyball. Among the two leagues there were 11 teams. The girls of Kappa Delta won the championship tournament. They defeated the WTE girls for this title. *Rachel Lindsay*

Above: The Charleston Girls prepare to set up for a kill against the RUF girls. Photography by Rachel Lindsay
Below: Kappa Kappa Gamma girls send the ball back to their opposing sisters. Photography by Rachel Lindsay

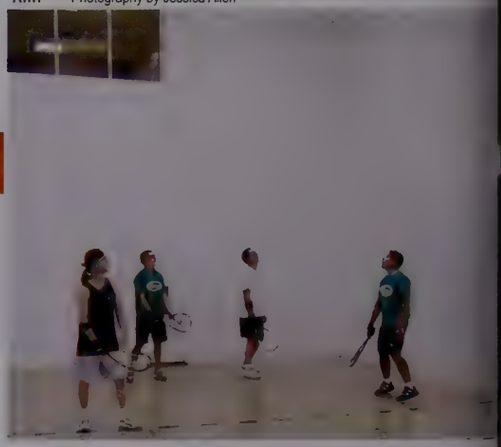
Bump, set, spike...Volleyball, a license to kill

Friendly Competition

Ever wonder what's going on in the echoing rooms of Fike? It's intramural racquetball: a game of power, speed, angles, and getting out of the way! Spectators are welcome to watch the games through observing windows above each court, so make sure to show up and cheer on your favorite pair! *Jessica Allen*

Above: Chris Tompkins returns the ball against the front wall, as his partner Todd Schweisinger stands back. Photography by Jessica Allen

Below: Schweisinger, Tompkins, Dan Dickinson, and Daniel Skinner wait for their next chance to go for a kill. Photography by Jessica Allen



"Racquetball was a great way to avoid homework, but if I get hit in the back one more time..."

Daniel Skinner

Above: Daniel Skinner prepares to take a shot during pregame warm-ups. Photography by Jessica Allen

Left: Todd Schweisinger fires the ball back at his opposition. Photography by Jessica Allen

Tigers are bouncing off the walls in Doubles Racquetball

Turn on the lights, it is time for some soccer Night Lights

The lights were shining Monday through Thursday nights on the upper intramural fields for the intramural soccer games. The players shone as well, by displaying their soccer skills. There were co-rec, women's, and men's leagues this season.

Rachel Lindsay

Upper Left: Substitute players watch the game intently as they wait for their chance to get in the game. Photography by Rachel Lindsay

Above: Two teams face off for a victory. Photography by Rachel Lindsay

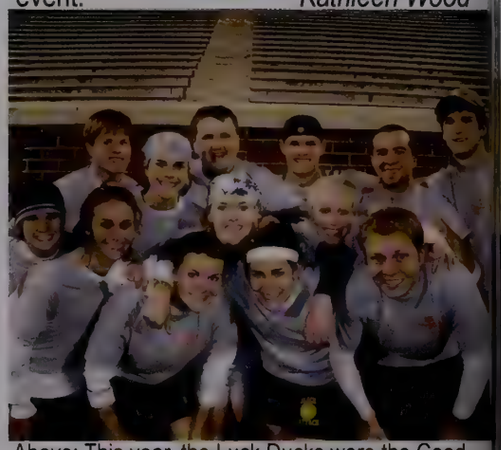
"Intramural soccer is like reliving the high school days. In fact, I probably get into it a bit too much, forgetting it is just intramurals. If you win you get to play in Riggs, which rocks pretty hard."

Jonathan Pritchard

Left and Right: Players go head to head trying to control the ball. It is important to keep opponents away from the ball in order to dribble down the field and score a goal. Photography by Rachel Lindsay

Photography Courtesy Natalie Irby

Each fall, the University offers flag football as an intramural sport. There are three divisions: men's, women's, and co-ed. The teams play against each other every Monday night, and then the top two teams in each division meet up to play the championship game in Death Valley. This year fifteen teams participated in this event. *Kathleen Wood*



Above: This year, the Luck Ducks were the Coed division champions. Photography Courtesy Fike Fitness Center

Below: The Chi Phi Women's team took the Championship title in the Women's Division. Photography Courtesy Fike Fitness Center

"Flag football is one of the most intense intramural sports there is. It's really only for the most hardcore gangstars."

Paul Baker

America's past time becomes Clemson's past time

Flag Football

The difference is we play at Fike... Intramural Tiger Basketball

Every year Clemson's finest team up and take on their fellow students in this ever popular intramural sport. Teams of five play for the excersise, the fun, and even the title. Clemson offers male, female, and co-ed teams the opportunity to enjoy basketball.

Christopher Mims

Above: Number five looks to get a pass in against the solid orange defense. Photography by Cress Yongco
Below: Everyone plays their best, in hopes of winning one of the coveted intramural champion t-shirts. Photography by Cress Yongco

"Intramural basketball allows students to come together to compete with peers, excercise, and form lasting friendships."

Michael Richter

Above: Let the games begin! Two teams battle it out on the court. Photography by Cress Yongco
Left: The referee prepares to hand the ball to the player and watch the fun unfold.

Doug Brunson

If you haven't seen Doug Brunson around the Clemson campus, you haven't been far. In his seventh year at Clemson (four years as an undergraduate, three years as a graduate student), Doug has been involved in plenty. Graduating in 2002 with general and departmental honors in biosystems engineering, he hadn't yet had enough of the Clemson experience and chose to earn a masters in bioengineering. Doug played football for Clemson during the 1998-99 season and was also a cheerleader for three years. He was heavily involved with both Campus Crusade for Christ and Fellowship of Christian Athletes, while holding down a job at the DCIT Laptop Support Center fixing all of our broken computers. One of Doug's favorite things to do on the weekend is dancing the night away at the Blind Horse in Greenville before going to get 'Hot-n-Now' doughnuts at Krispy Kreme. After he finishes his masters, he plans to move to James Island and attend the Medical University of South Carolina in Charleston.

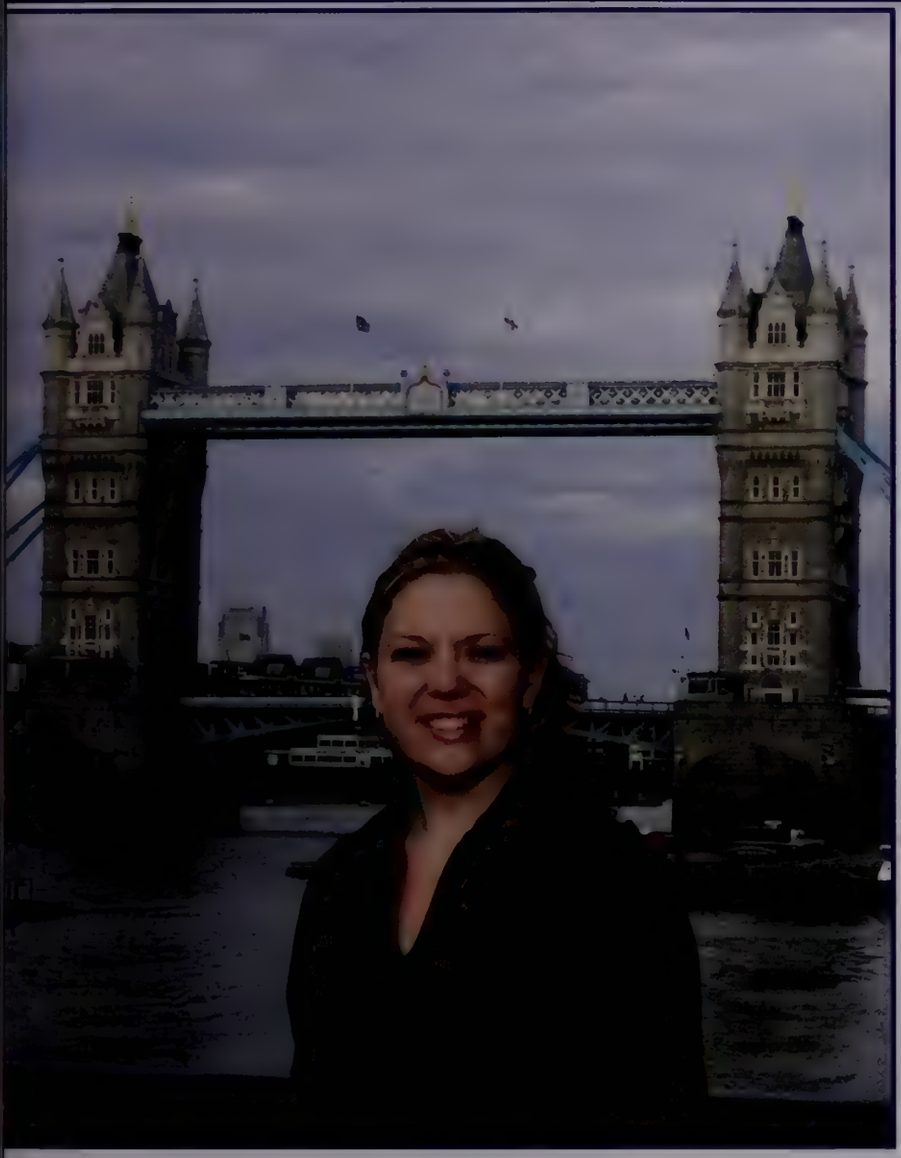
Stephanie Ourada



Stephanie Ourada is a MBA candidate, with an accounting concentration, from Kearney, Nebraska. At Clemson she is the vice president of finance of the MBA Student Association, a member of Alpha Epsilon Lambda Graduate Honor Society, and the graduate assistant for all of the student media organizations. She is also working on a special volunteer project planning the First Annual Women for Wellness Health Fair sponsored by the President's Commission on Women. She is very dedicated to her work and academic goals, but this can sometimes get her into trouble when she gets too focused to remember about the time expiring in her meter outside of Hendrix. Six or seven parking tickets won't slow her down, though. After graduation, she has a job lined up at an accounting firm in Greenville, South Carolina, but hopes to move overseas to work at some point. Given her desire to travel, she would choose to be on The Amazing Race if given the opportunity to participate in a game show.

Connelly-Anne Bartle

"I believe that giving back to Clemson is very important because Clemson has given so much to me during my time here," remarks Connelly-Anne Bartle. If her friends could describe her in one word, Connelly-Anne says they would use the word passionate, because she gives 110% to whatever she does. Since she first arrived at Clemson, Connelly-Anne has been very involved. Just to name a few of her accomplishments, she is currently the Vice Chair of Traffic and Parking for the Clemson Undergraduate Student Senate, Treasurer for the South Carolina College Republicans, State Press Secretary for the South Carolina Student Legislature, and a member of the Association of Women in Communications. Connelly-Anne chose to attend Clemson because it is a tradition in her family, with her grandfather graduating with the class of 1932. She hopes to graduate with dual degrees in Political Science and Communication Studies, and one day work on Capitol Hill.

Will Spink

Having been the news editor and opinions editor, Will Spink has been helping *The Tiger* bring the news to Clemson for the past four years. His contribution to the paper has not gone unnoticed as he has been awarded second place in the state in both news writing and editorial writing. Along with his involvement with *The Tiger*, Will is also a National Scholar and Dixon Fellow, participates in Reformed University Fellowship, and competes in Intramural Flag Football and Ultimate (for which he won an intramural title). Will plans to graduate this year with degrees in English and Philosophy. Afterwards, he plans to attend Covenant Theological Seminary with his wife in St. Louis, Missouri, but he will never forget his experiences at Clemson and all of the people, from professors to staff members and other university employees, that have cared about him and shown him what it means to be a part of the Clemson family.

Clarice Seifert

When people find out that Clarice Seifert is from Boise, Idaho, many of them probably wonder how she found her way to Clemson University. "I came to Clemson for several reasons," Clarice said, such as "the opportunity to play Division I soccer, an academic scholarship, the weather, the people, and the beauty of the campus." In her four years here at Clemson, Clarice has done quite a lot. She is a National Scholar, a member of Women's Glee and the Symphonic Orchestra, a CODE Elementary Volunteer Coordinator, played varsity soccer for two years, and a member of quite a few honor societies. Clarice also spent five weeks in Mexico after her sophomore year volunteering at a children's home. As a biochemistry major, she has been conducting research for the past year and will be submitting her final research paper on this at the end of this year. Clarice hopes to graduate in May and pursue her dream of medical school.

Kelly Waller

Don't be surprised if one day, while meeting with a professor in Strode Tower, you look out the window and see Kelly Waller climbing by. Although the police stopped him from climbing Daniel Hall two years ago, he was not deterred. "It has been a dream of mine since freshman year," he says. In fact, he vowed to climb Strode Tower before leaving Clemson. Until then, he practices on the rock wall in Fike, where he is a rock climbing teacher. He is involved in Campus Crusade, intramural frisbee, and flag football. Kelly also enjoys swing, shag, and salsa dancing. He danced in two shows in Kansas City for New Year's. As a computer engineering major with a minor in math, Kelly's academic success is apparent through his involvement in Phi Kappa Phi, Golden Key (he served as president), Tau Beta Pi National Engineering Honor Society, and Eta Kappa Nu Electrical and Computer Engineering Honor Society. After graduation, he plans to attend graduate school at Clemson. "It'll give me two more years to get up Strode…oh, *and* a masters!"

Cathy Wood

When asked what she misses about home, Cathy Wood replied simply, "This is home." Cathy visited Clemson on the suggestion of her 11th grade math teacher and "fell in love with Clemson immediately." She remembers people being friendly and taking time to get to know her. Many of her friends might say the same of Cathy. One word her friends would use to describe her is chatty…if you have ever met her, you know why. Her love for Clemson is evident through her involvement with campus organizations, including CU Guide Association, Psychology Club (she served as Vice President in the fall and President in the spring), Dixon Fellows, French Club, and Bible study. Her favorite sport at Clemson is women's club frisbee, which several of her friends play. Cathy will graduate with a degree in psychology and a minor in anthropology. Two professors at Clemson who have impacted Cathy's life are Dr. Connor-Greene and Dr. Coggeshall. "…They have consistently challenged my thinking and broadened the way I look at the world around me." *Mandy Baker*

Jose Martinez

Jose Martinez transferred to Clemson in the fall of 2003 because he was ready to make a change. Originally from Napa, California, Jose packed up everything he could fit into his car and moved across the country. He has had no trouble fitting in and becoming involved in Clemson activities. Jose is a member of Tau Kappa Epsilon, a 2004-2005 Orientation Ambassador, and the Outreach Director for UPAC (Union Programs and Activities Council). As Outreach Director, Jose has had the opportunity to work with the 300 other student organizations on campus, assisting them in sponsoring or organizing an event. "It is rewarding to walk down the street and hear people talking about how great an event was that you helped make possible." Something Jose believes people would find interesting about himself is that he has been to eleven different airports in the last 18 months just trying to get home. Despite his frustrations with airports, Jose said if he could be a participant on a reality television show, he ironically would like to be on The Amazing Race so CBS could pay for him to run around the world. *Adryan Stewart*

Randi Altstaetter

Randi Altstaetter dreams of being a YMCA youth director one day, but in the mean time, she is majoring in PRTM with an emphasis in community recreation management and is active in the Clemson University Tour Guide Association, Campus Crusade for Christ, Rho Phi Lambda, and the PRTM Student Association. Because of her love of the Clemson family's traditions, including the hill, tailgating, orange overalls, and intense school spirit, her favorite Clemson sport is football. When the season is over, Randi enjoys hanging out with her friends on the weekends, but sometimes finds herself missing her mom's cooking from her hometown of Raleigh, North Carolina. If able to be on a reality show, Randi would want the chance to be in the Olympics—an actual reality that she would like to be a part of. *Jessica Allen*

Andrew Daniel

As a kid growing up in Columbia, S.C., Andrew Daniel knew everything about the University of South Carolina. In fact, he knew so much about the school that when the time came to apply for college, he didn't even give USC a look. He knew, like so many other people, that there was a much better school just a few hours up the road. Plus, Andrew knew he wanted to "be in a place where the university was the town—so Clemson was just the right fit." At Clemson, he has been able to take part in his favorite pastime – sailing. Andrew volunteered right away to be a part of this club, helping to build it into the club it is now. Currently, with Andrew as the president, the group oversees a fleet of 20 boats, sponsors a sailing race team that competes with other schools from around the Southeast, and hosts two regattas during the school year. The club now offers instruction classes in both sailing and boater safety. While he does spend most of his time at the lake, Andrew is also an economics major on the side, hoping one day to earn his MBA.

Charity Hunt

A lot of people say they want to come to college and get involved. Well, sophomore computer science major Charity Hunt is no exception. Already a member of Clemson Dancers, Charity is now also a member of Tigerstrut, a Clemson Dancers dance team. In addition, she is also a member of other various clubs including Clemson University Gospel Choir, Student Government Minority Council, National Society of Black Engineers, Computer Science African-American Alliance, and NAACP Collegiate Chapter. This past summer Charity also represented Clemson as an Orientation Ambassador. Despite being very involved here at Clemson, Charity says there are some things she misses about home in Charleston, S.C., especially the food. But while here at Clemson, she prefers Harcombe because "there is a better variety and better taste, also less trips to the bathroom...." Charity hopes to one day work behind-the-scenes in the entertainment industry, while working her way to the front.

Stephen Gosnell

"When I visited Clemson, I realized I couldn't find a better blend of academics and an awesome college life anywhere." Now at Clemson, Stephen Gosnell is a sophomore majoring in biological sciences. Stephen says that many people at Clemson have made a difference in his life, but his professor Jim Love has had the largest impact. Stephen is very involved on campus in many different organizations, and although he knows lots of people, most do not know that their friend was in a circus troupe in elementary school! Stephen enjoys Clemson football, tailgating, and the awesome Tiger school spirit. When it comes to dining on campus, Stephen chooses Harcombe because of Iola's delicious breakfast omelets. If stranded on an island with only three things, he would want a frisbee, something to play music, and friends with him. Because he loves challenges, his reality show appearance would be made on *The Apprentice*. One challenge he would like to take on before leaving Clemson is learning how to shag. *Jessica Allen*

Natalie Wittig

Most people have probably seen Natalie Wittig at a TakeNote concert around campus. The sophomore from Columbia, S.C. is now in her second year as part of the group. This year, however, she has gotten much more involved, becoming the student music director of the a cappella group which has also made her a part of the TakeNote Steering Committee. "Basically, my job is to look at arrangements of songs, assign parts to the girls, plan rehearsals, teach the music, and choose which songs to do at each gig," comments Natalie. Furthermore, these positions have helped her learn more about leadership, decision-making, and running a group. Aside from being a member of TakeNote, she is also involved with Women's Glee, Choral Council, and FCA. Majoring in mathematical sciences and secondary math education, Natalie really only hopes to use teaching as a backup career while trying to pursue her dream of singing.

Christine Melen

Braving what some college students don't even consider, Christine Melen decided to attend a college a long way from home. Originally from Londonberry, New Hampshire, Christine has always known about Clemson University because her father received his masters in electrical engineering here. "I visited and fell in love with the campus and the community...especially the outstanding school spirit. High academic standards make Clemson a perfect fit." Since arriving at Clemson, Christine has gotten involved with several activities, including Freshman Council, Gamma Sigma Sigma Service Sorority, Club Lacrosse, and Tiger Band. After graduating from Clemson, Christine hopes to go on to receive her masters in aeronautical engineering before getting a job with SAE Systems with aerospace and aeronautics technology. *Adryan Stewart*

Vince Navarro

Vince Navarro, from Weaverville, North Carolina, was on the fence in making his college decision until he attended a Clemson football game. Now, as a freshman at Clemson, football is his favorite Clemson sport "because it brings an enormously large amount of people together as a family." Since joining the Clemson family, Vince has plugged into various clubs including the Asian Students Association, the College Democrats, and Freshman Council. As far as Student Government goes, Vince says that the entire group has made an impact on his life since arriving at Clemson. "I've not met one person who hasn't made me feel comfortable here." One of the goals Vince wants to accomplish before leaving Clemson is to hold a Senate Chair and help continue to make a difference within the Clemson family.

Jen Schweer

Jen Schweer is an undeclared major from Atlanta, Georgia. She is a member of the cross country/track and field team, participates in Habitat for Humanity, and is also an Alpha Delta Pi. Jen is not only talented in the realm of athletics, but is also quite skilled at tying cherry stems in knots with her tongue. Spontaneous and always looking for something new and different to do, Jen hopes to one day go skydiving with the club here at Clemson. If stranded on a deserted island, the three things she would want would be her chapstick, mint chocolate chip ice cream, and a friend to keep her company. Given the chance to be on a reality tv show, Jen would choose *The Bacherolette*. After searching the whole Southeast to spend her college years, we're glad that Jen chose Clemson as home!

Matthew Warren

One thing that the entire student body taught Matthew Warren after arriving at Clemson was that, "If I don't make an effort to separate myself from the pack, I won't." And having learned that lesson, Matthew decided he needed to be different. As a General Engineerin major here at Clemson, Matthew says he hasn't yet accomplished much. However, one thing he's proud of is his robot costume made completely from boxes he found in the post office which he later sold for five dollars. Another project he'd like to undertake before he graduates is to create a slip-n-slide that would run the entire length of Bowman. Matthew figures that one day he will get a job, but he'd really rather appear on a game show, win a large sum of money, travel the world, and live off his winnings. But for now, he better go to class and earn a degree – and get started on that slip-n-slide!

Student Government

Members of student government can be found in nearly every aspect of student affairs around campus, acting as liasons between the students and the administration of Clemson. Members serve in one of three branches - executive, legislative, and judicial.

Students plan Campus Sweep, the Miss Homecoming Pageant, direct all of the student organizations, plan loft sales, and serve as advocates for the students. From coordinating free legal aid to working to solve parking problems around campus, members of student government take an active role around Clemson's campus.

A message from the *President of the Student Body*

I would like to thank the student body for the opportunity to serve Clemson University. At the onset, I never would have imagined this experience would have been as rewarding and humbling as it has been. My hope is that CUSG continues to be the leading advocate for student voice and opinion on campus.

Adam Hammond

Student Government

Members of student government act as advocates for the student body in a variety of ways, including supporting SCSSA. SCSSA is a coalition of 12 South Carolina colleges that work together to lobby for more government funding for education.

Through SCSSA, advocating the rejection of +/- grading, and promoting cultural awareness, student government works to improve the campus in a variety of ways.

A message from the
President of the Senate

Student Government is special at Clemson because here, we actually get to see our ideas become reality. We work with students every day to ensure that they are represented in every aspect of their lives, whether it's better parking, better advising, or even something simple like the food served in the dining halls. I'm so proud to be President of the Senate this year. It's been one of the greatest honors and responsibilities of my life.

Todd Robertson

U.P.A.C.

Union Programs and Activites Council is Clemson's premiere student programming group providing diverse events, entertainment, and activities designed to enrich student life.

UPAC is involved in many events, including Tigergras, Death in the Valley, Welcome Bash on Bowman, Social Meetings in Edgars, and Freshman Night Out.

4 The First Night Out was a huge success, with many freshman attednding the event in Tillman Auditorium. There were also ESPN Games for the students to partake in. Photography Courtesy U.P.A.C.

5 Jose Martinez, the Director of the Outreach Committee, talks with a student at the Dave Chappell Lawn Party. He is in charge of co-sponsoring events with other student organizations. Photography Courtesy U.P.A.C.

6 Even the Tiger came out to the Burgers with the Barkers event this summer at the Hendrix Center! Photography Courtesy U.P.A.C.

A message from the *President*

U.P.A.C. is an unique student organization that is repsonsible for bringing entertainment, music, lectures, and outreach programs to Clemson University. U.P.A.C. members get first hand experience learning the ins and outs of the student union, planning major events, booking talent, and serving the Clemson student body and community the day of events, all while having a lot of fun! Each U.P.A.C. member gains knowledge about programming a successful event and makes connections with artists and performers from across the country and all over the world. This knowledge and the friendships made while working for U.P.A.C. last forever.

Laura E[illegible]

IPTAY Student Advisory Board

ISAB is responsible for planning, promoting, and educating members of the Collegiate Club about the purpose of IPTAY.

ISAB assists with the IPTAY International Meeting in Columbia, distributes IPTAY tickets for various games on campus, and plans special events for IPTAY.

www.IPTAYCOLLEGIATECLUB.com

Photography Courtesy IPTAY

A message from the *President*

ISAB is very important to the overall mission of the IPTAY Collegiate Club. Our members are a critical part of the success of the Collegiate Club at Clemson University. We plan a majority of the events and countinually look for ways to educate the student body about the purpose of IPTAY.

Chase Eldridge

IPTAY Collegiate Club

The IPTAY Collegiate Club is the largest organization of its kind in the country with over 4000 members.

IPTAY is involved in Baseball Tailgating Parties, the Homecoming BBQ, the Senior Dinner, and meetings with the coaches at Clemson University.

www.IPTAYCOLLEGIATE CLUB.com

3 These guys are waiting patiently in line at the IFC, Panhellenic, IPTAY Collegiate Club Homecoming BBQ.
Photography Courtesy Roy Stephenson

4 ISAB member Jessica Ashmore refills tea at one of the IPTAY Collegiate Club gatherings.
Photography Courtesy Rob Stephenson

A message from the *President*

The IPTAY Collegiate Club started in 1997 and has grown to over 4000 members. The organization was designed to give students a chance to be part of a tradition that started in 1934. Money raised by the IPTAY Collegiate Club goes towards the IPTAY Scholarship Fund which provides the maximum number of Athletic Scholarships allowed by the NCAA.

Chase Eldridge

Student Alumni Association

S.A.A. is an open-membership organization that enhances the student experience while supporting the quality and traditions of Clemson University and promoting awareness of the Clemson Alumni Association.

S.A.A. sponsors such Clemson traditions as Big Thursday and the senior picnic, assists the Alumni Association in hosting the ring ceremony, and provides workshops like business etiquette dinners for S.A.A. members.

http://alumni.clemson.edu/SAA

Photography Courtesy S. A.A.

1 President Barker joins students in showing off their Clemson rings.

2 Seniors celebrate their last weeks of school at the senior picnic sponsored by S.A.A.
Photograpy Courtesy S.A.A.

3 The Student Alumni Council is the 35-member leadership council of Student Alumni Association. S.A.C. is chiefly responsible for planning events for S.A.A. members, maintaining a solid S.A.A. benefits package, securing sponsors for S.A.A., and working at S.A.A. sponsored events.
Photography Courtesy S.A.A.

4 Student Alumni Association presents President Barker with a very generous check.
Photography Courtesy S.A.A.

A message from the *President*

Being involved with the Student Alumni Association (S.A.A.) enhances a member's Clemson experience through exposure to the benefits of the Clemson Alumni Association and by serving as a means to establish, maintain, and promote Clemson traditions. S.A.A. sponsors special events and educational programs every semester which bring together students of yesterday, today, and tomorrow. By supporting Clemson traditions, S.A.A. members gain a better understanding and appreciation of their place in the Clemson family. The better a student's Clemson experience, the more likely he or she will maintain a lifelong connection with Clemson University.

Suzanne Spalding Turner

A message from the *Editors*

Being on Taps staff is a one of a kind experience. Members gain journalistic knowledge, learn about campus events and traditions, and develop close friendships. Through photographing and recording Clemson's yearly activities and achievements, members develop a greater appreciation of our university and its history. We've enjoyed working together with this year's staff to leave our marks on Clemson's records and hope that in the future people will look to our book to reminisce over their individual Clemson experiences.

Jessica Allen and Mandy Baker

Photography By Kate Sholler

TAPS

The TAPS staff records the events of Clemson in an annual yearbook, carrying on an over 100 year tradition.

Members design original layouts, write copy, and do photography to record Clemson's history, while capturing and preserving students' memories.

www.Clemson.edu/~Taps

A message from the *Editor*

In 1992, The Clemson Spectator was born out of the lack of an outlet for students of Clemson to express opinions regarding Clemson life and the world around us. Prior to our founding, conservative students at Clemson were routinely denied even the privilege of buying advertising space in other publications. Today we are now The Tiger Town Observer, but our mission is still the same: to provide a conservative voice on campus that might otherwise be ignored.

Andrew Davis

Photography By Russell Cox

Tiger Town Observer

The Tiger Town Observer is Clemson's conservative journal of news and opinion.

The paper serves up alternative viewpoints on issues and events around campus as well as around the world.

www.observer@clemson.edu

Semantics

As Clemson's literary magazine, Semantics presents student and faculty poetry, fiction, and artwork to the rest of the campus.

Semantics makes a bi-yearly literary magazine that helps Clemson students' and faculty's creativity shine.

http://people.clemson.edu/~semantics

A message from the *President*

This year was tough, as Semantics switched its printing schedule to mid-semester magazines instead of publishing at the end of each semester. Our fall issue was a "best of" compilation, including art, articles, and poetry that dated back to the 1960's. Second semester we put out a standard issue for our group. With a fairly young staff, we hope to continue providing Clemson students and faculty with high quality creative expressions.

Pam Clayton

Clemson Cable Network

The Clemson Cable Network, CCN, is a student television station that airs the newest blockbusters, award winning films, and student productions.

The network produces shows, covers Clemson events, and advertises for student organizations and businesses.

ccn@clemson.edu

A message from the *President*

The Clemson Cable Network, CCN, is a student-run station that serves as a venue for students to produce their own shows, film Clemson events, and gain experience in the television and film industry. CCN also offers many opportunities for students to increase their understanding of programming, technical works, studio work, advertising, and management.

Kimberly Tanaka

The Tiger

Established in 1907, South Carolina's oldest college newspaper roars for Clemson.

The Tiger reports of local and national news, offers student opinion and commentary, photographs Clemson's activities, and publishes weekly.

www.thetigernews.com

A message from the *Editor*

The Tiger offers students the opportunity to develop their journalistic skills, leadership abilities, and appreciation for the ever-unfolding history of Clemson.

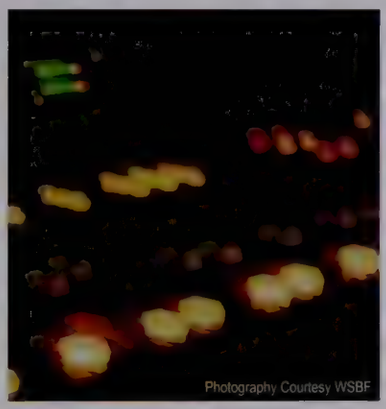
Caroline Stone

A message from the *President*

WSBF is a Class A Radio Station with a broadcast radius of 30 miles. It is a great extracurricular activity, and you get to make friends from many different backgrounds. Students get real world experience for their major while having a lot of fun. We have communications majors cutting their teeth in broadcasting, computer science majors making in-house programs to fulfill programming needs, electrical engineers running our transmitter, and graphic communications majors designing promotional items for us, just to name a few examples. Of course, it is always fun to be on air playing the best emerging artists.

Michael Simmons

Photography by Beth Rosner



Photography Courtesy WSBF

WSBF

WSBF is a non-commercial education station specializing in playing progressive music of all genres.

The organization takes part in a Rotation and Specialty show, spring and fall free concert series, as well as the WSBF/WUSC concert.

www.wsbf.net

Students for Environmental Awareness

SEA is Clemson's environmental service organization, dedicated to promoting environmental awareness and to improving the sustainability of the Clemson community.

SEA's activities include Earth Day Celebration, Football Game Day Recycling, Consumption Junction, and Residence Hall Recycling.

http://people.clemson.edu/~stuenva

A message from the *President*

SEA has been working since 1990 to bring awareness to important environmental issues on campus, in the community, and around the world. In order to maintain the unique beauty of the Clemson campus, we work with the recycling center, housing department, and the CU Environmental Committee to make the changes Clemson feels are important. We strive to educate ourselves and our peers in order to make Clemson and the world a more environmentally friendly place to live.

Clemson Air Rifle Traveling Team

Team members compete in the ten meter standing Olympic air rifle event at various collegiate competitions throughout the Southeast.

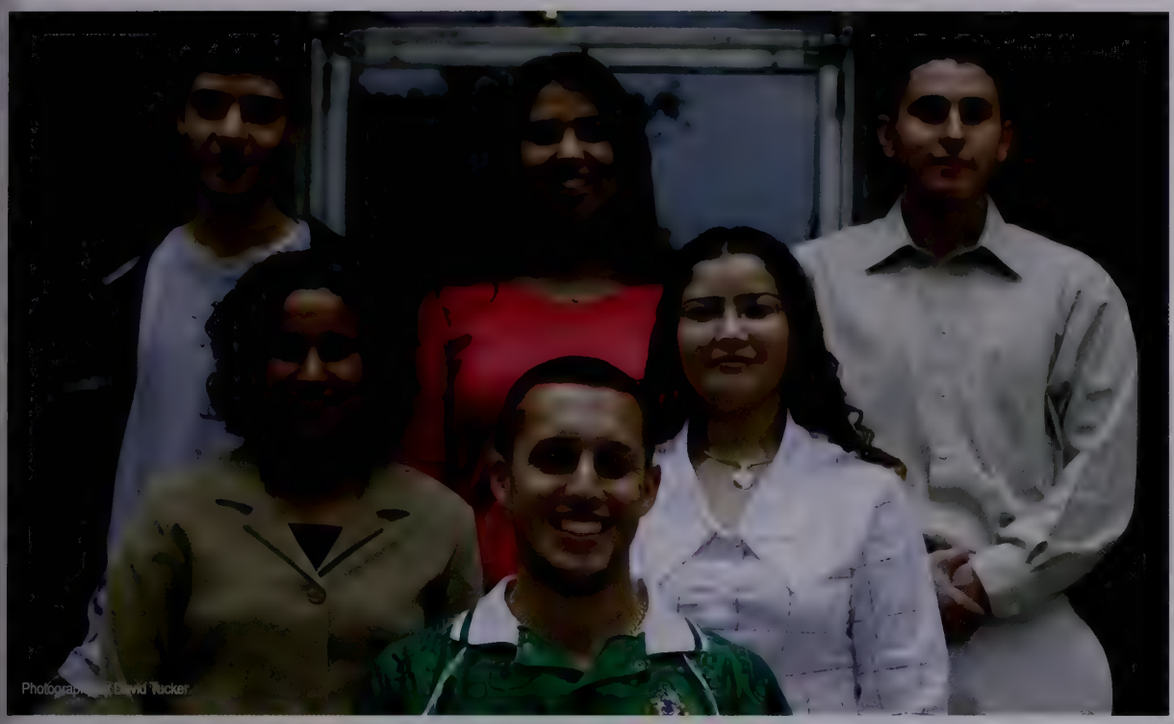
The team hosts rifle clinics, participates in the NRA and 4-H Club gun safety program, and attends competitions, including the Annual Clinic of the Army Marksmanship Unit at Ft. Benning, GA.

http://people.clemson.edu/~airrfl/

A message from the *President*

The Air Rifle Club offers the best opportunities to Clemson students. People do not join just because they are male or female or because of their experiences. People join because they are interested in making new friends, having fun, and learning marksmanship. This is a competitive Olympic sport that allows students to compete equally as individuals and as a team. Along with the competitions, members have the chance to travel the Southeast. The Air Rifle Club offers an experience to students that can continue to teach through a lifetime.

Kristy Mills



Hispanic Student Association

The Hispanic Student Association promotes the richness and diversity of the Hispanic culture and dedicates itself to future generations and to the education of the local Hispanic community.

H.S.A. participates in town hall meetings with Clemson, the Hispanic scholarship fund, LaSemillas, Hispanic Literacy Summit, and International Awareness Week, among other activities.

hspanic@clemson.edu

A message from the *President*

H.S.A. was formed to provide a welcoming and nurturing environment for Hispanic students at Clemson University. H.S.A. membership is open to all students who would like to learn more about the richness and diversity of the Hispanic culture. Because there are many nations with Hispanic roots, H.S.A. provides members with a special opportunity to learn more about other Hispanic students while working together on outreach, service learning, and social activities.

Deanna C. Chislett

Mortar Board

Mortar Board is a national senior honor society that cultivates the principles of scholarship, leadership, and service.

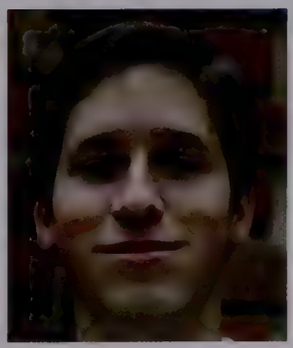
Mortar Board holds the annual 4.0 Drop-In with the President and the Miss Clemson Pageant, as well as trick-or-treating for books and reading day for local elementary schools.

http://people.clemson.edu/~mortar

A message from the *President*

The Order of Athena chapter of Mortar Board has had a distinguished tradition since its inception here in 1977. Each year Clemson's top seniors are tapped into our society for their dedication to scholarship, leadership, and service. Our annual Miss Clemson Pageant brings together students and community members in support of charitable causes. Mortar Board's dedication to these high ideals has been an integral part of shaping Clemson's top seniors.

Jason Curry



Air Force ROTC

Air Force ROTC cadets promote good citizenship by participating in various community projects, such as Habitat for Humanity, Clemson Food Bank, Relay for Life, Color Guard, and Special Olympics.

The cadets also sponsor the Arnold Air Society and Silver Wings. Cadets participate in exercises designed to promote fellowship, discipline, and teamwork.

http://business.clemson.edu/aerospace/index.html

Photography Courtesy Kelsey Sweeney

A message from the *Colonel*

With the mission of producing leaders for the military and better citizens for America, 162 students serve as cadets in the Air Force Reserve Officer Training Corps, Detachment 770, helping to continue the proud military tradition of Clemson University. Adhering to the Air Force's core values, "Integrity first, service before self, and excellence in all we do," and the Officer's Mold sum up the experiences of Detachment 770's Corps.

4 The Committee Chairs of 2004 gather together for a picture. Photography Courtesy Jennifer Bires

5 Delta Delta Delta girls try to stay awake long into the night to support their team. Photography Courtesy Jennifer Bires

A message from the *President*

Clemson University Relay For Life gives students a chance to join together in the fight against cancer. Cancer is something that has touched many members of our Clemson family. Through Relay For Life we are able to celebrate those who have survived, remember those we have lost, and raise funds to eradicate this terrible disease. Students stay up all night one night a year for the event. Because cancer never sleeps, for one night we don't either. We work hard each year to raise money and have raised over $100,000 since the Relay began at Clemson.

Jennifer Bires

American Marketing Association

The Clemson collegiate chapter of the American Marketing Association fosters the development of business students through service learning and networking with those in the business field.

The AMA sponsors fundraisng events, social events, helps with resume building, and hosts professional speakers throughout the year.

http://people.clemson.edu/~ama

A message from the *President*

The AMA is a professional and social organization. Our organization aids its members by helping them to network within their respective business fields by hosting informal events and creating a personable atmosphere to connect with business representatives. Also, the AMA focuses on resume building to help members in finding a career, as well as participating in service projects for the community. Not only do the members actively participate, but the AMA continuously motivates students to utilize their experience at Clemson to apply to their future careers by being a close organization that fosters an interactive environment.

Jessica Crexton

Army ROTC

The Army ROTC challenges its members as it prepares them for a possible career in the Army. Cadets train and work with their leaders to attain both intellectual and physical goals.

Cadets become leaders and participate in such activities as the guarding of Howard's Rock before the South Carolina football game every year.

http://business.clemson.edu/Armyrotc/

A message from the *Lt. Colonel*

It's about leadership. Army ROTC is dedicated to being a premiere organization for leader development. In addition to attaining an academic degree, Army ROTC challenges our cadets militarily, intellectually, and physically in an environment that embraces the highest moral-ethical behavior.

LTC Philip Kaiser

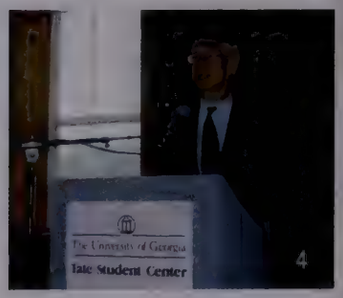
4 Chapter advisor Dr. Chris Sieverdes speaks at the Blue Key national convention at the University of Georgia. Photography Courtesy Amit Toprani



A message from the *President*

Blue Key Honor Society has a rich history at Clemson, dating to 1932, when our chapter was established. The national organization finds its roots in 1924; this makes us one of the oldest chapters in the nation. Through the years, Blue Key has sought to strengthen the bonds and opportunities for service of Clemson students. Whether through Tigerama, our Building History Program, or interaction with the campus' governing bodies, Blue Key strives constantly to improve the Clemson experience for all involved.

Drew Land

Catholic Student Association

Catholic Student Association's main goal is to "make church happen."

The association holds Tuesday night dinners, plays intramural sports, goes on retreats, holds graduate student dinners, and shares their faith.

www.clemsoncatholics.org

A message from the *Friar*

We at the Catholic Student Association strive to be witnesses of God's love for the world. Our love of Jesus impels us to seek each other out for worship, table fellowship, and service to those in need. Not content with our own company alone, we seek respectful dialogue with people of other faiths, and partnership in making the world a better place. All are welcome at our gatherings.

Friar Bill Edens

Courtesy Christine Long

Sports Plus

Clemson's Sports Plus organization is a group of students with an interest in sports and sports marketing. They are "The Team Behind the Teams."

Throughout the year, the club hosts guest speakers, holds special activities for relating to sports for members, and attends regional and national sporting events.

www.clemson.edu/~splus

Sports Plus is a great way for students who are interested in pursuing a career in the sports arena to learn more about opportunities in the field and establish contacts. We bring in numerous speakers, both regionally and internationally known experts, from the various sports marketing and management fields. The club also gives students with an interest in sports an avenue to share their excitement and experiences.

Christine Long

A message from the *President*

Clemson Card Players Club

The club serves to foster fellowship between card game players and raise money for charitable organizations.

Not only does the club educate members about card games, but it also organizes charity card tournaments.

ccpc@clemson.edu

Photography by A.J. George

1 Members place their bets, put on their poker faces, and hope for the best. Photography by A.J. George

Photography by A.J. George

3 Players anticipate their opponents' next moves.
Photography by A.J. George

4 Poker is a game of skill and concentration.
Photography by A.J. George

A message from the *President*

The Clemson Card Players Club is an organization that strives to meet three goals: to promote and educate members and the public about the recreational play of card games, to foster fellowship among card players in the Clemson community, and to host events such as tournaments in an effort to raise money for charity. We encourage everyone to attend our meetings and tournaments and to consider becoming involved in the club's activities.

Jason Howell

Clemson Dancers

The Clemson Dancers is an organization with student studio catering to dancers of all experiences and backgrounds.

The dancers help with various fundraisers, perform at campus events and meetings, and host a spring recital.

http://people.clemson.edu/~clemdan

Photography Courtesy Clemson Dancers

A message from the *President*

Clemson Dancers provides a wonderful platform of expression to those who might otherwise not have one. Since all the teachers are students, the atmosphere is less stressful and more condusive for fun. Clemson Dancers is also a great place to make friends and build traditions. In my 3 years in Clemson Dancers, I have met some great girls that I am honored to call my friends and we have started new traditions that we follow every week. We have members of all classes and experiences so it is a great way to further impact your time at Clemson.

Kimberly Clark

Photography Courtesy Clemson Equestrian Team

Equestrian Team

The Clemson Equestrian Team competes year-round in English and Western horseback riding events throughout the Southeast.

The team competes in competitions like IHSA, hosts a Blue Ridge Hunter Jumper horse show, and participates in other various on-campus service activities.

www.equest@clemson.edu

The Clemson Equestrian team is a co-ed group of students who compete year-round against ten other universities in Zone 5, Region 2 of the Intercollegiate Horse Show Association. Led by coaches Katie Maxwell and Lisa Miller, CUET offers laid-back showing experience in both Western and Hunt Seat riding. The intercollegiate shows are judged on equitation and horsemanship, either on the flat or over fences. Besides competing, CUET hosts a fundraising show each year for the local riding circuit and a fundraising social for the community. This year's team boasted over 40 members, freshmen to seniors, of all riding abilities.

Jessica Moore

A message from the *President*

Clemson Formula SAE

Formula SAE gives members the opportunity to conceive, design, fabricate, and compete with formula-style race cars in an annual competition.

Members build a race car for the annual competition and work to promote engineering at Clemson.

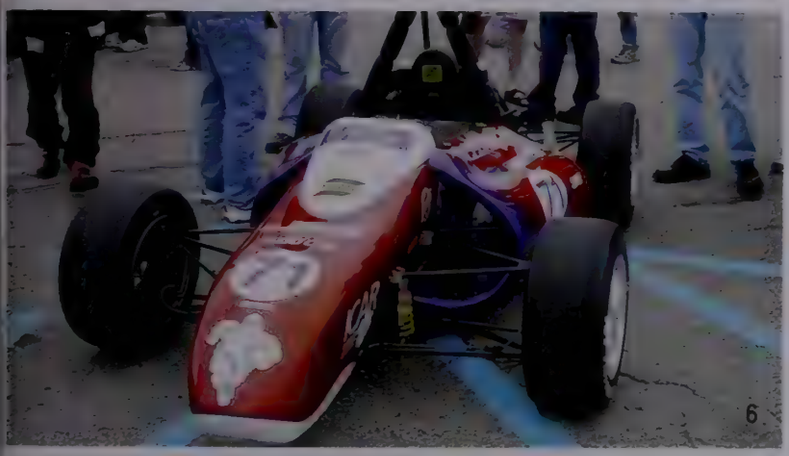
www.ces.clemson.edu/~fsae

1 Andy Miller buckles President Barker up for a wild ride! Barker drove the 2003 car in the group's first annual open house. Members of the administration as well as sponsors had the opportunity to drive the car. Photography Courtesy Formula SAE

2 Jay Jakupka and Andy Miller work to finish assembling the 2004 car. Photography Courtesy Formula SAE

3 Devon Tucker puts some finishing touches on the 2004 car. This was the first time a Clemson car was painted orange! Photography Courtesy Formula SAE

4 The team went on to place 12th out of 140 teams. Photography Courtesy Formula SAE



5 The team members of Formula SAE worked hard to conceive and design the car to compete in the May competition, while promoting engineering at Clemson. The 2004 members are seen above with their twelfth placed car and wearing their colors, blue and orange. Photography Courtesy Formula SAE

6 The completed race car is ready to be taken out for a spin to show exactly what it's made of. Photography Courtesy Formula SAE

7 The race car is inspected one last time on the tilt table before the race to make sure it will not flip over or leak fluids. Photography Courtesy Formula SAE

A message from the *President*

Formula SAE is a fully student-driven organization in which students design, market, fabricate, and then race their own single-seater racecar. The competition is held annually in May in Detroit, Michigan, and draws around 140 collegiate teams from around the world. Formula SAE allows team members to network with local and international companies through sponsorships, who employ members upon graduation. Overall, the organization allows students to have fun while participating in a challenging intercollegiate competition.

Andy Miller

Ice Hockey Club

Clemson Ice Hockey is a member of the Blue Ridge Hockey Conference and the ACMA.

Through weekly games held at the Pavilion in Greenville, the team competes with other colleges from the Southeast.

www.clemson.edu/~clubice

Photography Courtesy Ice Hockey Club

A message from the *President*

As Clemson Ice Hockey's sixth season draws to a close and I consider my years with the team, I must say, "This year has been the best." Our young players show strong leadership and outstanding talent. The coaching staff is enthusiastic, volunteering their time for their love of the game. The players have formed lasting friendships through their commitment to excellence on the ice, in the classroom, and as a team. I thank those who have made my last year the best, and I wish you all the best for the future—on the ice and in life.

Andrew Coleman

Photography Courtesy FIRMC

F.I.R.M.C.

Clemson's Foundation for the International Medical Relief of Children believes in donating their time and talents to community programs that foster the well-being of children in the area.

Members volunteer at Helping Hands, cooperate with Greenville Safe Kids on special events, participate in Big Brother/Big Sister, collaborate on medical mission efforts, and collect can tabs for the Ronald McDonald House.

A message from the *President*

FIRMC provides Clemson students with the opportunity to give back to the University and community that have given them so much by allowing them to pursue their passion for service. As students unite behind a mission to improve the quality of life for children in the local area and internationally, especially those who are underprivileged, they are able to powerfully impact their community. Led by a vision for a brighter future, compassion for those in need, and a vibrant spirit for service, FIRMC members make their mark on the Clemson community.

Suzanne Weaver

Field Hockey Club

The field hockey club, besides just playing field hockey, is filled with great people, great sports, and lots of fun!

The club members participate in tournaments at local universities, have social events, go on road trips, have fundraisers to raise money for equipment, and hold games versus the ice hockey club team.

fhockey@clemson.edu

Photography Courtesy of Mary Scheck

A message from the *President*

The field hockey club is open to both new and experienced players of all levels. We focus on having fun, getting to know new people, and enjoying an awesome sport. The team works hard to strengthen skills on the field and enjoy the sport itself.

Liz Davies, Amy Scheck, and Jenny Hansen

Habitat for Humanity

Habitat for Humanity brings families and communities in need together with volunteers and resources to build decent, affordable housing.

This club accomplishes their goals through the Annual Homecoming House build, Saturday work days, club meetings, and fundraising events

http://people.clemson.edu/~habitat

Photo by Courtesy Chris Hessner

A message from the *President*

Habitat for Humanity offers our members a truly unique experience. Our organization gives the opportunity for each individual to take an active role in improving the Clemson community. Every member is invited to participate in a life-altering organization through our many projects. Help make someone's dream of owning a home a reality!

David Mertens

Pershing Rifles

Pershing Rifles is a national honorary fraternal society for R.O.T.C. and civilian students whose purpose is military drill and showmanship.

The group competes in the National Drill Competition and appears at various ceremonial events including Mardi Gras, Veteran's Day, and many more.

http://people.clemson.edu/~prshrfl

Photography Courtesy

Lutheran Student Movement

Through weekly meetings, the club reaches out to students and helps nurture their faith and social life.

It hosts Wednesday night meals, bimonthly service projects, and a weekly Bible study.

http://www.clemson.edu/~luthcm

A message from the *President*

President Barker has said that moral reflection needs to be a part of campus living. Lutheran Campus Ministries (and other denominational campus ministries) provide an opportunity to do this. Within these communities, we discuss what it means to be productive, reflective, and contributing members of society.

Ashley Park

Sertoma Club

Sertoma (Service to Mankind) is a service organization that focuses on helping children in hopes of improving society.

Members sponsor Camp Sertoma cleanup, participate in Relay for Life, Helping Hands, Our Daily Bread, and Big Brother/Big Sister.

sertoma@clemson.edu

Photography Courtesy Clemson Collegiate Sertoma Clu

A message from the *President*

Sertoma's Mission: We exist for a high and noble purpose of service to mankind by communication of thoughts, ideas, and concepts to accelerate human progress in health, education, freedom, and democracy. An act of kindness goes a long way, affecting not only the community you serve and the people you inspire, but also resonating the message.

Sagar Shah

Omicron Delta Kappa

Omicron Delta Kappa is a national leadership honor society.

The society's main projects on Clemson's campus are honor stole sales and the Student Memorial.The Clemson University Circle has been honored as a "Circle of Distinction" for the third year in a row.

http://people.clemson.edu/~odk

Photography Courtesy ODK

A message from the *President*

The Omicron Delta Kappa Society is the national leadership honor society for college students, faculty, staff, administrators, and alumni that recognizes and encourages superior scholarship, leadership, and exemplary character. Membership in ODK is a mark of the highest distinction and honor. The society recognizes achievement in the following areas: scholarship; athletics; campus and community service; social activities, religious activities; campus government; journalism, speech, and the mass media; and creative and performing arts.

Kevin Harvel

Poultry Science Club

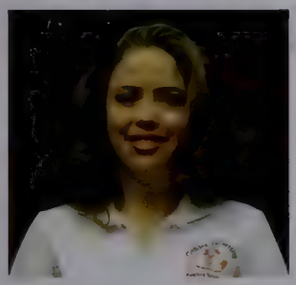
The Poultry Science Club provides a fun environment in which members can increase their knowledge of the poultry industry.

Members participate in the Anderson County Fair and the International Poultry Exposition, hold the Birdies for the Birds turkey fundraiser, and have a skeet shoot.

lbugsrcute@aol.com

Photography Courtesy Poultry Science Club

A message from the *President*



The Poultry Science Club is the only club on campus where chickens are considered fun and interesting, instead of just tasty and fried. The club provides its members with a sense of responsibility, commitment, and a greater understanding of the poultry industry. The Poultry Science Club enhances its members' Clemson experience by exposing them to a new area of interest and providing friendships that will last a lifetime.

Debbie Le Gette

Pre-Vet Club

The Pre-Vet Club is dedicated to encouraging students who have a love for animals to learn more about them.

It holds the annual Doggie Olympics and Spring Splash, hosts speakers, participates in community service, and goes on trips to learn more about the field of veterinary science.

prevet@clemson.edu

A message from the *President*

The Clemson Pre-Vet Club gives its members the opportunity to get to know so many people who have dedicated their lives to animals. We work closely with area animal shelters and have different members of the AVS faculty and local vets to come speak with us. We have been down to Riverbanks Zoo to get a behind-the-scenes look at exotic animal care. I have been a member of the club since my freshman year and I can't imagine what my time here at Clemson would have been without it.

Jaret Thacker

Psychology Club

The Psychology Club is a special interest group designed to educate psychology majors and non-majors about the field of psychology.

The group's activities include monthly meetings, volunteering at the children's home, Academic Day in Columbia, and socials.

psychcb@clemson.edu

A message from the *President*

The Clemson University Psychology Club was created to offer its members information about the study of psychology and its practical applications in today's society. Through not only the guidance and assistance of guest speakers and the psychology department faculty, but also the opportunity to have hands-on field experiences and being able to volunteer in the community, the psychology club provides a unique blend of the major and its benefits.

Hayley Kern

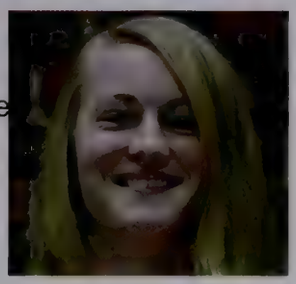
Spanish Club

The Spanish Club is a multicultural organization whose goal is to unite people who would like to know and practice Spanish cultures.

Activities are performed by the Conversation, Social, Funding, Communication, and Educational committees.

spanish@clemson.edu

A message from the *President*



The Spanish Club is a group of students interested in studying and enjoying the Spanish language and the Hispanic culture. Members often become more proficient in the Spanish language and have more general knowledge about the culture. We try to immerse ourselves in the local Hispanic community by serving and participating in it. Members also get to know other students with similar interests and professors who can help them while they are in school and after graduation.

Karen Culpepper

Christian Outreach Ministries

Members participate in outreach ministries, focusing on restoring the inner man of Clemson students and members of the community.

The Ministry's activities include a Friday night Bible study, food drives, clothing drives, and tutorial programs.

Christian Outreach Ministry is dedicated and determined to help build up and restore the inner man of the Clemson students and community. We believe in helping to establish a Godly character through structured Bible teachings. Through several of our outreach programs such as Bible studies, food drives, and tutoring/mentoring, we plan to accomplish our goal of building a better future.

Amanda Butler

A message from the *President*

TakeNote

TakeNote is Clemson University's premiere all-female a cappella group. This year the ensemble consists of 15 outstanding women.

In addition to performing on campus, TakeNote competes in regional and national competitions. This year the group also traveled to London, England.

www.takenoteladies.com

A message from the *President*

TakeNote was established in 1996 and has been taking Clemson's campus by storm since then. Although the group changes year to year, the mark we wish to make on campus remains the same. Being a part of the Clemson community is an invaluable experience, and TakeNote has the honor of contributing to this experience in a unique way. It is our hope that you leave the group with an amazing group of friends, an enormous amount of confidence, and a Clemson experience unable to be found in any other organization.

Gillian Trimboli

Photography Courtesy Tigers Who Care

Tigers Who Care

Tigers Who Care is a community service organization that challenges Clemson students to grow in awareness of needs of the surrounding community.

They sponsor volunteer trips to Clemson Downs, Helping Hands, Clemson Child Development Center, and many more service organizations.

twc@clemson.edu

A message from the *President*

Tigers Who Care is a great organization if you want to become involved in the Clemson community and make a positive impact on our society! Service should be a part of everyone's life; you learn so much about yourself and experience things you wouldn't experience if you just went to class. TWC gives you the opportunity to experience many different types of service so you can easily find one you really like. I'm so happy to have been involved in this organization.

Louise Bhavani

TIGEROAR

TIGEROAR is Clemson's oldest all male acappella group, which specializes in the performance of contemporary pop acappella music.

Made up of fourteen guys, the group tours the state and country as well as performing on campus in events such as Tigerama, TIGEROAR Live, TIGEROAR Fall Show, and the Miss Homecoming Pageant.

This year, TIGEROAR earned a spot on the Best of College Acappella CD featuring groups from all over the country.

www.tigeroar.net

A message from the *President*

I speak for the entire group when I say that being in TIGEROAR defines each member's college experience. It is a privilege to spread the Clemson tradition throughout the country while acting as ambassadors for Clemson. This group is above all a brotherhood of various personalities who come together to sing and perform as "one." I came to Clemson knowing only a few people, but I will walk away with fourteen best friends and a lot of crazy memories I will keep for a lifetime. It has been a privilege to serve as president for this group.

Matthew Irwin

University Housing

University Housing staff members consist of Resident Directors and Resident Assistants who live in campus housing.

Members make sure housing and room standards are maintained, while providing a welcome transition into dormitory life for students.

Waterski Club

The Waterski Club participates in nine tournaments a year, including regionals and nationals, and practices on Lake Hartwell.

Members can be found participating in competitive waterskiing, wakeboarding, and other water sports.

cuski@clemson.edu

Members of the Clemson Waterski Club get the chance to participate in many unique and exciting experiences. The club operates two brand new ski boats on Lake Hartwell, just minutes from campus. The Waterski Team, the competitive division of the club, competes around the nation and is consistently ranked in the top 10 nationally. The Waterski Club is a great way to meet new friends and make more of your Clemson experience. See you on the lake!

Ben Coppage

A message from the *President*

Student Nurses' Association

The Clemson University Student Nurses' Association is a pre-professional organization that prepares members to assume leadership and professional roles in nursing.

Members participate in community outreach to educate the public about health awareness and the nursing profession, hold public health screenings, host charity linen and canned food drives, promote leadership projects and development, and participate in the national organization to prepare members for professional nursing organizations following graduation and licensure as a professional nurse.

sna@clemson.edu

Photography Courtesy Student Nurses' Association

A message from the *President*

Through the Clemson University Student Nurses' Association, nursing students are challenged to reach beyond what is expected in a classroom setting in order to gain a greater understanding of the nursing profession. Students educate the community about health awareness and the nursing profession, participate in charity events, promote leadership, and build relationships to guide fellow classmates. Students who graduate having participated in this organization will not only be more prepared for a professional career, but they will truly understand what can be gained in a nursing career by going the extra mile to make a difference in the lives of others.

Recruitment

Finding Your Place

Although 20% of Clemson's student body belongs to a social Greek community, many are still not familiar with the term "rush"–a term used to define a period of time in which students can become affiliated with the various sororities and fraternities. Recruitment, held in the fall, allows students to join one of 24 fraternities or 14 sororities. The Interfraternity Council's recruitment takes place over five days: two days of smoker parties on Bowman, two days of invitation parties, and then bid day. Sororities also hold four rounds of parties, allowing potential new members to get to know the members of each sorority better. This past fall's recruitment was extremely successful, with 565 men and 696 women participating in the recruitment process. Traditionally, students joined these organizations in order to make friends and improve social interaction. Now, students join Greek organizations to advance their intellectual discourse, develop their communication skills, and most importantly, to help in various philanthropic work. Habitat for Humanity, WORTHhouse, and Helping Hands of Clemson are some of the many charitable organizations that fraternities and sororities sponsor. *Cress Yongco*

ΑΦΑ ΔΣΘ

Bigs and Littles

Sisters & Brothers

One of the best traditions of Greek life is finally getting your big brother or sister. After recruitment, new members spend time with older members and find friends with similar interests. They then vote on whom they want to be their big brother or big sister. It is a week filled with excitement and surprises as new girls receive gifts from their big sisters. Gifts ran the gamut from monogrammed towels and stitch letter shirts, to candy and anything with a sorority's letters on it. At the end of the week, girls find out their big sisters' identities in a ceremony. Although fraternities do not have such an elaborate event, it is just as exciting for a new member to meet his older brother who will guide him through his time at Clemson. Little brothers and sisters will get their own littles next year, and the tradition continues.

The friendships established through big brothers and big sisters go beyond their organizations, as sisters and brothers tailgate, hang out on the weekends, and spend spring breaks together. These special relationships are more intimate than the ties brothers and sisters share with the others in their organization. In fact, bigs and littles are like family members. Their bonds will go beyond their collegiate years.

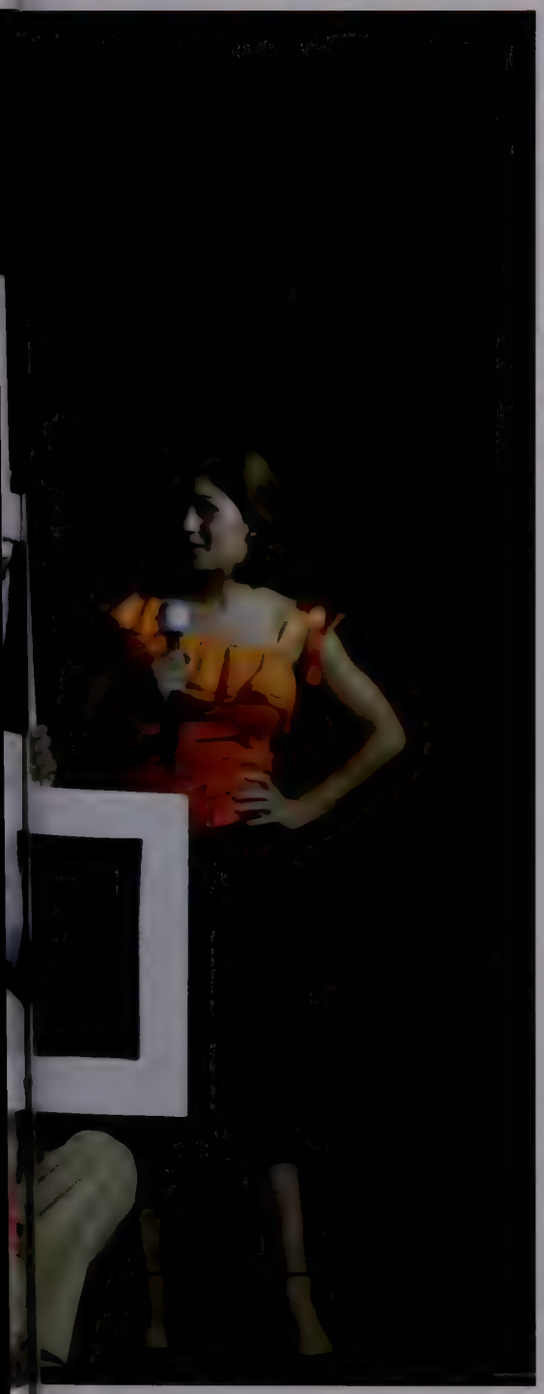
ΣΠ ΤΚΕ

Competitions

Competing for a Cause



Although social events and the brotherhood and sisterhood of Greek organizations are important, one of the most fun aspects of Greek life is the inter-organization competitions. Each sorority and fraternity holds annual competitions to raise money for their selected philanthropy. Each organization participates, competing against one another in games ranging from Kappa Kappa Gamma's dodgeball competition to Sigma Pi's kickball competition. By paying money for an entry fee and raising funds through such events as canned food drives and donation centers located around campus, each organization successfully raises thousands of dollars for their cause with good-natured competition between the organizations.

While each organization holds its own event to raise money through the participation of other organizations, each organization also competes in events throughout campus. Many of the sororities participate in the First Friday Parade each year, entering their float in the float competition. Many of the fraternities compete with other organizations on campus during the Homecoming Week float competition, building floats on Bowman field. Organizations also pair up and compete in a skit competition at Tigerama, the pep rally before the homecoming football game. From the Greek Week games, sponsored by Order of Omega, to Sigma Chi's bowling competition, Greek organizations compete to successfully raise money for different causes.

ΖΒΤ ΚΔ

Greek Philanthropy

One of the aspects of Greek life that most people tend to look over when they consider joining a fraternity or sorority is the philanthropies in which each organization participates. Each of the thirty-eight Greek organizations on the Clemson campus requires its members to participate in at least one philanthropic event each year. During sorority recruitment, one round is spent informing the rushees about the various national organizations for which the sororities choose to raise money through philanthropy. Then, throughout the year the fraternities and sororities hold various events to raise that money. Some of these activities include Zeta Tau Alpha's "Pork-n-Tunes" benefitting the Susan G. Komen Breast Cancer Foundation, Alpha Delta Pi's Hamburger Eat-a-Thon for the Ronald McDonald House, and Sigma Nu's Game Ball Run the week of the USC vs. Clemson football game fundraising for the Multiple Sclerosis Society. Not only do these fundraisers provide an opportunity for students to be a part of the local community, but it also provides a sense of community among the organizations. The fraternities and sororities truly enjoy helping each other in their pursuit to raise as much money as possible for their individual charities. Philanthropies provide a means by which Greek organizations encourage brotherhood and sisterhood and the spirit of making a difference in a bigger way.

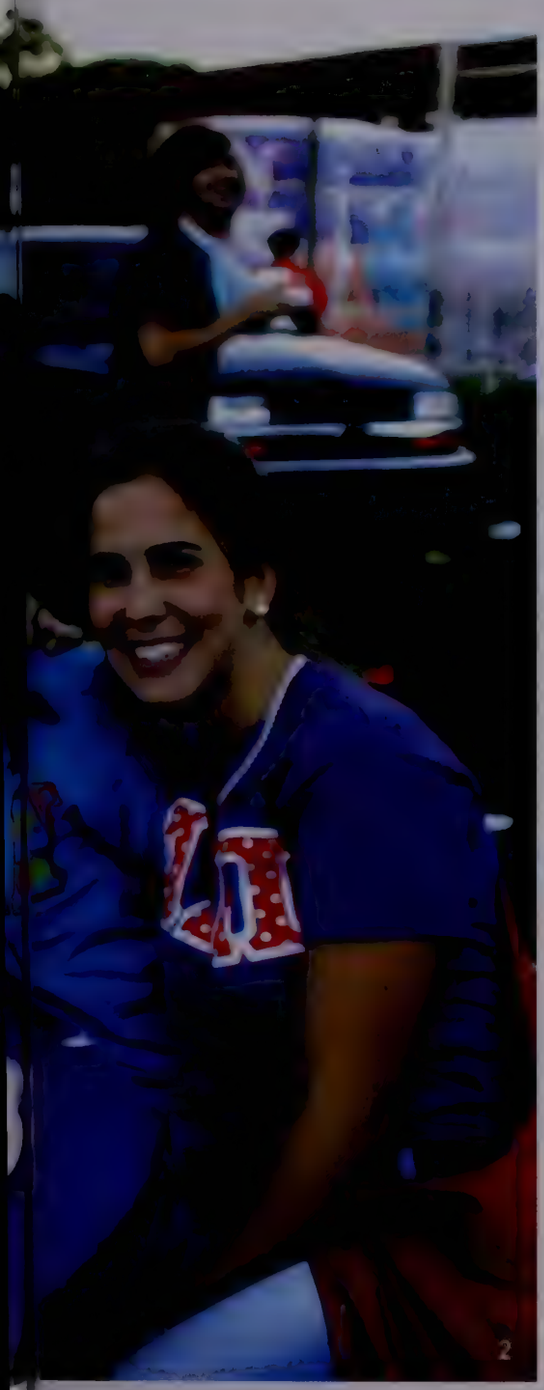
Greek Council

Joining Together



Role model, leader, and philanthropist are just a few of the titles that describe Clemson University's Greek Council members. Greek life is an integral part of Clemson's campus and the students involved in Greek Council work hard to promote the ideals of superior scholarship, community service, philanthropy, brotherhood and sisterhood, and the development of strong leaders. Three governing bodies make up the Office of Greek Life, and they include the Interfraternity Council, National Pan-Hellenic Council, and the Panhellenic Council.

Council members are responsible for keeping Greek life at its best by making sure each organization meets certain standards of performance defined by the University. Members are also in charge of planning and organizing semesterly programs and activities for all Greek students. They help in developing programs of social etiquette, responsible behavior, and risk management. Each year the council recognizes notable achievements by chapters and their members. Members of the Greek Council come together for President's Retreat, a retreat for the presidents of Greek organizations to plan their year, and monthly for President's Roundtable, a discussion forum for presidents to discuss campus issues.

Sigma Chi

Sigma Chi, a social fraternity, strives to be the preeminant leadership organization on campus.

Hosting Derby Days philanthropy events to raise money for different charities, Sigma Chi's activities go beyond social events. The brothers also participate in intramural sports, student government, and IFC.

www.clemson.edu/~sigchi

Photography by Mandy Baker

A message from the *President*

The fundamental purpose of Sigma Chi Fraternity is the cultivation, maintenance, and accomplishment of the ideals of friendship, justice, and learning within our membership. We achieve these ideals through the practice of character qualities embodied in our ritual. We continuously reaffirm our purposes through the observance of Sigma Chi's governing laws and through adherence to the decisions of our legislative assemblies, which empower and direct our leadership.

Richard Hartke

Sigma Pi

Sigma Pi serves as an academic, social, and philanthropic leader in the Greek community.

Sigma Pi hosts a kickball tournament every spring to benefit a cancer charity organization, participates in the Tigerama skit competition, winning 1st place in 2004, and participates in Greek Week.

http://people.clemson.edu/~sigmapi/

Photography by Mandy Baker

A message from the *President*

As brothers of Sigma Pi, we value our Greek experience as one of the most important aspects of our time at Clemson. We uphold the ideals of our fraternity through our academic achievement and our service to Clemson in leadership positions and philanthropic events. Sigma Pi is and will continue to be an important asset of the student landscape at Clemson University, and we look forward to the future as leaders in the Greek community. *Gibby Little*

Photography by Mandy Baker

Sigma Phi Epsilon

Sigma Phi Epsilon is a fraternity that will strive in every way to live up to the high principles of virtue, diligence, and brotherly love.

Their executive board consists of: Harper Collins - President, Matt Zarcombe - VP Programming, Ryan Eckenrode - VP Finance, Chris Tully - VP Brotherhood Development, and Charlie Yeargin - VP Recruitment.

http://people.clemson.edu/~spe/

Sigma Phi Epsilon is committed to building balanced leaders for the world's communities, while at the same time offering a brotherhood and experience that is uniquely Clemson. We attempt to instill in all of our brothers knowledge and principles that will help them succeed, as well as give them direction and clarity to their life. I hope that all of my brothers feel as I do, in that my four years with Sigma Phi Epsilon are the happiest and most cherished of my life. *Harper Collins*

A message from the *President*

Alpha Kappa Alpha

AKA, the first Greek-letter organization established by African-American women, continues to pursue their purpose of service to all mankind.

AKA provides community services in five areas: health, economics, education, the Black Family, and the arts.

AKA@clemson.edu

Photography by Mandy B

A message from the *President*

Alpha Kappa Alpha is a sisterhood that has been, and will always be, one of the most precious aspects of my college experience. The friends I have made, the sisters I share a bond with, will always be a part of my life. Becoming an AKA at Clemson enhances your college years because you reach outside the University community to read to children in area schools, provide health and economic workshops targeting African-Americans, and make a difference. Each day we move closer to attaining the goal of service to all mankind.

Denisha Champion

Zeta Phi Beta

Zeta Phi Beta is a community-conscious, action-oriented organization.

Members help with a local soup kitchen, sponsor adopt-a-highway, hold Z Hope and the annual Blue and White weekend, as well as sponsoring the Angel Tree.

zpbsor@clemson.edu

Photography by Mandy Baker

A message from the *President*

Zeta Phi Beta Sorority was founded on January 16, 1920, "to address societal mores, ills, prejudices, poverty, and health concerns of the day" by Arizona Cleaver, Myrtle Tyler, Viola Tyler, Fannie Pettie, and Pearl Neal. The Eta Nu Chapter was founded on the campus of Clemson University on April 26, 1986, by Cassandra Bishop, Phyllis Blakely, Carolyn Campbell, Margaret Galloway, and Gwendolyn Gardner. Our tenet is, "It is better to have FIVE WOMEN immersed in the SPIRIT OF ZETA, than to have fifty with lukewarm intentions."

Shavonne Brown

Alpha Omega Epsilon

Alpha Omega Epsilon is a professional engineering sorority.

It hosts social events, provides service to the community, and builds professionalism among its members.

http://people.clemson.edu/~alpomep

AOE is a professional and social sorority. To be considered for the group, you have to be a female in an engineering or physical sciences major. Seeing as how these majors are predominantly male, AOE provides an opportunity for females to unite, create friendships, and support each other in difficult academic curriculums. AOE also strives to make a difference in the community by participating in many local community events.

Tricia Hamburger

A message from the *President*

Photography by Mandy Baker

Gamma Sigma Sigma

The members of Gamma Sigma Sigma work to help the community and the nation through service projects in which they are involved.

They do various service projects in the local community and nation, such as selling doughnuts to raise money for charity and conducting a dance-a-thon.

gsigsig@clemson.edu

Gamma Sigma Sigma is an active organization on Clemson's campus and participates in events to better the Clemson community, as well as national organizations. Since we participate in all Clemson events, our members get the "Clemson experience" by participating with us in First Friday, Homecoming, Derby Days, football block seating, Relay for Life, and other activities provided on campus. This allows our members to be involved with campus activities, as well as something bigger than just Clemson.

Ashley Pike

A message from the *President*

Tau Kappa Epsilon

TKE is a social fraternity at Clemson, celebrating traditions and Clemson pride.

TKE is involved in the Alzheimer's Memory Walk, intramurals, Homecoming, Greek Week, and the Ronald Reagan Alzheimer's Foundation.

http://people.clemson.edu/~TKE

2 Homecoming marked a milestone for TKE, as they took third place in the stationary float competition. Photography Courtesy TKE

3 TKE brothers raise the first walls of a Habitat for Humanity house in Liberty, SC. Photography Courtesy TKE

4 TKE participates in intramural flag football. They remain undefeated in several sports. Photography Courtesy TKE

A message from the *President*

The Sigma Psi chapter of Tau Kappa Epsilon will celebrate 14 years at Clemson this school year. We strive to be one of the best fraternities on campus. Our membership includes student leaders, men of character, and men of values. 2004-2005 marked a year of development and involvement for us. At Clemson, we are involved in intramurals, tailgating, homecoming events, and Habitat for Humanity. We were the #2 fund raiser in the Upstate for Alzheimer's Memory Walk. Needless to say, TKE enhances the Clemson experience. *Jason Zimmerman*

Alpha Phi Alpha

Alpha Phi Alpha is the first African-American, Greek, intercollegiate fraternity; it stands for accomplishments, scholarship, and love for all mankind.

Their activities include a Martin Luther King, Jr. Celebration, tutoring at a local church, a sexual abuse forum, a voter registration drive, and work with Habitat for Humanity.

www.clemson.edu/~apaweb

Photo courtesy Clyde Thomas

A message from the *President*

Since its founding on December 4,1906, Alpha Phi Alpha Fraternity, Inc. has supplied voice and vision to the struggle of African-Americans and people of color from around the world. Alpha Phi Alpha, the first intercollegiate Greek-letter fraternity established for African-Americans, was founded at Cornell University in Ithaca, New York, by seven college men who recognized the need for a strong bond of brotherhood among African descendants in this country.

Jason German

Alpha Phi Omega

Alpha Phi Omega is a service fraternity that has made a name for itself through projects to help the campus, community, and nation.

Alpha Phi Omega hosts the First Friday Blood Drive and the Clemson versus Carolina Blood Drive. They also do Adopt-a-Highway and service at Wilderness Way.

http://people.clemson.edu/~APO

Alpha Phi Omega tries to enhance each of its member's experience at Clemson in many respects. Giving the members the ability to provide service to the Clemson community and the nation enhances their feeling of self-worth and furthers involvement in the Clemson community. Finally, Alpha Phi Omega aids in the development of leadership skills, allowing its members to hold leadership positions not only within the fraternity, but in the realm of service we provide.

Peter Lukens

A message from the *President*

Alpha Chi Omega

Alpha Chi Omega takes pride in the bond of sisterhood that its members share, continuously strengthening their standards of service, sisterhood, leadership, and character.

The sorority hosts social events, raises money for their philanthropy, domestic violence awareness, through an annual dance competition, and participates in numerous service and campus activities.

http://people.clemson.edu/axo

Photography Courtesy Patsy Snyder

A message from the *President*

Being a part of Alpha Delta Pi is something that all of us hold very close to our hearts and has been a unique and cherished opportunity while at Clemson to meet girls who have become our lifelong friends and sisters. Words cannot describe how much Alpha Delta Pi has made my college experience complete; the memories made are irreplaceable and the friendships we have gained through the Alpha Delta Pi sisterhood make each of our futures bright with many more happy times to come. Congratulations to all of our graduating seniors-may God bless each of your lives as we continue to "live for each other" in everything we do!

Patsy J. Snyder

Kappa Alpha Theta

Kappa Alpha Theta participates in Clemson's activities, helping the community through service and bettering themselves all the while.

Kappa Alpha Theta's activities include Come Splash a Theta, Stars-N-Spikes, and intramural sports.

kat@clemson.edu

Photography Courtesy Kappa Alpha Theta

A message from the *President*

The Thetas are part of the Clemson family and strive throughout our college experience to promote the university and everything it encompasses. We contribute through academics and the programs and activities on campus, and we work together with the Greek Community to better the university. Everything we as Thetas stand for goes hand in hand with the university's stance.

Elizabeth Ann Feiner

Delta Delta Delta

Delta Delta Delta seeks to establish a perpetual bond of friendship between members, as well as to strengthen and assist in their lives in every possible way.

They host social functions and raise money for their philanthropy, the St. Jude's Children's Hospital. They also participate in a variety of campus and community activities.

http://people.clemson.edu/~trid/

A message from the *President*

Becoming involved in Delta Delta Delta influences its members' Clemson experience in many ways. The principal way it impacts their years here is through the bonds of friendship they form. From activities such as living on the hall, painting posters for philanthropy events, and intramural sports, the girls get many opportunities to get to know each other on a much more personal level. Events like New Member Retreat, Initiation, Formal, and Frats at Bat also allow the girls to form memories that they will cherish far past their years here at Clemson.

Rebecca Heaten

Chi Omega

Chi Omega is a social sorority that promotes personal growth, high moral standards, professional development, and a network of friendship and support.

Members organize fundraisers for the Make-A-Wish Foundation, gather for fun sisterhood activities, and participate in campus-wide events.

http://www.clemson.edu/~chio

A message from the *President*

Gamma Phi Beta is so much more than a social organization. It is a place to celebrate, a place to cry, a home away from home, and a family of amazing sisters who love you for who you are. Our sisters work to give back to the community through involvement with Clemson activities, Greek life, and our international philanthropy, Camp Fire USA. We share bonds that will grow with time and forever connect us with this great university.

Kelly Costello

Kappa Sigma

Kappa Sigma, a social and service fraternity, contributes in a variety of ways to the community.

KS sponsors Shuckin' and Shaggin', a charity fundraiser, and brings spirit and excitement as the First Friday Parade's annual "Kudzu Kids."

kapsig@clemson.edu

Photography by David Tucker

A message from the *President*

Our time as Kappa Sigmas here at Clemson will linger in our minds forever. The memories and brotherly bonds we have made shall not be broken. We are Snappers and Tigers for life!

Tim Maddux

Panhellenic Council

The Panhellenic Council is the governing body of the 10 national sororities at Clemson University.

In the spring, the council hosts the Scholarship Dessert that rewards Greek women who made a 3.5 or higher. It also sponsors the Homecoming barbeque on Bowman and honors a faculty member as Panhellenic Teacher of the Year.

http://people.clemson.edu/~panhell/

Photography by David Tucker

A message from the *President*

The Clemson Panhellenic Council is composed of delegations from each of our ten national sorority chapters. The president, delegate, and assistant delegate serve as the voice of their individual chapter and have been extremely instrumental in accomplishing the issues that face the Greek community. In fall 2004, we welcomed our newest national chapter, Delta Zeta, to our campus. We have begun to lay the foundation for the future of Greek housing. Panhellenic Council provides service to our community, as well as collaborating with other student organizations to provide service to Clemson.

Mary Pickens

Photography by David Tucker

Beta Theta Pi

Beta Theta Pi is a social and service fraternity.

Members of Beta Theta Pi are actively involved in the community, volunteering at Ravenel Elementary. They also held their first annual philanthropy boxing tournament in the spring. On Clemson's campus, members are active in Student Government, Blue Key, Order of Omega, Tiger Brotherhood, and many other organizations. They excel in athletics and academics, consistently making the playoffs in all IFC sports, as well as placing first in grades.

http://people.clemson.edu/~beta/

A message from the *President*

Beta Theta Pi is a social and service fraternity whose members uphold the fraternal ideals of lifelong friendship, dedication to leadership, devotion to academic excellence, commitment to community service, and high standards of conduct as declared by our Men of Principle Initiative. Delta Nu is a nationally recognized Beta Theta Pi chapter after winning its third Sission Award for overall chapter excellence. Looking forward to moving back into the quad, Beta recieved the first pick of where we wanted to live after a thorough chapter ranking done by IFC.

Taylor Herton

Photography by David Tucker

Zeta Beta Tau

Founded at Clemson in 1997, ZBT is a fraternity dedicated to the principles of Intellectual Awareness, Social Responsibility, Integrity, and Brotherly Love.

Zeta Beta Tau hosts ZBTeeball and a mountain weekend, while also being involved in Intramural sports and Freshman Move-In Day.

http://people.clemson.edu/~zbt/

A message from the *President*

Nationally, Zeta Beta Tau Fraternity has a policy of non-hazing. This is incorporated into our Brotherhood and New Member program by abolishing a pledge program. As a member of IFC, we have brothers involved in all aspects of campus life. ZBTahiti, Carolina Cup, and Mountain Weekend are annual events that always draw the enjoyment of our brothers. When it comes to giving back to the community, we sponsor several philanthropic events, including a crew for Freshman Move-In Day and our annual ZBTeeball, benefiting the Children's Miracle Network.

Rob Luschek

Phi Delta Theta

Phi Delta Theta's diverse, yet unified, brotherhood offers good times, a home for Phi Delt's during their years at Clemson, and bonds of friendship that last much longer.

They hold an annual Mountain Weekend and Beach Formal, host a Phi Delt 500 tricycle race for the ALS Association, and participate in Adopt-A-Highway. Members also hosted their 35th Anniversary Founders' Day Celebration this year.

pdfrat@clemson.edu

A message from the *President*

This spring, we celebrate the 35th anniversary of the founding of our chapter on Clemson University, which occured on March 7, 1970. Phi Delt is proud to be a part of the small handful of fraternities to have remained continuously on campus since 1970.

Jon Christiansen

Sigma Alpha Epsilon

This social fraternity was originally founded as the Numeral Society, with its original initiative being to build a homecoming float. It was rechartered in 2003 as the "phoenix chapter."

Brothers participate in Relay for Life, a charity softball tournament, and a charity barbeque.

www.clemson.edu/~sae

The South Carolina Nu Chapter of Sigma Alpha Epsilon gives its members not only a strong, devoted brotherhood and a rich history, but also an enhanced Clemson experience. The friendships and shared experiences provided by SAE create a connection to Clemson that goes well beyond sporting events. Chapter traditions like building the only true homecoming float help to further improve our members' Clemson experience through the fraternity.

Bill Suski

A message from the *President*

Zeta Tau Alpha

Zeta Tau Alpha takes pride in the standards of their founders and the friendship, service, and sisterhood that sisters share today.

Sisters help in the fight against breast cancer, host the annual "Big Man on Campus," and hold sisterhood and social activities.

http://people.clemson.edu/~zta/

1 Several girls enjoy dinner before semi-formal. These special events are some of their favorite Zeta memories.

6 Zeta Tau Alpha's own Emily Andersen, Miss First Friday, waves to the crowd during the parade. Photography Courtesy Zeta Tau Alpha

7 Candace Arnold and Kathleen Resua enjoy getting ready for Zeta's semi-formal. Photography Courtesy Zeta Tau Alpha

A message from the *President*

Being a member of Zeta Tau Alpha makes the Clemson experience unforgettable. The sisters of ZTA have affected countless lives through our efforts to raise awareness through Breast Cancer Education on campus and throughout the community. Our sisters have formed unique friendships and memories together by living on the hall, attending social and sisterhood events, and holding each other up through both the good times and the bad. The experience of being a sister in Zeta Tau Alpha does not end at graduation; instead, ZTA is forever!

Lindsay Marrock

Delta Zeta

Delta Zeta, the newest sorority on Clemson's campus, colonized this past fall, and was inaugurated as a new chapter in April, with 165 new members. Members take pride in their addition to Clemson's Greek community.

Members host social events, raise money for their philanthropy which assists those with speech and hearing disorders, and are active in all aspects of campus life.

http://clemson.DELTAZETA.org

A message from the *President*

I am honored and excited to have the privilege of being president of Delta Zeta for 2005! We have gotten off to a great start with one hundred and sixty amazing girls, picked on the basis of character, involvement, and other areas as well. We are very grateful for how other Greek organizations have made us feel so welcome to Clemson Greek life! Most excitingly for our new colony this year, we will be initiated nationally and established on the Clemson campus in April. This will be a milestone for both the Clemson community and Delta Zeta. We take much pride in our sorority and look forward to the future of Delta Zeta at Clemson!

Christine Beck

Sigma Gamma Rho

Sigma Gamma Rho Sorority, Inc. strives to preserve the mission of its seven founders and works to practice the motto, "Greater Service, Greater Progress."

Members host social events, participate in Operation Bookbag, Buckle Up America, Habitat for Humanity, and Project Reassurance.

http://www.clemson.edu/~sgr

Photography Courtesy Sigma Gamma R

A message from the *President*

Our organization allows its members the opportunity to leave their mark on the Clemson campus. Through our many projects and activities, this organization presents its members with the chance to make a difference in the lives of the people in the Clemson community. We allow members to build long lasting friendships and plant the seeds of love and sisterhood in their hearts. To be a membe of this prestigious organization is a great honor.

Reah Nicholson

Photography Courtesy Sigma Nu

Sigma Nu

The Theta Zeta Chapter of Sigma Nu promotes service an brotherhood through dedicatio to its high standards and ideals

Brothers participate in intramur sports, the MS walk, and the Gameball Run with the Sigma Nu chapter at the University o South Carolina.

http://people.clemson.edu/~snfrat/

Sigma Nu Fraternity has been a leader at Clemson since its colonization in 1970. We have continued to dominate interfraternity accomplishments and lead the way among fraternities in terms of scholastic achievement and in numerous organizational and extracurricular activities. The chapter prides itself on past excellence as a member of the Greek community and looks forward to continuing to serve as an integral part of the tradition and history at Clemson.

Martin Gilchrist

A message from the *President*

Kappa Alpha Order

Kappa Alpha Order seeks to create well-rounded individuals based on their four phase Crusade Program.

Brothers hold an annual MDA golf tournament, raise money with an annual MDA bass tournament, host interfraternity social events, and are involved in intramurals.

www.clemson.edu/~kalpha

Kappa Alpha Order offers its members a great opportunity to become more involved on campus. KA helps in creating connections on and off campus that help our members become better leaders. Our organization promotes strong brotherhood which will allow us to have ties to each other and Clemson for a lifetime.

Tidewater

SKANSKA

Founded in 1932 in Norfolk, Virginia, Tidewater Skanska (Formerly Tidewater Construction Corporation) began operations as a marine and pile driving construction firm. From this humble beginning, the company has grown to a position of prominence among the country's major construction firms and has increased its scope of operations over the past seventy years.

Taps Staff 2005

Photography by Daniel Skinner

Dear Clemson Family,

We are honored to have served as Taps co-editors this year. We appreciate the opportunity to serve the Clemson Family by carrying on a century-old tradition. This year has been a year of transition and change for Taps. Volume 95 is Clemson's first all-color yearbook and is also the first volume featuring all-digital staff photography. These accomplishments would not be possible without the hard work of the senior and junior staff members of Taps, and we would like to thank them for their dedication to the organization. We trust that their talent will be recognized by readers, and we encourage them to continue advancing Taps and preserving the memories and history of the Clemson Family.

We hope that through the theme of "in cadence count" a reference to both the school's military heritage and school pride, we have showcased the Clemson Experience and what it means to us all. Of course the Clemson Experience is far greater than anything that could fit into a book, but our hope is that the staff's work reflects a great portion of what all it is to be a Tiger. For students, faculty, and community members, we hope that you find that the book highlights the major events of the 2004-2005 school year, and that years from now, when looking back on the book, you are able to flip through its pages and reminisce over your favorite Clemson moments from this year. For readers that are not part of the Clemson Family, we hope that the book gave you insight into how wonderful it is to be a part of this family and of this great university. Hopefully one day you too will take pride in breaking into cheer upon hearing the famous words, "C-L-E-M! In cadence count!"

Go Tigers!
